HEALTH VERY POOR-RESTORED BY PERUNA

Catarrh Twenty-five Years--Had a Bad Cough.

Miss Sophia Kittleson, Evanston, Illinois, U. S. A., writes:

"I have been troubled with catarrh for nearly twenty-five years, and have tried many cures for it, but obtained very little heip.

"Then my brother advised me to try Peruna, and I did.

"My health was very poor at the time I began taking Peruna. My throat was very sore and I had a bad cough "Peruna has cured me. The chronic catarrh is gone and my health is very much improved. "I recommend Peruna to all my

friends who are troubled as I was." PERUNA TABLETS:—Some people prefer tablets, rather than medicine in a fluid form. Such people can obtain Peruna tablets, which represent the medicinal ingredients of Peruna.

Each tablet equals one average dose

Man-a-lin the Ideal Laxative Manufactured by the Peruna Drug Manufacturing Co., Columbus, Ohio.

Hard to Do Without Pockets. "The most annoying thing in navy life for a recruit is the absence of side pockets in the uniform trousers," J. R. Rose, a yeoman at the navy recruiting station, said this morning.

"The average man doesn't realize how strong is the custom of thrusting his dons a pair without pockets. I've worn ing. the navy uniform four years now, and I frequently find myself trying to put my hands in my pockets."-Kansas City

Syrupoffigs Cleanses the System Effect-ually, Dispels Colds and Head achies due to Constipation; Acts naturally, acts truly as a Laxative.

FLIES WITH OWN WINGS.

Frenchman Beats All Records With Aeroplane in Italy.

Rome, June 1.-Leo de la Grange, the French aeroplanist, made a new Japan Prepares to Hold Manchuexperiment with his aeroplane here this morning, which was so successful that it filled the spectators with admiration. He surpassed his own record by flying for 15 minutes and 30 BUILDS IMPREGNABLE FORTRESS cause he received a signal to do so, and also because the motor of his machine cannot hold sufficient gasoline to operate it much longer than that.

During that space of time M. de la Grange made nine and three-fourths rounds of an establish d course in the military field, namely six kilometers, a little over nine and nine-tenths of a mile, at a velocity of 60 kilometers, or 37.2 miles an hour.

The aeroplane was first pushed forward by M. de la Grange's associates, and as soon as the motor was put into action the machine rose without difculty, keeping from seven to ten feet above the ground. It moved smooth y and turned easily, the rounds of he course following each other withut interruption, and not once did the aeroplane touch the ground. It was a marvelops exhibition, which would have won De La Grange a prize of \$5000 had it occurred in France. It at east confirms his possession of the Archdeacon cup.

ROBBERS GET CASH.

Great Northern Passenger Train Held Up at Great Falls.

Butte, Mont., June 1 .- A Miner spe ial from Great Falls, Mont., says:

The north bound Great Northern assenger train was held up this even ng about one mile and a half fron this city by seven masked men at 12:30 clock, the train being run onto a siding by the robbers, who fired a fusilade of shopts up and down the train Wm. Dempsey, an Augusta rancher was shot through the leg in attempting to escape from the train after it had stopped, and Conductor Hayes vas compelled by the robbers to preede them in passing through the cars, he carrying a hat in which the passen gers were invited to dump what cash hey had about them. Most of them eposited from \$1 to \$10, and the ooty of the desperadoes is not beieved to be greater than several hunred dollars.

While the passengers were being obbed, several of the highwaymen stood guard at the doors of the cars hands in his trousers pockets until he to prevent the passengers from leav

The robbers finally jumped off the oaches and disappeared in the darkiess. Rain is falling heavily, and the right is so dark that no trace of the robbers could be found, although cosses were in pursuit within 20 min ites after the outlaws had left the

GOVERNMENT MAY SUE.

Great Area in Montana is Stripped Bare of Timber.

Butte, Mont., June 1 .- A federal surrey corps is engaged in running sur vey lines in the mountains near Philpsburg, Mont., to determine the mount of cordwood cut for the mines of Granite county, and the location of he ground from which the timber was taken. This wood was cut, it is laimed, from land belonging to the overnment, and it is intimated that suits may be begun to recover for about 700,000 cords of wood cut, approximating in value about \$1,000,000. The bulk of this wood was cut about 10 or 12 years ago, during the boom days of silver, and was used at the mines, owned by Charles D. McClure and his associates, of St. Louis, to-gether with a few Montanans. The area of timber land stripped clean is 10 miles wide and 12 long.

Accuse Turks of Murder.

Constantinople, June 1.-According to an official telegram received here from Athens, a mail steamer with 150 women and children refugees from yra, one of the islands of the Cydes group, and reports the contin-The refugees say that a battalion of Turkish troops recently arrived at Vathy, capital of the island, and at once commenced to fire indiscrimi-nately. Many people were killed or

Kill Women and Children.

Athens, June 1 .- A body of panicstricken refugees from Samos, who have arrived here, report that eighty omen and children were slain by Turkish troops during the first day's Samos have reached Smyrna. They rep fighting at Vathy, capital of the island, resent the situation there to be most They declare also that the troops fired critical. It is feared that the Turkish ersistently on the foreign consulates. The refugees are all Greeks, and, as hey have inborn hatred of the Turk, their statements are accepted here with considerable reserve.

Cholera Is Spreading.

Manila, June 1.—The cholera at Digupan, 120 miles from Manila, is worse. Twenty-nine deaths are today eported, due to eating infected foods. ndings, despite strenuous efforts on the part of the bureau of health.

OPEN DOOR A FARCE

ria by Fortifying Herself.

Into Second Gibraltar-Foreign Merchants Excluded.

Seattle, Wash., May 30,-According o a special to the Times from Vancouver, B. C., Japan has completely reversed the "open door" policy in Man-churia. With the arrival of the Amerian battleship fleet in the Pacific and he possibility of trouble with the nited States later on, Japanese states en are preparing for any emergency ort Arthur, the former Russian tronghold, is being made virtually imregnable, while the fortifications at Dainy, a scaport and railway terminus on the mainland, occupied by the Jap-mese, are being rushed to completion ith feverish haste.

A clash with the powers over a couow being carried out in favor of the nikado's subjects is inevitable. If apan is compelled to back down, her surrender will bring its advantages. The Japanese are more curiously unused than alarmed over the proposed visit of the American fleet to the

FINE AND IMPRISONMENT.

Five Years in Penitentiary and Pay \$576,000, Ross' Sentence.

Salem, Or., May 30 .- J. Therburn oss, president of the defunct Title juarantee & Trust Company, has been sentenced to serve five years in the state penitentiary and to pay a fine of \$576,853, and to serve one day in the Multnomah county jail for each \$2 of he fine not paid.

Sentence was imposed by Circuit judge George H. Burnett, after the moion of Ross for arrest of judgment nd for new trial had been overruled. Appeal has been taken to the supreme urt, and Ross has been admitted to nail in the sum of \$6000.

This is the penalty Ross must pay for he conversion of \$388,376 of state chool funds deposited by State Treas over Steel in the Title Guarantee Trust Company Bank and paid out he bank by its officers prior to the vas manager of the bank, and as such aided Steel in securing legislation which would enable the bank to get possession of the state school fund without paying interest thereon.

FLOOD WASHES OUT DAM.

Port Arthur, Ont., Loses Three Lives and \$500,000 Damage.

Toronto, Ont., May 30 .- A specia rom Port Arthur today says the civil power dam on Current river burst yes terday, causing a disastrous flood. The oss of three lives and a money loss es timated at \$500,000 is reported. A Canadian Pacific freight train pulling sto Port Arthur ran on the submerge racks and the engine was overturned Cogineer Savage, Fireman McBride and Brakeman Inmann, who were on the en gine, were pinned under the wreckage nd drowned. The Canadian Pacific Bimetallic and Granite Mountain Railway Company will be the heaviest oser, several miles of its tracks having en washed away.

The freshet was due to heavy rains

The power house, the Canadian Pacific railway bridge and the pavilion at the families living near the dam are miss ing.

Tornado in Karsas.

Topeka, Kan., May 30 .- A terrific rind storm of almost the proportion the island of Samos has arrived at of a tornado, which passed over the southern part of Lowell County Thurs day night, killed one man and injured 22 persons, seven of them probably fa tally. The storm traveled from the southwest and was 150 vards wide. took everything in the path and scat small buildings over the prairie. The property damage will amount to the sands of dollars, and the damage to the growing crop is large.

Islanders Fear Massacre.

Athens, May 30 .- Many men and hildren fleeing from the Island of critical. It is feared that the Turkini reinforcements now on their way to the island will start a general massacre A proposal that the powers dispatch warships to Samos is being urged. The principality of Samos exists under the marantee of France, Great Britain and

Epidemic of Suicide in Russia. has been 85 a month.

ANSWERS TO INQUIRIES.

Washington Farmers Ask Information on Various Subjects.

From the Washington State College, Pullman. The experiment station has received a letter from J. A. B., of Everett, asking how to exterminate the Canadian thistle. Professor W. S. Thornber, horticulturist, replied as follows:

"The Canadian thistle is a hard plant to fight, but by judicious cutting and cultivation you can eradicate it. The plant must be kept from forming a growth above the surface Port Arthur is Being Strengthened of the ground for at least one year in order that your efforts for its extermination may be successful. The plant spreads by underground stems, or roots, which are thrown up at distances of from three to six feet from the parent plant, so merely destroying the mother plant will not kill the weed. A good cutting during the month of June, followed by other cuttings in the latter part of July and on through August will check the thistle materially, and may de stroy it entirely. It is generally quite difficult to eradicate the plant in pastures and fence corners, since a small residue will be left undestroyed, which will grow durng the following year. There is no spray that will kill it. Sometimes it is helpful to cut the thistle off about three inches below the surface of the ground, which causes the root to rot by drying out. In cultivated fields it is advisable to rake out the underground stems, and allow them to dry thoroughly before plowing

> Another letter from W. G. M., of Mabton, made inquiry concerning the culture of English wainuts in that region. Professor Thornber's reply follows:

> "The selection of proper varieties is very important, and up to the present time I have found only two varieties that are hardy enough to thrive well under the conditions of your locality. These two are the Fayette and the Mayette. They are not English walnuts, strictly speaking, but are the same species, and are commonly spoken of as sian,' or 'English walnuts.' It will be impossible for you to grow in a commercial way grafted trees of these varieties, simply because the operation of grafting is so difficult that only a few are secured, and the price of grafting stock is very high. A better way is to secure good first or second generation trees from reliable nurserymen. Theses second generation trees are grown from nuts of first generation trees, usually in Oregon and California. From my personal experience, I should judg that you will succeed remarkable well if you secure good varieties Almost any of our soils, if the sea sons are not too severe, will grow English walnuts, providing there is not a shale, or hardpan, nearer than three or four feet to the surface of the ground. I understand that we are obliged to watch these conditions very closely in this section. I do not recommend that English walnuts be sown in your region, yet I believe by careful selection of varieties and of the orchard grounds that they will succeed in many places.

Intes to the culture of chestnuts. The correspondent was advised as follows:

"The American chestnut (the regular, tall-growing variety) should be pruned the same as any other shade tree, leaving, however, a permanular tree, leaving tree, leavin

tree, leaving, however, a permanent or constant leader, through the cen-ter of the tree. This is the practice of the Experiment Station, and one that is used upon all forms of the tall, or upright, growing trees. It is also used upon the sweet cherries, but not upon the sour ones.

"The tendency of this chestnut is to produce a thin, open top, and it is advisable to cut back the outer limbs, and occasionally the leader, to thick en the foliage. The Dwarf, or Jap anese, chestnuts should be pruned to small, compact trees, branching them from a foot to three feet from the ground. They will practically take care of themselves after the first year or two of pruning. This pruning may be done at any time while the tree is dormant, or after the sap has ceased to flow, which will be immediately after it comes into full leaf."

A farmer residing near Centerville, desires to know the best method of raising peas, and the most desirable variety; also, with regard to combining peas with oats. The Station supplied him with the following information:

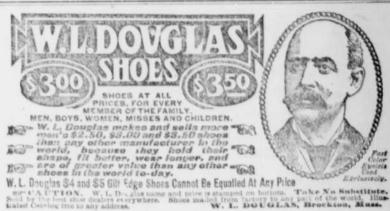

"The experience of the Experiment Station staff, leads us to believe that almost any of the common field variety of peas will grow well in your region. We advise the well in your region. We advise the Black-Eyed Marrow Fat as the best general variety. Ordinarily we sow the peas at the rate of one to one and one-half bushels per acre, disk-ing or drilling them at least four inches deep. Sow the oats about a inches deep. Sow the oats about a week after the peas are sown, as the latter grow so much stronger and consequently, the oats will be smothered out unless they are given the advantage. We do not consider that outs and peas are as good for borses as for cows. The mixture makes very rich, nutritious hay."

WHEN writing to advertisers please mention this paper.

rich, strong and healthy, the circulation has become infected with germs of disease which destroy the rich, red corpuscles that furnish nourishment and strength to the body, and reduced this vital fluid to such a weak, watery condition that it is no longer able to keep the system in health, or ward off the countless diseases and disorders that assail it. The loss of these red corpuscles takes the color and glow of health from the cheek, and we see pale, sallow faces and washed out, chalky complexions among the first symptoms of Malaria. But Malaria is a general systemic disease, and as the blood becomes more heavily loaded with its germs we have more serious and complicated symptoms; the impure blood having its effect on all parts I the body. The appetite fails, digestion is weakened, chills and slight tever are frequent, and the sufferer loses energy and ambition because of a constant tired-out and "no account" feeling. The lack of necessary nourshment and healthful qualities in

skin affections, and in some cases sores and ulcers to break out, and sometimes the patient is prostrated with a spell of malarial fever which may leave his health permanently impaired. To cure Malaria both a blood purifier and tonic are necessary, in order to remove the cause and at the same time build up the system from its weakened and run-down condition. S. S. S. is the medicine best fitted for this work. It is the most perfect of all blood purifiers, and the purely vegetable ingredients of which it is composed make it the greatest and safest of all tonics,

the blood causes boils and abscesses,

the Mississippi river and became so impreg-nated with Malaria that for a year I was almost a physical wreck. I tried a number of medicines recommended as blood purifiers, chill cures, and Malaria eradicators, but nothing did me any good until I began to use S. S. The result was that after taking it for awhile I was as well and strong as I ever was. I have never had a chill since nor the slightest symptom of Malaria. I hope others will be benefited by my experience, and with that end in view I give this testimonial, knowing that S. S. S. is the best remedy for Malaria Amory, Miss-

During 1900 I was running a farm of

S. S. S. goes down into the circulation and removes every trace of impurity or poison, and at the same time gives to the blood the health-sustaining qualities it needs. It cures Malaria thoroughly and permanently because it removes the germs and poisons which produce the disease, and while doing this tones up and strengthens every part of the system. When S. S. S. has cleansed the blood the symptoms pass away, the healthy color returns to the complexion, the old tired, depressed feeling is gone, and the entire health is renewed. Book with information about Malaria and any medical advice
