Wells-Fargo Accused of Discrimination Against Merchants.

EXPRESS CHARGES HIGH.

San Francisco, Cal., Dec. 31 .- Interstate Commerce Commissioner Franklin K. Lane, today held a hearing of the complaint of the California Com mercial association, composed of 29 Good Report on Klamath Country Railroads Give Out Figures Showing

mercantile firms in this city, charging the Wells-Fargo Express company with concealing from the public tariff schedules that had been filed with the Interstate Commerce commission in Washngton and with making unjust and dis criminatory rates. The actual question involved, however, was whether or not the quantity rate cf 8 cents a pound from New York to San Francisco for shipments of 10,000 to 20,000 pounds applied to bulk or assembled shipnents, gathered and forwarded by a forwarding agency to one concern or association organized for the purpose of getting the lower rate, the shipment

ultimately intended for numerous consignees who were designated by numbers of the labels to the one consignee. The charges of discrimination are

based upon the refusal of the express company to transport a shipment of 16,000 pounds consisting of 443 packages, from New York to the California Commercial association in San Fran cisco last August, at the bulk or quantity rate of \$8 per hundred pounds, the ompany charging the regular package rate. It is also alleged that the express company charged a higher rate than that published and filed with the den from the public. This complaint

In answer, the express company denies all the allegations made, and charges that the association resorted to

subterfuge in order to extort unjust discrimination in its own favor, and based its refusal to grant a quantity rate upon the shiment in question on the ground that, while consigned to one onsignee, it was intended for more

than a score of firms.

ping the practice of Brooks in Shanghai. Judge Wilfley denied that he was going to Washington to meet the charges
