And Will Run Longer Without Loosening Than Is Possible When Set the Old Way. You Will Not Be Out the Use of Your Vehicle, as it Requires But a Few Minutes to Do the Work.

No Charred Surfaces to Wear Away and Loosed the Tire.

No Overdishing Wheels or Splitting Fellos or Cutting Out Too Much of the Rim.

The BROOKS COLD TIRE SETTER compresses the metal cold. No steam and water-soaked fellos to shrink away and loosen the tire; to burnt paint to replace. It gives just the amount of dish required.

first location was a timber filing. The filing, however, did not suit Perdue, and for some reason it was dropped at the Land Office.

It has been ascertained that Perdue, in company with a number of Swedes and J. J. Fisher, a book-store man of Portland, were piloted by Johnson into the mountains north of Buxton the latter part of June. The party, minus Perdue and Johnson, who were left in the hills, returned, and Perdue was never seen alive again. He was a comparative stranger in and consequently his disappearance created little mystery.

It is now known, however, that he had been in Portland several weeks prior to his disappearance and that he had a large sum of money on his person. Another fact that Sheriff Hancock regards as suspicious is that Johnson, who is said to have been without funds when he went into the hills, apparently had money on his return. He is said to have paid off a number of claims at Buxton and is also said to have returned money to men in Portland whom he had lapsedly located.

Johnson is 23 years of age and is married to a daughter of Riler Thomas a Nehalem homesteader. He has been leading a precarious existence in
