It seems to be the habit of Prosecutor Heney to turn loose a dozen criminals to catch one. This may be justice—but is it?

President Roosevelt sent a special message to the Senate and House last week in which he advocates more stringent laws upon graft. The message is clear cut and decidedly characteristic of the President.

Harry Thaw has been found not guilty—but insane, by the jury Saturday. This means that he will be confined to an asylum until the public forgives him and by the aid of his millions he will go scot free. Thus the unwritten law releases another criminal.

A newspaper may boom a town through its editorial and news columns, but a critical investor looks to the advertising columns for substantial evidence of push and life. To him they are thermometers measuring the intensity of public warmth; they are the pulse which indicates the healthy condition of the collective body of the people; they tell him whether or not the community is up to the times in business matters.—Ex.

HOWE'S OBSERVATIONS.

What has become of the old-fashioned woman who thought it a waste of time to fan anywhere except in church?

When a man's second wife wants to be acceptable, she has to be agreeable to three sets of kin: Her husband's, his first wife's, and her own.

Are you kicking yourself out of a job? Many people do it. Are you willing to accept a poorer job in order that you may have your fool way? Many people are.

"Do you remember what Owen Meredith said?" a woman asked a man today. "No," the man replied, "I don't remember it, and don't care to hear it."

How slow some people are to learn! Some men at forty have never heard that it is not only impolite to eat with a knife, but that a fork is better in every way.

The style this winter is to be thin; also the style in fruit pies. Owing to the scarcity of fruit, the fruit pie this winter will be as thin as if it had practiced anti-fat movements all summer.

While it is not proper to accept a man's invitation to his home unless his wife joins in the invitation, it is proper to accept a wife's invitation without the husband joining in. The man pays the bills but if his wife knows her business, she runs her husband, her home, her children and her kin and most of her neighbors.

A Word to the Public.

Those who read carefully our report for the year 1907, which was printed in this paper in December, and those who have made the acquaintance of our library, will appreciate the three things we are writing this note to emphasize:

1. The public library is proving a great success. It is largely patronized, and the members increase month by month. In January there were 38 new cards taken, and the circulation was 361, the largest in the history of the library.

2. The people of Forest Grove and vicinity, and their servants the Library Board, are most fortunate in securing such intelligent, interested and efficient care of the library, and all at a very low cost.

3. The great need is for more books. Just now this need is pressing. The demand outruns the supply and this demand is increasing. The lack of books is the one great limitation upon the extending usefulness of the library. We have a good appropriation in the tax voted for this year; but no money will be available for books for several months, and then the amount from this source will be small.

Any citizen or friend of Forest Grove who may at any time put into our hands a few dollars or a hundred dollars, or put into his will a generous legacy, for a book fund, may be assured that he is making his money count for good for a long time, and that we will carefully preserve and use such a fund for its best service.

But we need a little money for immediate use. A friend of the library has just offered us \$5.00 for new books, if we can raise ten dollars or more in addition very soon. We wish to raise \$25 now. Sums from 25c to one hundred or more may be handed to the Librarian or to any member of the Board.

Gratefully and urgently yours,
HERBERT W. BOYD,
Pres. Library Board.

Notice.

Dr. Hines, the city physician, wishes us to state that in families where there are cases of mild sore throat, they must be reported just the same as more severe cases. There is no charge when you call the city physician to make tests for diphtheria for it is his duty to diagnose diseases that are contagious. Of course you have a right to call your family physician, but this notice is given to urge a careful attention to be given to mild sore throat.

John Wirtz has purchased Robert Wirtz' equity in the old home and will soon move in, and Robert will build a house on the lot just north of the old home; then Jake and John and Robert will all live in a row.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by restoration of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are cured by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

Notice.

I hereby announce myself as a Republican candidate for the office of County Assessor of Washington County, Oregon, subject to the endorsement of the Republican voters of this County at the Primary election to be held on April 17th, 1908.

If I am nominated and elected I will during my term of office give all a square deal and good service.
