crutches, and will remain in Hillsboro the guest of her sister, Mrs. Geo. Wilcox, until the fall term of the Baptist College at McMinnville opens, where she will have charge of the conservatory of music.—Argus.

It is the business of a newspaper man to boom the city for all it is worth month after month, and then see \$50 worth of printing go out of the city because 10 cents could be saved by doing so. It is the business of the newspaper to give every local enterprise enthusiastic and frequent "send-offs," and then catch sheel because he failed to record the fact that some prominent citizen has his delivery wagon painted. To subscribe liberally to every public, charitable and church enterprise, advertise them for nothing, pay his way into them, and then be called prejudiced and mean spirited because a column is not devoted to that particular affair. Do you wonder that there are so many cranks in the newspaper business? It is bound to make either a crank or a philosopher out of a man.—Ex.

After the first Monday in October the second half-payments of taxes, on which half had been paid, will become delinquent. Ten per cent penalty will attach on that date, also interest at the rate of 1 per cent per month from the last Monday in April. Therefore, those who do not settle at the tax collection department of the sheriff's office on second payments on or before October 5 will have approximately 16 per cent additional to pay in penalty and interest.

After the same date the sheriff will be prepared to issue tax certificates on all unpaid real estate whenever anyone appears and offers to pay the taxes, penalty and interest. The person who receives this certificate will be entitled to a deed three years from the date of the first delinquency, in April, if the property is not sooner redeemed. If the owner appears to redeem it he must pay 15 per cent interest on all sums expended by the man who takes the tax certificate.—Argus.

Washington county now has under the draughting board a township, road and present ownership map, to be made in three volumes. The work will show every recorded county road, every bridge that crosses a stream and every owner of land in the county. The books are so drawn that they can be corrected every year, the new roads and the changes in ownership of real estate added. When spread out consecutively, the three books will show each township in full.

The maps are being furnished by T. S. Wilkes, a civil engineer, and the cost will be \$2000. The old present ownership books are about worn out, and the new work is for the benefit of the Assessor, as well as for the County Commissioners.

Oregon dairy interests are up-to-date. President F. I. Kent, of the Oregon State Dairy Association has just returned from New York, where he has been in attendance upon the National Convention of Dairy Instructors, under the sponsorship of the United States Government.

The Portland Country Club and Livestock Show opens next Monday and continues all week. It will be the largest showing of livestock ever gathered together at one time in Pacific Northwest, not excepting the marvelous exhibit at the Lewis and Clark Exposition. The speed contests will be extraordinary; the great mile track is without a parallel on the American continent; the transportation facilities to and from the grounds will be excellent, as both steam and electric roads will carry their thousands. The beautiful amphitheater built upon steel trusses, the first of its kind in Oregon, is already completed.

Miss Wilma Waggener, who has been visiting friends and relatives in Washington, for some time past, is expected to return to Hillsboro this week. While out driving with a lady cousin at Kirkland, Wash., a couple of weeks ago, the horse stumbled and fell, threatening to overturn the buggy. Miss Waggener jumped from the vehicle and broke a bone in her ankle also badly wrenching the tendons of the limb. She is now about on
