The guiding spirit of the democratic party and chief editorial writer of the Times in his Statement No. 1 column, which he is ashamed to father, inquires into the politics of some of the regular republican nominees. John W. Bailey, to whom he refers, was born in Washington county and cast his first vote for Wm. McKinley and has since affiliated with the party, acting as secretary of the county central committee during a part of that time. He went before the primaries and there won the nomination and is not afraid to let the people judge as to his qualifications or adherence to republican principles. On the other hand he has an opponent who has sucked a public teat in the county offices and who has joined the democratic ranks in the guise of an independent in the hopes that the people will so disregard the primary law as to elect him to the office Mr. Bailey is now seeking. This is the kind of "dope" that is continually coming from the Chamberlain boosters who are using every means to induce the Republicans of this county and state to disapprove of the very principles the nation, under the republican government, is founded upon. A vote for any one of the so-called Independent candidates in this county, is a vote in renunciation of Roosevelt and the administration, pure and simple!

During this campaign The News has not hesitated to take its stand and defend it. It believes that if a paper has anything to say, as well as individuals, it should be plain in its remarks; there is nothing mysterious about us and we don't intend that there shall be. We have taken a stand for the republican ticket because we believe in the principles of that party; that the Roosevelt policies can best be maintained that way, and the great prosperity of this country continued. The ticket in this state and county was given us by the republican party. This privilege was through the means of the direct primary law, and not by a few who, seemingly, are disappointed one way or another, but by all the people who are willing to accept and recognize the people's rights. Should we fault now the direct primary will receive a tremendous blow; the principles of the republican party and the policies of the president will likewise receive a blow. That's why The News speaks up.

The governor omitted a few sentences of his speech here, last Thursday, that might have satisfied several of his democratic friends. He did not say why he opened the penitentiary gates and freed 285 convicts during his term as governor, and more especially, one Hembree of Tillamook county, who is now being retried for the brutal murder of his wife. The laws of this state gives its governors full pardoning power, and it seems that Mr. Chamberlain has overridden his rights in this respect and emptied the prison's cells of undesirables. The governor did remind us, however, that he was opposed to the immigration of the Chinese and Japanese, for he considered them extremely detrimental to the society of our country, but the criminals, poor cusses, they must be angels!

Gov. Chamberlain's excuse for appointing a self-confessed bribe taker and liar to an important place was that there was "no moral turpitude involved." Some people will wonder what the Governor's idea of morality is anyway.

The Oregonian says it's perjury for democrats to register as republicans. All's fair in Oregon politics—and love and war.

The county and legislative tickets of the regular republican primary, are meeting with warm receptions all over the county.

With the Fulton, Bourne and Cake followers combined. Roosevelt's policies will be well taken care of.

If the Portland Journal runs out of red ink before June first, there'll be a calamity.

Resolutions.

The following resolutions were adopted by the "Woman's Club of Forest Grove" at its meeting on May 11.

Whereas; we believe the educational needs of Oregon to be identical with other states, and that we need a university that is generously supported, and

Whereas; the University of Oregon is in a critical condition at present; its equipment is insufficient, the rapid and steadily increasing attendance demands new buildings, and new dormitories for women are badly needed, and

Whereas; a poorly maintained University tends to discourage the best of immigration to our state, and

Whereas; if this appropriation bill becomes a law, the amount of taxes required to support it will be only about 25 cts. per year on every thousand dollars worth of property; therefore be it

Resolved; that we URGE the voters of this county to vote in favor of letting the appropriation stand at \$125,000, as fixed by our last legislature.

CAMPAIGN OF PUBLICITY.

Seattle Exposition Offers Splendid Opportunity For Boosting Oregon—Organization Formed.

To exploit and to set forth the matchless advantages and splendid resources of Washington county members of the Hillsboro and Forest Grove Boards of Trade met in Hillsboro this week and made arrangements for a campaign of publicity which promises to be one of the most interesting enterprises yet undertaken by the progressive residents of the county.

The Alaska-Yukon exposition to be held in Seattle in 1909 offers a special field and a most favorable opportunity for this work. Oregon is to have the finest and best equipped state building on the exposition grounds and it behooves Washington county as one of the richest counties in the state to gather a worthy collection of grasses, fruits and cereals grown here to be placed in exhibit. The task which county organization has undertaken is one which should receive the undivided support of all the farmers and horticulturists in the county. Most of this work will have to be voluntary.

The officers chosen are as follows, President, W. H. Hollis of Forest Grove; secretary, Arthur Shute of Hillsboro. A committee was appointed to make a special effort for a meeting to be held in the court house Friday afternoon at 2 o'clock. Dr. Tamesie, W. H. Wehrung and Mr. Wright are members of the committee. It is planned to have delegates present from every section of the county and to have a vice-president in each precinct. Moreover it is thought that meetings will be held in every precinct to interest every one in the work of the organization.

Besides the collecting of the exhibits, special literature on the county resources will have to be prepared for the opportunity to induce prospective settlers to come to the state will be the greatest ever offered to Oregon since the Lewis and Clark exposition. Already considerable interest has been shown in the work and the officers of the organization are pleased with the prospects.

The appointment of George Haskell Marsh as clerk of the Federal court in Portland to succeed Capt. J. A. Sladen who tendered his resignation and whom President Roosevelt has recommended for the retired army list with the grade of major, brings gladness to Mr. Marsh's many friends in this city. He is the son of the late Dr. Sidney H. Marsh, president of P. U. from 1854 to 1879, and a brother to Wheelock Marsh at one time local postmaster. Mr. Marsh is not inexperienced in the duties he has assumed because for 16 years he has served as deputy of the court of which he now becomes the chief.
