Story and scientific magazines contributed to the Public Library are in great demand. They are bunched together, sold and the money turned into the fund. Many people who cannot afford to buy new periodicals, avail themselves of getting the reading if it is a little late. People who have magazines of this sort that they have already read would do well to contribute them to the Public Library.

The Drew Automatic Carrier

To the Dairy Farmer: The Drew Automatic Carrier cannot fail to appeal to you affording a splendid opportunity of improving your business operations.

First—By saving time and labor, which means reducing cost of production.

Second—By insuring cleanliness which means increased value of your products and healthier live stock.

Third—By greatly enhancing the value of the stable manure, through not allowing the liquid portion to be lost in wheeling or pitching from one place to another.

These are a few of the advantages derived from installing an Automatic Drew Carrier, but they are enough to show the business farmer that it is one of the best paying investments he can make.

The following testimonials speak for themselves:

Forest Grove, Ore., Dec. 22, 1907. Mitchell, Lewis & Staver Co., Portland, Oregon.

Gentlemen:—In reply to your enquiry will say that the Drew Carrier is ALL RIGHT. No man with five cows can afford to do without one as a labor saving device. There is nothing can be put in a barn that will equal it. I would do without a hay fork sooner than a Drew Carrier. A Drew Carrier is used 365 days in the year and a hay fork only in haying time, and further the manure saved from 5 cows and 3 horses over the usual way will pay for the outfit in one year.

I have a cheap Iron Truck with a flat rack suitable for hauling hay on 7x14 light bottom. Nine months out of the year this outfit stands where the manure is dumped on it and when loaded is spread upon the land. I save the manure and the labor of taking it up off the ground.

Yours truly, A. W. GILLIS.

Hopbottom, Pa., Sept. 4, 1907. I ordered an automatic litter carrier last fall and it works fine. The best labor saving device on the farm.

Yours respectfully, C. C. STERLING.

New Ulm, Minn., Jan. 18, 1907. The carrier works very good, and I am much satisfied with it. Yours truly, A. W. BERGSTROM.
