CLOSE CALL FOR TAFT.

Breaking of Piston Rod on Engine Nearly Wrecks Train.

Dennison, O., June 23.—Secretary Taft had a narrow escape tonight from being involved in a serious wreck on the Pennsylvania Flyer, which was carrying him east.

Prompt action of the townerman in a signal station a third of a mile east of Coshocton, and of the engineer of the flyer, alone averted what might have been a dreadful accident.

As the train was speeding along at the rate of 50 miles an hour, the piston rod on the left side of the locomotive broke short off. Almost instantly the cylinder of the engine was cracked by the unmanageable rod.

Secretary Taft and National Committeeman Kellogg entered the dining car and sat down to dinner after the accident occurred without thought of anything serious in connection with the stopping and delay of the train. The Secretary made no comment on the incident when informed of it. The engineer of the locomotive explained that it was merely good luck that averted a bad accident.

"If the piston rod, after it broke had gone under the train," said he, "we would have gone into the ditch, as we were running 50 miles an hour, and the derailment would have been a serious matter. Fortunately the broken rod landed six or eight inches outside of the left rail. That saved us."

TURBINES RUN WILD.

Strange Accident Wrecks Cazadero Power House.

Portland, June 23.—An accident to the machinery at the Cazadero power plant of the Portland Railway, Light & Power Company early yesterday morning caused the complete wrecking of the station, entailing a loss of \$110,000. Flying pieces of hot metal and burning insulation set fire to the building, destroying inflammable parts of the structure. Two operators who were on duty at the time had a miraculous escape from instant death.

The three big water wheels "ran away," one after the other, the generators to which they were coupled flying in pieces and wreckage from each machine in turn disabled the next water wheel. Huge parts of the motor dynamos were hurled through the brick walls to the station and through the iron roof.

Although the two operators who were right in the midst of the flying wreckage, they escaped without a scratch.

JAPAN WEAKENS.

Would End Chinese Boycott by Remitting Indemnity.

San Francisco, June 23.—Sochita Asano, president of the Toyo Kisen Kaisha Steamship Company, reputed to be the second wealthiest man in Japan, ranking next to Baron Shibusawa, has arrived here en route to New York on a financial mission.

Speaking of the boycott against Japanese goods in China, Mr. Asano said that Japanese trade had suffered severely because of the boycott resulting from the Tatsu Maru affair, but he did not expect it to continue much longer.

The Chinese were feeling its reflex influence, and he thought that financial considerations would soon outweigh sentimental reasons.

A different version is brought by Thomas F. Millard, the author, who was a fellow-passenger of Mr. Asano on the steamship Mongolia. According to Mr. Millard, the boycott is hurting Japanese trade so severely that the government, through the merchants of the empire, called the Chinese merchants in Japan together in order to make a proposal to end the boycott by remitting the indemnity exacted in the Tatsu Maru incident.

BURIED IN ANCIENT STATE.

Honolulu, June 23.—The funeral today of Prince David Kawanakoa, who died recently in San Francisco, and whose body was brought here on the steamship Manchuria, was one of the most imposing royal funerals ever held in Hawaii. The ceremony was in accordance with the ancient Hawaiian usage in the case of chiefs. The First regiment of the National Guard of Hawaii, a detachment of the Twentieth infantry from Fort Shafter and marines and sailors from the battleships Maine, Alabama and St. Louis, now in the harbor, marched in the funeral procession.

PLAGUE IN PORT OF SPAIN.

Port of Spain, June 23.—Since June 15 there have been four new cases of plague here, resulting in three deaths. The fourth case is in the isolation hospital. Active measures are being taken by the sanitary corps in destroying rats and cleaning up the city.

About 150 persons who came in contact with these cases are now in the observation camp, but up to the present there is no sign of infection among them. The medical authorities take a very hopeful view of the situation, and expect to be able to eradicate the disease at an early date.

DAMAGE UP IN MILLIONS.

Milwaukee, Wis., June 23.—The wake of last night's storm has left millions of dollars of damage. Crops in the vicinity of Prairie du Chien are totally destroyed, buildings wrecked, glass fronts smashed, trees uprooted or broken down. The loss in Prairie du Chien will reach \$100,000. In McGregor, across the Mississippi, the loss will reach \$100,000. About four inches of rain fell in the 40 minutes, during 27 minutes of which hail as large as walnuts fell.

SEVENTEEN CONDEMNED.

St. Petersburg, June 23.—A man and woman have been condemned to death at Warsaw on the charge of being implicated in a recent attempt to kill General Skallon, governor general of Warsaw. Seventeen death sentences were announced today from other towns and cities in Russia.

OREGON STATE ITEMS OF INTEREST

OFFICIAL RETURNS.

Largest Plurality for Congressman Ever Recorded.

Salem.—The official returns from the recent election give Chamberlain a plurality of 1,522 over Calkins for United States senator. While the official canvass has not been made, Secretary of State Benson has tabulated the figures from the different counties, and the result is definitely known. There are some of the abstracts yet to be certified by the county clerks before the official canvass can be made. The official returns gave Chamberlain a gain of 100 votes in Crook county, as compared with unofficial reports.

The total number of ballots cast was in the neighborhood of 115,000, the exact number not being reported by all counties. Since there are some voters who do not mark their ballots as to all offices, it is not possible to determine from the number of votes for any office the total number of votes cast. The largest vote was that for senator, which was as follows:

Amos (Prohibition) 3,787
Calkins (Republican) 59,899
Chamberlain (Democratic) 62,421
Cooper (Socialist) 3,225

Total 112,374
Party strength is computed according to the vote on congressman, and by this test it is found that the Republican plurality in the state is 38,762, Hawley having a plurality of 17,048 in the first district and Ellis a plurality of 21,714 in the second district. This is by far the largest plurality ever recorded for a congressman in either district. The plurality, however, is about 4000 short of the plurality for Roosevelt over Parker four years ago. The vote on senator by counties is as follows:

Table with columns: COUNTY, United States Senator (Amos, Calkins, Chamberlain, Cooper), and various other candidates.

UMATILLA DAM FINISHED.

Water Soon Ready for 20,000 Acres of Arid Land.

Hermiston.—The dam of the Umatilla project is practically complete and the distribution is nearing completion as rapidly as men and teams can do the work. In a few weeks nearly all the men who have been employed on the project will have departed and one of the largest and best irrigation schemes in the northwest will be in shape to water 20,000 acres of arid land. J. T. Whistler, chief engineer on the project, has already left for Portland, where he will open an office, having resigned his position with the United States reclamation service.

D. C. Henny, supervising engineer for the reclamation service, has stated that he expects Secretary James R. Garfield here to visit the project about July 15. He will doubtless make a tour of inspection of the various projects and his visit here will doubtless result in helpful suggestions to the settlers. He will be the guest of the board of directors of the Water Users' association while here.

LAND SHARKS BARKS BUSY.

Salem.—People from every other part of the United States as well as from every section of the state of Oregon continue to write the attorney-general for advice regarding the possibility of acquiring a prior claim to quarter sections in the Oregon & California land grant. Timber sharps are offering to locate anybody on a quarter section of this valuable land for all kinds of prices, and many people are biting.

"The people must learn that no attorney or timber cruiser or company of either," says Attorney-General Crawford, "can locate any person on a quarter section of this grant for either \$50 or \$500."

SUE ROAD FOR LACK OF CARS.

Pendleton.—The first suit filed in Oregon against the Oregon Railroad & Navigation company under the provisions of the law passed by the last legislature, giving shippers damages for failure on the part of a railroad to supply cars was filed in the Umatilla county circuit court. The plaintiffs are Martin & Riggs, of Milton. The plaintiffs allege that last fall they lost \$6,316.50 on account of failure to get cars upon ten days' written request.

SELF SUPPORTING NORMAL.

Pendleton.—President French of the Weston State Normal states that if the school made the progress another term that it has during the term just closed, the institution would be self supporting. If the normal had 500 students instead of 200 the income from dormitory rents and other fees would make the institution absolutely self supporting and it would cost the state nothing to maintain it.

TOMATOES PAY WELL.

Grants Pass Farmers Double Their Acreage.

Grants Pass.—The tomato industry of Rogue River valley has made rapid strides, particularly since the erection of the cannery last year, and the small farmer and berry-raiser have found it profitable to set out idle land with the young plants. This year's acreage will be double that of last year, and it is anticipated that it will increase in like manner for several years, for the reason the cannery has a capacity to take all the growers can produce for the next five years; in fact, it is understood that the company will contract to that effect.

The plants do well here when planted in rows five and six feet apart, and planted in this manner they will usually produce from 20 to 40 tons an acre, and find ready market at \$10 a ton for canning purposes. The necessary expenses for harvesting and marketing are \$25 an acre. The tomato plant, if properly cultivated, will grow from four to five feet high, and cover a proportionate space. Visitors who have looked over the field where the matured plants are laden with fruit, have remarked that they looked more like trees than vines. During the picking season, which opens in August and extends through November, men, women and children are employed to harvest the crop.

Owing to the soil and rank growth of the plant, many find it necessary to prune the vines after they have bloomed, so as to divert the energy of the tree into the fruit instead of vine and foliage.

All raisers use racks. This keeps the fruit clean, holding the vine off the ground and preventing rot. It is estimated that \$200 can be realized as a net profit upon each acre.

ANOTHER HIGH SCHOOL.

Lincoln County Makes Good Move for Higher Education.

Newport.—Lincoln county marks another step forward by providing a high school for the young men and women who have just graduated from the common schools. The county court has issued an order giving both Newport and Toledo money to establish high school courses immediately, though the question as to where the school will eventually be located was left to popular vote two years hence.

Events have been coming thick and fast the past two months on Yaquina bay. The organization of a commercial club was almost instantly followed by a vote to establish a high school, and at the same time a large influx of capital caused large changes of holdings of property and promoted building in Newport till now some \$200,000 of new buildings are under way.

ONTARIO WOOL SALES.

Ontario.—The largest wool sale in eastern Oregon will be next Thursday, June 18, in Ontario, when the M. M. Company will place 2,500,000 pounds of wool on the market.

At the wool sale in Vale recently the prices ranged from 10c to 14c, but since then the price of wool has been steadily advancing, and the shepherds expect to realize a good price for their clip. Nearly all of the Malheur and Harney county wool clip is stored in this city.

CHERRIES BY THE TON.

Cove.—It is estimated that, with the new cherry orchards coming in this season, not less than 200 tons of cherries will be shipped from here, and require twice the number of picking and packing crew of last season.

FIRE SWEEPS MICHIGAN.

Villages Are Destroyed and Hundreds Made Homeless.

Detroit, June 22.—Fires in Northern Michigan forests, fanned to great proportions by the gales of the last two days, have destroyed at least three villages, rendered hundreds homeless, swept over thousands of acres of timber land and caused damage estimated at about \$200,000.

The heaviest loss has been sustained in Presque Isle and Cheboygan counties, although Lelanau, Charlevoix and Otsego have also suffered.

In many towns today lamps were lighted, as the sun was obscured by the heavy smoke.

The village of Case, in Presque Isle county, was destroyed today. A special train conveyed the homeless villagers to Onoaway, where they were sheltered tonight.

Legade, a little town in Cheboygan county, was also abandoned to the flames tonight. Many women and children were taken in wagons to Indian River.

While a big fire at Wolverine today was being fought, a forest fire threatened another section of the village. While the Wolverine department was engaged, a call for aid was received from Rondeau, three miles north.

The firemen could not leave Wolverine, and Rondeau was at the mercy of the flames. A hotel, several stores and houses and the Michigan Central station were burned.

In Lelanau county a great fire raged near Fouche. All night the glow of the fire could be seen at Traverse City, 12 miles away. Several farm buildings were destroyed, and Fannett's big lumber yard was wiped out. Much valuable timber was burned.

MONEY FOR PROHIBITION.

Party Raising Largest Campaign Fund in Its History.

Chicago, June 22.—The largest campaign fund in the history of the Prohibition party is what Charles R. Jones, chairman of the national committee, expects to get, and the contributions so far indicate he is not expecting without hope. Already more than \$35,000 has been donated to "the cause," which is more than twice the largest amount ever received so early in a presidential campaign.

With its unusual campaign fund, Mr. Jones is willing to predict the party will cut a wider swath than it has mowed before. Several have been mentioned by the Prohibition leaders as possible nominees for president. Fred F. Wheeler, a real estate dealer of Los Angeles, Cal., who has contributed liberally to the cause of temperance, was the first suggested. Dr. J. B. Cranfill, a Baptist minister of Dallas, Tex., who was a candidate for vice-president in 1892, has also been mentioned.

Alfred Manierre, an attorney of New York, and Dr. W. B. Pelmore, editor of the St. Louis Christian Advocate, are said to be willing to assume the honor.

SHARP NOTE FOR JAPAN.

Hayes Conveys Message From President on Coolie Exclusion.

San Francisco, June 22.—In a speech before the Asiatic Exclusion League of San Jose, Congressman E. A. Hayes delivered today what he declared to be a personal message from the president of the United States to the people of the Pacific Coast.

"Two or three days after the adjournment of congress," said Mr. Hayes, "I went to the president and asked him how I should explain the absence of exclusion legislation, which I told him my constituents expected. He replied: 'I am still trying diplomacy. I am sending to Japan the sharpest correspondence that any nation has ever received; but tell your constituents that, if I cannot get what I want by diplomacy, I will get it by exclusion legislation.'"

Mr. Hayes did not state whether the presence of the fleet in the Pacific was in any way connected with the president's note to Japan.

GREAT AMERICAN CRIME.

Indianapolis, Ind., June 22.—One of the most important movements in the history of railroad has been started by the railroad commission of Indiana to stop what William J. Wood, of that body, terms "the great American crime." This crime is the killing and maiming of over 10,000 persons by American railroads at grade crossings. The crossings consist of intersections at grade of steam railroads and highways, and of steam railroads and electric lines. Four state railroad commissions will assist Mr. Wood.

PROSTRATED BY HEAT.

Ottawa, Kan., June 22.—Frank J. Hanly, governor of Indiana, was prostrated by heat while addressing the Ottawa Chautauqua here this afternoon. Governor Hanly was given medical attention and assisted to his train. He started for home tonight. The governor came here direct from the Chicago convention to address the Chautauqua. He had almost finished his remarks when he was taken ill and forced to stop.

MENELIK NAMES SUCCESSOR.

Addis Ababa, Abyssinia, June 22.—The question of the ascension to the throne of Abyssinia, which has been quiescent for over a year, has been revived by an official statement from King Menelik designating his grandson, Lig Yasu, the 12-year-old son of his daughter, Waizaru Shoa Rogga, and Ras Michael as heir to the throne.

TAFT IS NOMINATED

Roll of States Called by Megaphone And Uproar.

ROOSEVELT STAMPEDE A FAILURE

Nominating Speech Made by Senator Burton—Taft's Name Starts Whirlwind of Enthusiasm.

Chicago, June 19.—For president of the United States, William H. Taft, of Ohio.

Taft on the first ballot, Taft by 702 votes, Taft by the unanimous choice of the convention.

Such is the record of the culminating day of the Republican national convention of 1908, effected amid scenes of tumultuous enthusiasm, and after a nerve-racking continuous session lasting nearly eight hours. With the president named and the platform enunciated, there remains only the nomination for vice-president to complete the momentous work. Last night the whole city was given over to wild exultation in honor of the new candidate, whose name goes echoing through the country.

The picture within the walls of the vast amphitheater as the presidential candidate was named was a truly grand in its magnitude. In front, to the right and left, below and above, the billowing sea of humanity, restless after hours of waiting and stirred from one emotion to another, was in a fever of expectancy for the culminating vote. The favorite sons of other states had been named, save Knox and La Follette, and now on the roll came Ohio.

As the Buckeye state was reached, the tall, gaunt form of Theodore E. Burton, with student-like face and severe black clerical garb, advanced to the platform to nominate Ohio's candidate. He spoke fervently, with the ringing voice of an evangelist, which went ringing through the great building. The close of his speech of nomination was the signal for the long pent-up feeling of the Taft legions. Instantly the Ohio delegates went on their feet, other Taft states following, while the convention hosts in gallery, on floor broke into a mad demonstration.

"Taft, Taft, W. H. Taft," came in a roar from the Ohioans. Megaphones seemed to spring from concealed places and swell the Taft tumult into thunder. A huge, blue silk banner bearing the familiar features of the statesman-secretary was swung before the delegates, awakening a fresh whirlwind of enthusiasm.

All semblance of order had been abandoned, and the delegates were a maelstrom of gesticulating men. The guidons of the states were snatched up by the Taft enthusiasts or borne under by the storm of disorder. The band was inaudible—a mere whisper above the deafening volume of sound. For 10, 15, yes 20 minutes this uproar was continued. It was a repetition of the scene of Wednesday, when the name of Roosevelt brought the convention into a frenzy. But there is a limit to the physical resources of throat and lung, and at last the tired voices died down to a hoarse shout and subsided.

This roll now gave the opportunity for the speech seconding Taft's nomination by George A. Knight, of California, his big, round face beaming forth on the sympathetic multitude and his splendid baritone voice going forth like the tones of a great church organ. California's tribute to Taft was brief and fervid. Now there was another lull in the Taft movement, while the remaining candidates were placed in nomination.

The secretary was powerless to make his call of states heard above the deafening clamor. Seizing a megaphone, he shouted the roll of states: "Alabama," "Arkansas," but his voice was swallowed up in the mad uproar. Gradually, however, the curiosity of the multitude conquered its enthusiasm and it lapsed into silence to hear the result of the call. A hush of expectancy hung over the assembly as the call proceeded.

Hasty summaries showed that Taft was far in advance. When New York was reached the Taft column totaled 427. Ohio carried the Taft total to 511, or 20 more than enough to nominate. Still the call went on until the final result was announced by Chairman Lodge:

"For Theodore Roosevelt, 3 votes; for Joseph B. Foraker, of Ohio, 16 votes; for Charles W. Fairbanks, of Indiana, 40 votes; for Joseph G. Cannon, of Illinois, 58 votes; for Robert La Follette, of Wisconsin, 25 votes; for Charles E. Hughes, of New York, 67 votes; for Philander C. Knox, of Pennsylvania, 68 votes; and for William H. Taft, of Ohio, 702 votes."

Noble Act of Roosevelt.

London, June 19.—The news of Secretary Taft's nomination was received too late for editorial comment in the morning papers, except the Times, which says: "It is the greatest and most striking of all Roosevelt's many victories. By the unflinching exertion of his personal will President Roosevelt defeated the undoubted will of the Republican party, and what is hardly less certain, the will of the American people. He has chosen to sacrifice his personal ambition in his sense of duty as a citizen. It is a noble act."

Persia in Sorry Plight.

St. Petersburg, June 19.—A dispatch received here from Baku says a Russian gunboat has entered the Persian port of Enzeli on the Caspian sea, but the statement has not been confirmed. The foreign office here is without definite advices from Teheran concerning the situation in Persia. It sees but few encouraging symptoms in the present state if anarchy that exists in Persia.
