Forest Grove boys always make the communities whither they go sit up and take notice in all activities, and the last event in which our lads came off winners was a masquerade ball given at Raineer New Year's eve. There were several prizes awarded from \$5 to \$50, for the best sustained characters and Ora Fields and his brother-in-law Jesse Russel pulled down the \$50 for their excellency. They masked as the Fairbanks Washington Powder Gold Dust Twins.

It may be interesting to some of our fair daughters to know that The Spectator of Portland, has published a big list of the eligible bachelors of the Rose City. Last week's issue and the issue before contain a host of moneyed and other kind of men candidates for marriage. We could print a list of Forest Grove's eligibles but there was such a slaughter last fall and so many on the bargain counter have been spoken for since New Year that it is hardly worth the while, the available bachelors are so few.

A. C. Allen of Beaverton and a student at the college received a post card Monday with the signature Miss M. Lemon attached. On the spur of the moment he thought that it was a slap on the wrist—Lemon—but on second consideration he remembered all. Last Fall the delegation of dusky and charming damsels from the Hawaiian Islands visited Pacific University and a Miss M. Lemon was with the delegation. Friends of Mr. Allen fear that he will not finish college and the little violet scented post card from Uncle Sam's adopted daughter seems to indicate that Lemons and ill luck are not always synonymous.

W. M. Seeley who was in the blacksmith business in this city for a few weeks, was the principal figure in a saloon function at Mark Tracy's emporium in Cornelius last Friday. Seeley was celebrating to Bacchus the god of booze, and in his true worship forgot self and coin during the festivity. Later however it dawned upon him that he had about ninety dollars on his person. As he thought of the money and how many horses he had shod to get it, how many times he had been jolted in the ribs, how many times he had struck the anvil, the lust for the gold conquered the love for Bacchus. He felt in his pantaloons for the lucre; but the Eagles had flown where and how he did not know. But thinking that he had lost it in the saloon he made a complaint; a search warrant was issued and M. H. Otis, marshal and constable, armed to the teeth—with the warrant—made the search. However the blacksmith is still minus \$90.

Three Safes Cracked Last Night.
 (Continued from Page 1.)
 bank was blown about eighteen months ago and some eight or ten thousand dollars was taken.
 Postmaster Atwell has been in communication with the authorities at Portland and also has the... it is expected that detectives will at once take up the matter in an attempt to find the robbers.
 The conditions in which the safes at the postoffice and depot are left will inconvenience the business until the safes are forced open as they contain all the stamps and money and likewise the tickets and money at the depot.

The Drew Automatic Carrier

To the Dairy Farmer: The Drew Automatic Carrier cannot fail to appeal to you affording a splendid opportunity of improving your business operations.

First—By saving time and labor, which means reducing cost of production.

Second—By insuring cleanliness which means increased value of your products and healthier live stock.

Third—By greatly enhancing the value of the stable manure, through not allowing the liquid portion to be lost in wheeling or pitching from one place to another.

These are a few of the advantages derived from installing an Automatic Drew Carrier, but they are enough to show the business farmer that it is one of the best paying investments he can make.

The following testimonials speak for themselves:

Forest Grove, Ore., Dec. 22, 1907.
 Mitchell, Lewis & Staver Co.,
 Portland, Oregon.
 Gentlemen:—In reply to your enquiry will say that the Drew Carrier is ALL RIGHT. No man with five cows can afford to do without one as a labor saving device. There is nothing can be put in a barn that will equal it. I would do without a hay fork sooner than a Drew Carrier. A Drew Carrier is used 365 days in the year and a hay fork only in haying time, and further the manure saved from 5 cows and 3 horses over the usual way will pay for the outfit in one year.

I have a cheap Iron Truck with a flat rack suitable for hauling hay on 7x14 tight bottom. Nine months out of the year this outfit stands ready to take the manure and the labor of taking it up off the ground.
 Yours truly,

 I ordered an automatic litter carrier last fall and it works fine. The best labor saving device on the farm.
 Yours respectfully,

 The carrier works very good, and I am much satisfied with it.
 Yours truly,
