DON'T EXPERIMENT

You Will Make No Mistake if You Follow This Forest Grove Citizen's Advice.

Never neglect your kidneys. If you have pain in the back, urinary disorders, dizziness and nervousness, it is time to act and no time to experiment. These are all symptoms of kidney trouble, and you should seek a remedy which is known to cure the kidneys.
 Doan's Kidney Pills is the remedy to use. No need to experiment. It has cured many stubborn cases in Forest Grove. Follow the advice of a Forest Grove citizen and be cured yourself.

Mrs. M. E. Dilley, living on Main St., Forest Grove, Ore., says: "My husband had complained of his back hurting him for some time. He was so lame and stiff at times that he could hardly get around. The pain seemed to be more severe at night and greatly interfered with his rest. Added to the severe pain, was a disorderly condition of his kidneys and he was greatly annoyed by the too frequent action of the secretions. After using many remedies without results, he tried Doan's Kidney Pills, and in a short time he was greatly relieved. He is glad to give them his recommendation."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.
 Remember the name—Doan's—and to no other.

...an intelligent thinking woman. In need of relief from weakness, nervousness, pain and suffering, then it means much to you that there is one tried and true honest medicine of a known composition, sold by druggists for the cure of woman's ills.

The makers of Dr. Pierce's Favorite Prescription, for the cure of weak, nervous, run-down, over-worked, debilitated, pain-racked women, knowing this medicine to be made up of ingredients, every one of which has the strongest possible indorsement of the leading and standard authorities of the several schools of practice, are perfectly willing, and in fact, are only too glad to print, as they do, the formula, or list of ingredients, of which it is composed, in plain English, on every bottle-wrapper.

The formula of Dr. Pierce's Favorite Prescription will bear the most critical examination of medical experts, for it contains no alcohol, narcotics, harmful, or habit-forming drugs, and no agent enters into it that is not highly recommended by the most advanced and leading medical teachers and authorities of their several schools of practice. These authorities recommend the ingredients of Dr. Pierce's Favorite Prescription for the cure of exactly the same ailments for which this world-famous medicine is advised.

No other medicine for woman's ills has any such professional endorsement as Dr. Pierce's Favorite Prescription has received, in the unqualified recommendation of each of its several ingredients by scores of leading medical men of all the schools of practice. Is such an endorsement not worthy of your consideration?

A booklet of ingredients, with numerous authoritative professional endorsements by the leading medical authorities of this country, will be mailed free to any one sending name and address with request for same. Address Dr. R. V. Pierce, Buffalo, N. Y.

THE CHEERFUL TURTLE.

This Queer Creature Enjoys Many Peculiar Advantages.

"To be or not to be—a turtle? To be certainly, if I could not be a man," declares one who speaks with knowledge of his subject. "Basking in tropical suns or cruising leisurely in cool depths, the turtle has an exceedingly good time. As soon as the baby turtle emerges from the egg he scuttles down to the sea. He has no one to teach him, no one to guide. In his little brain there is implanted a streak of caution, based on the fact that until a certain period his projecting armor is soft and no defense against hungry fish, and he immediately seeks shelter in the tropical profusion of the gulf weed, which holds within its branching fronds an astonishing abundance of marine life.

Here the young turtle feeds unmolested and knows that his armor is hardening apace. Once he has attained the weight of twenty-five pounds he may 'cheek' freely any monster of the deep. After that no fish or mammal ever interferes with him. Intending devourers may struggle all day to break through his iron shell. They always fail.

"The turtle, like the sperm whale, has but one enemy—man. Now, even that sperm whale must come pretty frequently to the surface to breathe, and if it got beached high and dry on land what would become of it? But the cheerful turtle can stay below the surface for a week if he wants to, and he often does, while if he had to spend an equal time on land he would enjoy the change and be none the worse for it. He is neither fish, flesh nor fowl, yet his flesh partakes of the characteristics of all three.

"Eating seems a mere superfluity with him, since for weeks at a time he may be placed in a barrel, with the bung out, and emerge after his long fast apparently none the worse for his enforced abstinence from food, from light and almost from air. Of all the warm blooded organisms there is none so tenacious of life as the turtle. Injuries that would be instantly fatal even to fish leave the turtle apparently undisturbed, and his power of keeping death at bay is nothing short of marvellous."
