

ENGLAND SAYS NO ALUM IN FOOD

and strictly prohibits the sale of alum baking powder—

So does France
So does Germany

The sale of alum foods has been made illegal in Washington and the District of Columbia, and alum baking powders are everywhere recognized as injurious.

To protect yourself against alum, when ordering baking powder,

Say plainly—
ROYAL BAKING POWDER

and be sure you get Royal.

Royal is the only Baking Powder made from Royal Grape Cream of Tartar. It adds to the digestibility and wholesomeness of the food.

It is hardly believable that \$3,000 is the income from ten acres of Washington county soil in one year, but such is the case. A. E. Rice of near Cornelius has a ten acre tract that last year he sold from six acres of onions \$2,889, and from the remainder of four acres he sold \$200 worth of vegetables, fruit, etc. This is not all, he had a family of six who received practically their living aside from these returns. This is not the yield for only one year but every year he receives almost as much as he did this year.
