

Pure Blood

It is certain if you take Hood's Sarsaparilla. This great medicine cures those eruptions, pimples and boils that appear at all seasons; cures scrofula sores, salt rheum or eczema; adapts itself equally well to, and also cures, dyspepsia and all stomach troubles; cures rheumatism and catarrh; cures nervous troubles, debility and that tired feeling.

Sarsaparilla—For those who prefer medicine in tablet form, Hood's Sarsaparilla is now put up in chocolate tablets called Sarsatabs, as well as in the usual liquid form. Sarsatabs have identical the same curative properties as the liquid form, besides accuracy of dose, convenience, economy, no loss by evaporation, breakage, or leakage. Druggists or promptly by mail. C. L. Hood Co., Lowell, Mass.

Mrs. C. K. Tyler, Burlington, Vt. says: "The cure of a large farm, so much to do and so little health to do it with, caused almost a complete breakdown; blood poor and thin; no strength, little sleep. Hood's Sarsaparilla gave appetite, natural sleep, perfect health, strength to do all my work."

An English View of Robert E. Lee.
General Robert E. Lee was indeed fully Washington's equal as a hero and a gentleman and much his superior as a soldier. It is only in the larger political or semipolitical sphere that he stands lower and there perhaps only because his opportunities were so much smaller.—London Times Review of Trevelyan's History.

Graduated from the Bible.
Octave Thanet tells a story of an old dandy in Florida who was anxious to learn to read, so that he could read the Bible. He said that if he could read the Bible he would want nothing else. A friend of the narrator taught him to read. Some time afterward she visited his cabin and asked his wife how his Bible reading was getting on.
"Laws, Miss Fanny," said this person, "he just suttinly kin read fine. He's done got outen de Bible an' into de newspers."—Indianapolis News.

Keeps Them Away.
First Landlady—"My boarders loaf around the parlor every evening, much to my annoyance. Does your?"
Second Landlady—"No, indeed! My daughter is learning to play the piano."

Literary Investment.
You buy a book and hope to read it. A profit quite extensive. The style may be a little cheap. But the paper's right expensive. —Washington Star.

PILES CURED IN 6 TO 14 DAYS.
FAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

He Could Improve It.
"I went to the theater last night."
"What did you see?"
"A play called 'Hamlet.'"
"How was it?"
"Fair; only fair. A good, lively set-piece would do it a world of good."—Washington Herald.

Ugh!
"The 'Great White Plague,' my son," said the Injun chief, in a passion, "is that wicked, thieving race that takes itself the Caucasian!"

You Can Get Allen's Foot-Ease FREE.
Write Allen S. Olmsted, Le Roy, N. Y., for a free sample of Allen's Foot-Ease. It cures sweating, hot swollen, itching feet. It makes new or tight shoes easy. A certain cure for corns, ingrowing nails and bunions. All druggists sell it. 25c. Don't accept any substitute.

Echoes of the Past.
Wagner was writing the music of the future.
"I intend to produce something," he said, "that will go thundering down the ages."
How well he succeeded let the ages bear witness.

Outside of His Practice.
"All that is the matter with you, sir," said the eminent physician, after a thorough examination, "is lack of nutrition. You don't eat enough."
"I eat all I can hold, doctor," said the attenuated caller.
"Then you need to have your capacity enlarged, and that's a case for a surgeon. Five dollars, please. Good morning."—Chicago Tribune.

Hirsute Glory.
The young man was admiring her beautiful and abundant hair.
"What a wealth of it there is!" he exclaimed. "When you loosen it I suppose it drops to the floor."
"Huh!" broke in the little sister of the young woman. "It drops on the floor!"—Chicago Tribune.

Deplorable Business Error.
"Did you ever make a mistake, doctor?"
"Yes, once I was called in by a patient and diagnosed his case as stomach ache—I only learned the following day that he was rich enough to have appendicitis."—Die Muskete.

WORK OF ANARCHIST

Attempts to Kill Chief Shippy, of Chicago Police.

FIGHTS HARD TO THE VERY LAST

Assailant Slain by Chief After Wounding Four Persons—Dead Man Had Plotted Long.

Chicago, March 3.—The would-be assassin of Chief of Police George M. Shippy was last night identified as Lazarus Averbuch, a Russian student of presumably anarchistic tendencies.

Chief Shippy, attacked in his home, No. 31 Lincoln place, at 9:30 a. m. yesterday by Averbuch, shot and killed the latter, but not until his assailant had stabbed him in the arm and shot and dangerously wounded Harry Shippy, a son of the police official, and had wounded James Foley, a member of the police department detailed as driver for his superior.

The younger Shippy was said at a late hour last night to have a good chance of recovery. Neither of the other men was dangerously hurt.

Averbuch's attempt upon the chief's life was the fourth effort he had made to accomplish his purpose. Twice on Sunday he visited the house, but was unsuccessful in finding his intended victim at home. At 7 o'clock yesterday morning he made his third appearance, but was informed by a servant that the chief could not be seen till 9 o'clock. When he returned at 9 o'clock the chief was on the point of leaving for his office. When admitted at the front door Averbuch handed the chief an envelope bearing his name and address, but the latter, having heard of the previous visits to his home, suspected that something was wrong and seized him by the arms. The envelope which was found later to be only a ruse to gain entrance, contained only a blank sheet of paper. The quickness with which the chief acted upon his suspicion doubtless saved his life. Averbuch, though slight in build, proved in his desperation almost a match for the chief, who is much larger, and the latter found himself unable to hold his assailant and search him for weapons at the same time. He therefore called to his wife, who was in the next room, asking her to ascertain whether the man had a weapon in his pockets.

Mrs. Shippy discovered a revolver in Averbuch's pocket, but before she could remove it he struggled loose from the grasp of the chief and, drawing a long knife, stabbed the chief in the arm. Thereupon the chief grappled again with his assailant, who drew a revolver.

At that moment Harry Shippy, 19 years old, came rushing down the stairway to his father's aid. Averbuch fired two shots, one of which struck young Shippy, who fell seriously wounded. Before Averbuch could fire again, James Foley, the chief's driver, attracted by the shooting, ran to the door and seized Averbuch. The assassin struggled loose from the embrace and fired a shot, which pierced Foley's hand.

Thereupon both Mr. Foley and Mr. Shippy emptied their revolvers into Averbuch's body. One bullet entered the man's breast near the heart and another passed through his head. The revolver dropped from his fingers and he died without a groan.

There is another great boon to the housewife in the alcohol flat-iron, which will burn only about a cent's worth of fuel, rather than ten or fifteen cents worth as when you have to use a stove of any sort. You can take this flat-iron into any room of the house, out onto the porch, out under a shade tree, or anywhere else that you want to, as you have no "string" attached to you as in the electric iron, and you do not have to travel back and forth between the ironing board and the stove, as you have always had to do, nor do you have to stand near a hot stove while you are doing your ironing.

FATE IN DOUBT.

Seattle Fair Bill May Not Get By Its House Opponents.

Washington, March 3.—The members of the Washington congressional delegation are somewhat concerned over the manifest unpopularity shown by the Republican leaders in the house toward the Alaska-Yukon-Pacific exposition bill. While they feel reasonably certain that they will ultimately secure an appropriation for government buildings and exhibits, they realize that the opposition of the "strong men" of the house is likely to make it difficult to get as much money as they really need, and they believe that a further reduction in their bill will be injurious.

When the senate passed the Piles bill it went to the house, and should have been referred to the committee on industrial arts and expositions, before which the Humphrey bill was pending. Instead it was referred to the committee on ways and means on the lame excuse that the bill contained a provision authorizing the admission, free of duty, of exhibits from foreign nations. This committee is antagonistic to the bill.

Gets Evidence On Rebating

San Francisco, March 3.—Raymond Benjamin, assistant attorney general of the state, returned yesterday from Los Angeles, where he had been investigating the alleged rebating practices of the Santa Fe and Salt Lake railroads. He brought with him a long report prepared during the fortnight he spent in the Southern city. On Thursday the railroad commission will begin its investigation of the rebating methods of the Southern Pacific company.

Averse to Japs as Citizens.

Vancouver, B. C., March 3.—Wholesale objections to the naturalization of Japanese, which it is expected will be a test of eligibility of the brown men to citizenship and the rights of fishing on the British Columbia salmon grounds, have been filed by E. A. Lucas and were today announced at the opening of the March sitting of the County court.

DENATURED ALCOHOL.

Farmers May Make It Future Fuel of the West.

By Fred W. Lewis, Secretary Washington State Grange, Tumwater, Wash.
Two years ago the Grange, assisted by some other organizations went to work to try and pass a law that would allow alcohol to be manufactured and used for light and fuel, without having to pay the prohibitive revenue tax, that had been required by the government, so as to free the people of the country from the tyranny of the Standard Oil Co., which has gradually raised the price of fuel oil from a low price to an amount that is paying the monopoly extremely large dividends, thereby levying an unreasonable tax on the consumer of the products of petroleum.

After a long and hard fight in congress in which the Standard Oil Company did their best to prevent the passage of the bill, we conquered and now a farmer, or several of them may erect a still, and make alcohol in any quantities, the same to be denatured, or poisoned, by officers appointed by the government, and may then be used or sold to any one under a permit which may be obtained from the government.

It is now our duty to get the appliances for the use of the product into general use, so that there will be a demand for the alcohol, so that there will be distilleries installed all over the west, so as to use the waste products of our farms to make fuel for our engines, stoves, both heating and cooking, and to give us one of the best lights that you ever saw.

I wish that it were possible for me to show the lamp with its beautiful light, so that you could realize the value of it as a light producing fuel. Wherever I have demonstrated the light, it has met with an enthusiastic reception and it is only a question of letting people see the value of denatured alcohol, to insure a demand that will fill our land with distilleries, making our own fuel out of the small potatoes, sprouted wheat, small, and imperfect apples, and fruit of other varieties, and in fact, anything that is composed of sugar or starch.

A corn-field, with its stalks filled with sweetness, will make large quantities of alcohol, and a small amount of land will raise enough fuel to keep our homes well heated and lighted for the year.

Another good quality of this alcohol is that it is perfectly clean and healthful. There is no dust, smoke, soot, or gas, developed in the burning of it for either light or heat, and it does not vitiate the air in the room, as it contains oxygen, in itself and does not have to use the oxygen out of the air in the room, so much as any other fuel.

There is no wick-trimming to be done, as the wick is never on fire, and as far as smoke is concerned, the lamp chimneys will never need any washing, so the lamps are much easier to take care of.

You can turn it off until there is a very small light, and so makes a perfect night lamp, as there is no gas, as there is from a kerosene lamp, to make the bed room a hot-bed of disease.

Agricultural Club Formed.

By J. H. Frandsen, Department of Dairying, Idaho Experiment Station, Moscow.

A sudden impetus was given the agricultural interests of the University of Idaho on the 19 of December, 1907 when the students of that department organized an agricultural club. It consists of students deeply interested in agriculture, who are doing all in their power to build up a strong agricultural college in the university. It is with a keen sense of the needs of Idaho that the movement is begun. Idaho is one of the most rapidly growing states of the union. Over 700,000 acres of land have been added within the last year or two to the grants covered by the irrigation companies. This will furnish room for thousands of beautiful homes in the near future. It is obvious that scientific skill will be in demand under the conditions brought about by this extended system of intensive farming.

A publication known as the Idaho Student Farmer will be the club's main method of interesting the farmers of the state in the work of the agricultural college, and it is hoped by this method to get a great many students from the farms. It is probably the only student agricultural paper published in the colleges of the northwest. The first and only number of the present scholastic year will come out in a week or ten days. The people of Idaho should respond with the true spirit of an energetic commonwealth. Send in your name and address to the Idaho Student Farmer, University of Idaho, Moscow, and receive the first copy free.

Mince meat.

One quart of chopped beef, 2 quarts of chopped apples, 1 pint of molasses, 1 pint of sugar, 1 tencup of vinegar or cider, 1 quart of chopped raisins or currants, 2 tablespoonsful of cloves and cinnamon, 1 nutmeg, 1 gill of butter; cook until scalded through, seal in glass jars until wanted, or pack in an earthen jar and cover with melted lard.

RHEUMATISM CAN NOT BE RUBBED AWAY

It is perfectly natural to rub the spot that hurts, and when the muscles, nerves, joints and bones are throbbing and twitching with the pains of Rheumatism the sufferer is apt to turn to the liniment bottle, or some other external application, in an effort to get relief from the disease, by producing counter-irritation on the flesh. Such treatment will quiet the pain temporarily, but can have no direct curative effect on the real disease because it does not reach the blood, where the cause is located. Rheumatism is more than skin deep—it is rooted and grounded in the blood and can only be reached by constitutional treatment—IT CANNOT BE RUBBED AWAY. Rheumatism is due to an excess of uric acid in the blood, brought about by the accumulation in the system of refuse matter which the natural avenues of bodily waste, the bowels and kidneys, have failed to carry off. This refuse matter, coming in contact with the different acids of the body, forms uric acid which is absorbed into the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. The aches and pains are only symptoms, and though they may be scattered or relieved for a time by surface treatment, they will reappear at the first exposure to cold or dampness, or after an attack of indigestion or other irregularity. Rheumatism can never be permanently cured while the circulation remains saturated with irritating, pain-producing uric acid poison. The disease will shift from muscle to muscle or joint to joint, settling on the nerves, causing inflammation and swelling and such terrible pains that the nervous system is often shattered, the health undermined, and perhaps the patient becomes deformed and crippled for life. S. S. S. thoroughly cleanses the blood and renovates the circulation by neutralizing the acids and expelling all foreign matter from the system. It warms and invigorates the blood so that instead of a weak, sour stream, constantly depositing acid and corrosive matter in the muscles, nerves, joints and bones, the body is fed and nourished by rich, health-sustaining blood which completely and permanently cures Rheumatism. S. S. S. is composed of both purifying and tonic properties—just what is needed in every case of Rheumatism. It contains no potash, alkali or other mineral ingredient, but is made entirely of purifying, healing extracts and juices of roots, herbs and barks. If you are suffering from Rheumatism do not waste valuable time trying to rub a blood disease away, but begin the use of S. S. S. and write us about your case and our physicians will give you any information or advice desired free of charge and will send our special treatise on Rheumatism.
