

A Remarkable Recovery.

Mrs. Frank Stroebe, R. F. D. 1, Appleton, Wis., writes: "I began using Peruna a few months ago, when my health and strength were all gone, and I was nothing but a nervous wreck, could not sleep, eat or rest properly, and felt no desire to live. Peruna made me look at life in a different light, as I began to regain my lost strength.

"I certainly think Peruna is without a tival as a tonic and strength builder.'

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred-Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

STATE CONTROL OF WATER.

Paper Presented at Recent Meeting of Oregon State Grange. By John H. Lewis, State Engineer.

(CONTINUED FROM LAST WEEK.) Laws of Other States.

have the poorest water laws of the her borders. western states. Colorado profited by the mistakes of California. Later Wyo-ming and Nebraska adopted laws which Dakota and Oklahoma. The Canadian new policy devised by this conference law has been declared by resolution of for government control of navigable or the American Irrigation Congress to interstate streams can affect Oregon be the best of its kind on this conti-nent. All these modern laws are based The conupon the water laws of Italy, which have developed through centuries of experience. Thus Oregon has no lack of precedent, and should profit by the experience of these other states and experience of these other states and or resented bitterly the offer of the control of the co

system of titles to water and for pro- warning of our worthy governor, who tection to vested rights through state has well said that "the great uncercontrol of diversions from public tainty as to titles to water, the wide streams. The leading arguments by difference of opinion among the ablest the enemies of this bill were as fol-water lawyers as to what the water lows: That the state officer in charge would have the power of a czar; that the burden on taxpayers would be excessive; and that the appointment of an unlimited number of water masters the politics of the state.

which did not conform with the law. To pass the bill without any means of enforcing it would have the same effect as defeating the bill, which was the re-

Under the proposed law, no state velopment of our great water re-control could be had until the deter-sources." mination by the courts of all vested rights to the use of water from a given stream. Therefore, no water matter could be appointed until such time. These adjudications will be final, as each basin comes before the court, instead of constantly recurring, as under present conditions. The water master, when appointed, will regulate the dithe decrees as rendered and the rights that locality. He was supplied with as granted under the new law. These information as follows: new rights will not be subject to litigation, no matter how long the deter-mination of the early rights are deayed, as these rights will be complete-This determination of early rights may take from 10 to 20 years, judging from Wyoming's experience, where 18 years have been consumed in recording the territorial rights under the new law. The system of dividing the state into districts, according to drainage basins,

then judge for yourself as to quality. The cost of actual distribution was to be borne by the counties benefited. A. P. ARMSTRONG, LL. B., Principal Objecting to the bill on the ground of Tenth and Morrison - Portland, Oregon cost is false economy. It is like obecting to the appropriation of some \$12,000 annually to maintain a state land department, which is a valuable has a leaf measuring 50 feet long and 12 source of income to the state, or like objecting to the cost of our police protection for other property than water. which protection saves annually to the public far more than its cost.

State and Government Reclamation.

Oregon has 400,000 acres of government land withdrawn from entry, pending reclamation by the state under the provisions of the Carey act. This area is equal to the combined area of all irrigated land at the present time. or nearly twice the combined area of a school teacher for a great part of the Klamath and Umatilla irrigation his life and in his latter days finds projects of the government.

During the first six months of 1907 the state land board authorized the sale of water rights to these desert lands, amounting to \$4,692,700. The board put off this action until after the adjournment of the legislature, hoping that the legislation which they had recommended for the protection of settlers might be enacted. The state is now in the deplorable position of authorizing the sale of a commodity which it owns, but over which it has no control. It is attempting to supervise the expenditure of millions of dollars in the interest of future settlers. without appropriating a single cent for administrative purposes.

Already the state has begun suit against one of these companies because of the sale of some \$100,000 worth of water rights to intending settlers all the people." Then in 1863 Lincoln where there is no water to supply, and put the finishing touch and gave the false economy practiced may ultimately result in a demand upon the legislature by these settlers that their loss be reimbursed. In this matter of reclamation by the state, or in any ning? public or private reclamation, we are trying to build a great structure of prosperity without adequate foundation

law to support the structure. Oregon has contributed more to the ed the game. reclamation fund of the United States government than any other state, and his larynx telling the umpire how the return of this money depends upon things ought to be done.

To Fall Back Upon. "We put that motto back on the coins, anyhow," said the Congressman.

"Yes," answered the constituent, "and in view of what you fellows have accomplished during this session that motto

The city of Vienna is now trying to secure control of mines in Moravia. The reasons given for the purchase are the high price of coal and the difficulty of see er, have you any oysters? curing a steady supply for the municipal gas and electric plants.

the finding of feasible projects. This involves not only the fensibility of constructing the plant, but, also, the pos-sibility of securing good title in ad-vance to the necessary water supply. If clear title to sufficient water cannot be assured in advance, on account of our poor laws, then we should not com-Laws of Other States.

Gen. Palma a Teacher.

"Not long since, while visiting in Cuba, I had the pleasure of renewing an old friendship with the former president of the island, Gen. T. Estrada Palma," said S. A. Sevier,

"Gen. Palma is living a quiet, secluded life on his unpretentious country estate at Bayamo. He takes no interest in politics, but devotes himself to the simple affairs of rural life. His chief pleasure is in teaching a little band of his neighbors' children to read and write, and he devotes two or three hours a day to that task, while at night he gives instruction to a class composed of his farm laborers. He was satisfaction in his old profession."-Baltimore American.

Product of Three Great Minds. Although it was Abraham Lincoln in his Gettysburg speech who made famous the phrase, "government of the people, by the people, for the people, the father of the sentiment was really Daniel Webster, who, 30 years previously, had spoken of "the people's government, made for the people, made by the people, and answerable to the people." The next stage in the crystallization of the phrase was in 1850, when another great American, Theodore Parker, alluded to "a government of all the people, by all the people, for democracy its watchword.

Save the Babies.

NFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twentytwo per cent., or nearly one-quarter, die before they reach one year; thirtyseven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, cr morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Letters from Prominent Physicians addressed to Chas. H. Fletcher. Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria

in many cases and have always found it an efficient and speedy remedy." Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my patients." Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Cas-

toria in my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm." Dr. J. B. Elliott, of New York City, says: "Having during the past six

years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children." Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advo-

cate the indiscriminate use of proprietary medicines, yet Castoria is an. exception for conditions which arise in the care of children." Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the estcem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and cha-

dren. In fact, it is the universal household remedy for infantile allments." Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency

and merits." Dr. Norman M. Geer, of Cleveland, Ohio, says: "During the last twelve years I have frequently recommended your Castoria as one of the best preparations of the kind, being safe in the hands of parents and very effective in relieving children's disorders, while the ease with which such a pleasant preparation can be administered is a great advantage."
