

IF WOMEN ONLY KNEW

What a Heap of Happiness It Would Bring to Forest Grove Homes.

Hard to do housework with an aching back. Brings you hours of misery at leisure or at work.

If women only knew the cause—that Backache pains come from sick kidneys, 'Twould save much needless woe. Doan's Kidney Pills cure sick kidneys

Mrs. Mary Bumgardner, of 424 Water Street, Salem, Ore., says: "I have found Doan's Kidney Pills a remedy that is worthy of all confidence and am pleased to endorse them so that other sufferers from kidney complaint may know how to get relief. I procured Doan's Kidney Pills at a drug store and several members of our family have used them with the most gratifying results. I took them myself for a tired aching back and a dragging down feeling that comes from irregular and deranged kidneys. The results were of the best. The aching and soreness were banished and the kidneys were rendered normal. My health became better in every way."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

SIMPLE HOME RECIPE.

Mix This Simple, Healthful Recipe at Home and Try It, Anyway.

Get from any prescription pharmacist the following:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

Shake well in a bottle and take a teaspoonful dose after each meal and at bedtime.

The above is considered by an eminent authority, who writes in a New York daily paper, as the finest prescription ever written to relieve Backache, Kidney Trouble, Weak Bladder and all forms of Urinary difficulties. This mixture acts promptly on the eliminative tissues of the kidneys, enabling them to filter and strain the uric acid and other waste matter from the blood which causes Rheumatism.

Some persons who suffer with the afflictions may not feel inclined to place much confidence in this simple mixture, yet those who have tried it say the results are simply surprising, the relief being effected without the slightest injury to the stomach or other organs.

Mix some and give it a trial. It certainly comes highly recommended. It is the prescription of an eminent authority, whose entire reputation, it is said, was established by it.

A druggist here at home when asked stated that he could either supply the ingredients or mix the prescription for our readers, also recommends it as harmless.

Dairymen's Corner

A Herd of Indiana Holsteins.

HOARD'S DAIRYMAN:—We have been reading your paper for twenty-five or thirty years and it has had its influence and I think I can prove it by giving you a little history of our herd of Holsteins. All the teachers of good dairying are now talking good bulls to head the herd and raise your own good cows but you have been talking it "Lo these many years" and some 23 years ago, you worked me up to a point where I had courage enough to buy a good yearling Holstein bull and after the first plunge it was easy enough, for the one-half bloods were so much better than their mothers that we wanted to go them one better, so we have continued from that time to this to keep a good Holstein bull at the head of the herd.

In buying our bulls we had bullhead luck by getting three of the Johannas. Ten or twelve years ago Gillett & Son sold me a bull out of Joanna 4th and out of a son of Mutual Friend 2nd and his performance was as good as his breeding. We got the idea Joanna's were all right, so the next bull we bought was Joe Johanna DeKol out of Joe's Bride and sired by Johanna Aggie Paul DeKol.

My next bull was a home produc-

tion. We had a noble cow, perfect in every respect which gave in one day 69 pounds milk and in 30 days 1,862 pounds of 4 percent milk. We bred her to a Sir Henry of Maplewood bull which brought a heifer and we bred that heifer to the bull got of Gillett and got a bull which we used on our herd with grand success. We commenced with a good herd of common cows and our best cow made 36 lbs. milk per day.

With more knowledge of feeding and with much better breeding, 60 to 70 lbs. of good milk per day is a common occurrence. For year ending July 31, we sold from 32 cows and heifers, nearly one-half heifers, \$3,287.39 in milk besides raising nearly all these calves on full milk from the same cows, and the calves after receiving the milk would easily sell on the average for \$25, making a yearly income per head of \$125, besides the herd growing better all the time.

Just as sure as we live and breathe, any man who wants good cows to milk had better buy a good bull and raise his best heifer calves and if he has good horse sense, sticks to it and continues along the same line of breeding, he will get a herd of cows that will give him both pride and profit.

Indiana. SAM B. WOODS.

More than twenty-one million cows are milked in the United States every day. That means much work for many men, many women and many children. It also means hundreds of millions of dollars of capital invested, many millions in profits to the dairymen and oceans of expense to the consumer. But we must have milk and butter or life would not be worth the living, and we cannot have these without the cow. The statisticians at Washington furnish us some startling figures on the subject. The annual output of the country is seventy billion pounds, allowing an average of 3,560 pounds of milk to each cow. Over half of this product is required in making butter, a billion pounds goes into condensed milk, three billions into cheese, while the rest goes to the calves, is sold as cream or drunk by the people. There is enough to give each person nearly a pound, or a good-sized tumbler full, though many of course get much more than their share. In addition to this milk, each individual is supposed to eat twenty pounds of butter a year and with all our cows, creameries and farms we cannot quite supply the demand which necessitates the annual importation of about 45,000 pounds.

Power of the Waves.

The power of waves, says Mr. Brown in La Nature, is the sum of two efforts, one dynamic and due to the orbital movement of the water particles, the other static and dependent on the height of the center of gravity of the mass raised above its normal position. Theory and observation seem to show that the total power of waves is divided equally between these static and dynamic effects. If a body of water meets the wall of a structure there is a shock, and this is most violent at the water surface, diminishing with the depth. At the moment of meeting jets of water rise sometimes to very great heights.

His System.

Shippin Clark (to his employer, leaving the office)—Oh, Mr. System, haven't you forgotten your umbrella? It's raining. Mr. System—Can't help it. I have made a resolution to have one here and one at home to provide for all emergencies. Now, if I take this one they'll both be at home.—London Tit Bits.

Force of Habit.

Mr. Easy—Cheer up, Mr. Peck. If we must go down let's go cheerfully like men. Mr. Peck—But, hang it all, Mr. Easy, if I don't get home my wife will never let me go fishing again. never!—Harper's Weekly.

A decent boldness ever meets with friends.—Homer.

SUMMONS.

IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR WASHINGTON COUNTY,

Emily J. Fleming, Plaintiff,

vs.

James A. Fleming, Defendant.

To James A. Fleming, the above named defendant: In the name of the state of Oregon, you are hereby notified that the above named plaintiff has filed a complaint against you in the entitled court, and you are hereby required to appear and answer said complaint on or before the last day of the time prescribed by the order of publication hereof, to-wit: on or before the 11th day of October, 1907.

You are further notified that if you fail to appear and answer the complaint herein, or plead thereto, the plaintiff will cause your default to be entered and will pray the court above mentioned for the relief prayed for in the complaint therein, that is to say, for a judgment, and decree against you forever dissolving the bonds of matrimony now existing between the above named plaintiff and yourself, the above named defendant, and for such other relief as the court may deem equitable in the premises.

The date of the first publication of this summons is Thursday, August 22nd, 1907, and that of the last publication hereof is Thursday, October 10th, 1907.

This summons is published by order of the Hon. J. W. Goodin, County Judge of said county, said order having been made in chambers, August 20th, 1907, on account of the absence from this county of the Circuit Judge.

W. H. HOLLIS,
Attorney for the Plaintiff,
Forest Grove, Oregon.

Notice for Publication.

United States Land Office,
Portland, Oregon, July 30, 1907.

Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada and Washington Territory," as extended to all the Public Land States by act of August 4, 1892, Mark Bailey Esq. of Hillsboro, county of Washington, state of Oregon, has this day filed in this office his sworn statement No. 7514, for the purchase of the lot five and the southeast quarter of the southwest quarter of section No. six, in township No. 1 N. range No. 3 W. Willamette meridian and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before the Register and Receiver at Portland, Oregon, on Saturday, the 9th day of November, 1907.

He names as witnesses E. W. Howell, of Mountaineer, Ore.; J. H. Howell, of Mountaineer, Ore.; Emil Seifert of Racon, Ore.; D. D. Bump of Forest Grove, Oregon.
Any and all persons claiming adversely the above described lands are requested to file their claims in this office on or before said 9th day of November, 1907.
ALGERNON S. DRESSER, Register.
