

There is every indication of a most cordial co-operation on the part of the commercial bodies of Oregon and Washington in advancing the interests of the Alaska-Yukon-Pacific Exposition, and in every other movement having for its purpose the upbuilding of the North Pacific Coast. An evidence of this is a recent interchange of visits by the active officers of commercial bodies in Portland, Seattle, Tacoma and other Northwestern cities. Co-operation of the same character exists between the livestock associations of the different sections, and through their working in harmony there is assurance that, beginning with the first meeting this Fall, the finest horses from the best stables of the entire country will participate in the events planned for Oregon, Washington and Idaho.

One of the finest fruit farms in Washington county exchanged hands last week, when the Oregon Land & Trading Company sold Frans Bleid's home place on David's Hill to J. C. Mackrodt of Peru, Illinois. Consideration \$6000. We understand that Mr. Bleid and family are to make their home in Portland. We are sorry to lose this family as they have done much in the twenty years they have lived on David's Hill to prove that the hill lands surrounding Forest Grove can produce the finest of fruit.

The United Chambers of Commerce of Japan have extended an invitation to the representative business men of the cities along the Pacific Coast to participate in an excursion which will leave San Francisco on September 25th. Those preferring to go by another route, however, will join the party in Japan. The entire trip will consume about three months, and the visitors will see the famous chrysanthemums at their best.

David Mobley, who has been working in the harvest fields with Gordon Brown in Franklin county, Wn., had a leg broken above the knee, by a derrick falling on it. Gordon cared for his friend for two weeks, and he is now at a farmer's home there. He will return to Forest Grove as soon as able and take up his studies when college opens.

—Dr C. L. Large reports a son weighing nine pounds born to the wife of W. F. Stockman, here last Saturday. Parties wishing the attendance of Dr. Large in this class of cases, will greatly oblige him, if convenient, by engaging his service two or three months prior to the expected event. Dr. Large has both phones.

J. T. Shannon is home on a visit, having just completed a Condenser for the Pacific Milk Company at Monroe, Wash. At the grand opening 2300 people were present and a royal time was had under the auspices of the Commercial Club.

Miss Ethel Fortune of Portland took charge of Miss Kirkwood's Millinery Store last week. Miss Kirkwood will take a rest for a few months. She expects to spend a part of the coming winter in California.

Mrs. L. C. Trites of Gales Creek, has returned from Portland where she has been visiting with Mrs. J. Cook. Mrs. Cook returned with Mrs. Trites and will be at her home in Gales Creek for two weeks.

Mrs. Wm. Thatcher and son, who have been visiting with Mrs. Thatcher's daughter, Mrs. O. S. Higby since April, have returned to their home in Omaha, Nebraska.

## PERFECT CONFIDENCE

**Forest Grove People Have Good Reason for Complete Reliance.**

Do you know how—  
To find quick relief from backache.  
To correct distressing urinary ills.  
To surely cure sick kidneys?  
Just one way—your neighbors know—  
Have used Doan's Kidney Pills;  
Have proved their worth in many tests.  
Here's Forest Grove testimony.

J. S. Trumble, living in Forest Grove, Ore., says: "For some time I suffered from a dull ache across my loins and hips accompanied by a deranged condition of my kidneys. These organs were very frequent in action and I was forced to arise so many times during the night to pass the secretions that my life was a burden to me. The trouble grew worse and I gradually got down in health. I saw Doan's Kidney Pills so highly advertised that I decided to try them and procured a box. I noticed a great change in my condition after a short time and after taking the contents of the first box, I felt unusually well. Doan's Kidney Pills have my recommendation as a kidney remedy unexcelled."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

C. B. CAMPBELL, WM. WESTEN.

Miss Manche Langley, the versatile local editor of the Forest Grove Times, was in town Saturday, accompanied by a beautiful liver-colored doggie, which was presented to her by an admiring friend. The dog, however, was prone to wander, much to the owner's disgust, so a false friend told her to smear the pup's nose with oleomargarine, and it would not leave her. On the occasion of her visit to Hillsboro, Miss Langley greased Fido's nose plentifully with expensive creamery food, but still the dog would stray. While at dinner here, the canine vanished completely, and the owner asked obliging John Vanderwahl to hunt it up for her, promising John "a nice puff in the Times" for his trouble. After collaring three dogs, and narrowly escaping trouble with the owners, John threw up the sponge, and in apologizing for his failure, said: "I'm all right on fire-insurance, Miss Manche, but when it

### The Story of a Medicine.

Its name—"Golden Medical Discovery" was suggested by one of its most important and valuable ingredients—Golden Seal root.

Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery," for the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A glance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the strongest endorsement from the leading medical experts, including and written on *Medical Men* who recommend them as the "best remedies for the diseases for which 'Golden Medical Discovery' is advised." A little book of these endorsements has been compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and will be mailed free to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections, accompanied with catarrhal discharges, hoarseness, sore throat, lingering, or hang-on-coughs, and all those wasting affections which, if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will. It will cure the affections that lead up to consumption, if taken in time.

### A CLERK'S BLUNDER.

Its Effect Upon the Fortunes of Our Revolutionary War.

The element of chance as exemplified in the blunder of a copyist had an important bearing on the result of our war for independence. As is well known, the crisis of the military between Great Britain and the revolting colonies was reached when General Burgoyne's campaign was planned in London. The object was to strike a tremendous blow at the center of the Revolution. The British forces were to take possession of the Mohawk and Hudson valleys by a concentric march from Lake Champlain, Oswego and New York on converging lines toward Albany. The ascent of the Hudson by Sir William Howe's army was essential to the success of a scheme by which New England was to be cut off as by a wedge from the southern colonies.

Orders were sent out from London for the advance of Burgoyne's and St. Leger's forces from Canada. At first Sir William Howe was merely informed of the plan and was armed with discretionary powers, but finally a dispatch was drafted positively ordering him to co-operate in the movement from New York.

A British clerk made a hasty and very careless copy of the dispatch, which the minister, Lord George Germaine, found great difficulty in reading. He angrily reprimanded the culprit and ordered a fresh copy to be made without flaw or erasure. Being pressed for time and anxious for a holiday, Lord George posted off to the country without waiting for the fresh copy.

The military order was laboriously copied in the clerk's best hand, but when it was finished the minister was not there to sign it. It was pigeon-holed and overlooked when he returned and was not sent to America until long afterward. Howe, being left with full discretion, allowed himself to be drawn into military operations against Washington's army near Philadelphia. Burgoyne's army was entrapped, cut off from retreat and forced to surrender at Saratoga.

Thus the fortunes of the Revolutionary war turned upon the carelessness of a British clerk.—Chicago Record-Herald.
