Hon. George W. Honey, National Chaplain U. V. U., ex-Chaplain Fourth Wisconsin Cavalry, ex-Treasurer State of Wisconsin, and ex-Quarter-master General State of Texas G. A. R., writes from 1700 First St., N. E., Washington, D. C., as follows:

"I cannot too highly recommend your preparation for the relief of catarrhal troubles in their various forms. Some members of my own family have used it with most grati-fying results. When other remedies failed, Peruna proved most efficacious and I cheerfully certify to its curative disease, but from a medical point of

a leading photographer of Kansas City, Mo., located at the northeast corner of 12th and Grand Aves., cheerfully gives the following testimony: "It is a proven fact that Peruna will cure catarrh and la grippe, and as a tonic it has no equal. When Johnny Hobbs left his home up among the New Hampshire hills to visit his grandmother in Worcester. Mass., he was cautioned by his mother that he would find things in the city

Johnny arrived in the early afternoon, and long before tea time his grandmother, who lived most simply, told him to run out to the pantry and get a bowl of milk which she had left there "for a hungry boy."

A moment later she followed him, and, to her amazement, beheld her grandson bravely at work on a bowl of spearmint tea which she had forgotfully put in the place where she had told him to find the milk.

"Why, child," she cried, seizing the bowl from poor Johnny, "don't you know this isn't milk?"

"I-I knew it wasn't like Hillbury milk," stammered Johnny, with a final gulp, "but I thought maybe it was the kind folks had in Worcester."

Peppermint and Tobacco.

If you have a boy who has begun smoking too early and whom you wish to cure of the habit, feed him peppermints. Dr. O. Clayton Jones of Silverton, England, writing in the London Lancet, is authority for this simple cure. Dr. Jones writes: "To break the smoking habit in a youth there is nothing better than peppermint drops. He cannot smoke with a 'bullseye' in his mouth, and even for some time after it is dissolved tobacco will not blend kindly with the taste that remains. Socially the cure may seem worse than the view the sucking of peppermints is far Mr. Fred L. Hebard, for nine years less hurtful. A common 'bullseye' will

FOREST FIRES ARE EXTINGUISHED

Had Just Destroyed Village in Adirondacks When Cownpour Began-Cold Wave Is Due.

Washington, Sept. 29.-The drouth

which has prevailed over the entire eastern section of the United States for months is broken. Rain has been general over the entire affected area The weather bureau announced last light that the heavy rains would be ollowed by a drop in the temperature today. Forecaster Garriot said it would be about 25 degrees cooler. Rains will cease tomororw in the Middle Atlantic states, but may continue for 24 hours longer in the New Eng-land States, which, until late yesterlay, had not shared in the genera precipitation.

Adirondack Village Burned.

Utica, N. Y., Sept. 29.-Rain began illing at Clearwater and Long Lake resterday and it is reported that indi-ations are for a sufficient downpour stop the fire ravages.

A fire which destroyed the village of Long Lake West, causing a loss of \$125,000, swept through the forest so rapidly that the firefighters had to flee for their lives. It is reported that during the fire four tons of dynamite which had been sent in for use upon he railroad and in fighting the fire exploded, causing great destruction in the immediate vicinity and badly

wisted the tracks.

Reports indicate that many exten ive private preserves in the vicinity of Long Lake West are being fire-wept. Chasane Park, Dr. Seward Webb's estate, is burning and there are fires in Harry Payne Whitney's ,000-acre estate

WHAT IS HAWAII?

Judge Dole to Decide Important Case Involving Status of Islands.

Honolulu, H. I., Sept. 29.—Is Ha-waii a territory of the United States as Arizona and New Mexico, or is it an insular possession, as Porto Ricco and the Philippine islands? This is the question that Judge Dole of the nited States district court has been called upon to decide and attorneys all over the islands are awaiting the answer to the question, as it will effect the status of nearly every legal prob-lem that has come up for solution since the annexation of the Hawaiian

The issue was raised in the ca Manuel Perez and Augusta Walsh, indicted under the Edmunds act. A lea of former acquittal was filed by the attorneys for the defense, it being alleged that the defendants were prosecuted for the same offense and equitted in the district court last

The point of law raised by this plea is whether there are two sovereignties or one in Hawaii. If there are two s in a state or territory of the United States, a former acquittal in the courts of one jurisdiction is not a defense in court of another jurisdiction. But if Hawaii is not a full territory and there is only one sovereignty, an acquittal in any court is a bar to further prose cution on the same charge.

Cholera Claims Many Victims

St. Petersburg, Sept. 29.-The number of new cholera cases in the mu-nicipal hospitals for the 24 hours ended at noon yesterday was 263 and the deaths 103. The statistics for the previous 24 hours were 268 and 143 respectively. Eight hospital attendants have come down with the disease and the other attendants are in a state of panic. Great difficulty is being en-countered in persuading them to re-main at their posts. Premier Stolypin has written a sharp letter of censure to the mayor of St. Petersburg regarding the conditions

RUSSIA BEGRUDGES MONEY.

Bureaucracy Weighs Dollars Heavier Than Human Life.

St. Petersburg, Sept. 28 .- The bu strangely different from those at home. Parched and Suffering Eastern reaseracy of St. Petersburg is weighing dollars against human life, and as a result Russia is today threatened with one of the gravest cholera scourges in the history of the empire.

Premier Stolypin, into whose hands the work of enforcing imperative sanitary reforms was recently placed, is meeting with discouragement from those in authority on every hand. They are protesting vigorously against the enormous expense involved in cleaning up the city, and as a result of their opposition the work will probably be only half done.

It is being pleaded that the advent of cold weather will put an end to the cholera spread, whereas the history of all cholera plagues has been that cold weather is but a temporary check, being followed in the ensuing spring by a recurrence of the scourge.

Bad as conditions are in St. Peters-

urg, they are hardly to be compared with the menacing aspect of the dis-ease in other parts of the empire. ABOLISH COLONIST RATES.

Plan Almost Unanimously Approved by Western Railroads.

naterially retarded if railroads be world. ween Chicago and the Pacific Coast carry out a plan which has been advanced by executive officials. A proposition has received the approval of nearly every railroad in the Western Passenger association to abolish all lov

r reduced rates after January 1, 1909 This determination has been reached cause of the alarm felt over the re duction in net passenger revenues of western roads. This reduction is laid at the door of reduced rates, and genuine alarm is felt for the future. Railroad officials declare that with the 2-cent rate generally there can be no reduced rate without passing the margin of profit.

It is estimated that western roads have lost this season several millions of dollars in passenger revenues, com-pared with what hey would have en-joyed had they maintained a minimum 2-cent rate west of Chicago. This con-clusion is based upon careful statistics prepared by the Alton and other railoads, which show that railroads have carried more passengers than ever, but at a less net revenue than accrued from a smaller movement. This can mean only one thing, it is said, and that is the return of a minimum 2-cent rate everywhere.

It is not expected that this change can be brought about until the first of the year, but it now seems certain that. if the public desires reduced rates, they can be had only by a return to the 3-cent basis.

CHINESE AVOID HEAD TAX.

Hundreds Admitted Into Canada on False Statement.

Ottawa, Ont., Sept. 28 .- A scheme has ust been laid bare by the controller of Chinese immigration at Ottawa, which is believed to be the most elaborately onceived fraudulent device for effectng the Chinese "invasion" of Canada

ever perpetrated. By means of this device hundreds of roung Celestials have been flocking in at the eastern ports of the Dominion and escaping the \$500 head tax by passing themselves off as merchants or other privileged classes. Canada has thus been victimized through honoring certificates of the charge d'affaires ad nterim and consul general at the im-

perial Chinese legation in Mexico. Statistics in the trade and commerce department here show that 280 Chines immigrants were admitted into Canada ecently at the ports of Montreal and Halifax alone, without paying the head tax and that not more than 15 Chinese should have been so favored.

Land Grab Thwarted.

San Francisco, Sept. 28 .- State Mineralogist Aubury after a long fight has compelled H. H. Yard & Co., speculators associated with the Western Pacific, to release their hold on 13,000 acres of rich mineral land in Plumas and Butte coun-This land was located by Yard and his associates some years ago. Later Aubury filed an action in the land of fice on the ground that while it had been taken as mineral land and was known to contain minerals, the land was desired for railroad purposes. The land office has now cancelled the filing.

S.S.S. THE CURE FOR SCROFULA

Swollen glands about the neck, weak eyes, pale, waxy complexions, running sores and ulcers, skin diseases, and general poor health, are the usual ways in which Scrofula is manifested. The disease being deeply intrenched in the blood often attacks the bones, resulting in White Swelling, or hip disease, and the scrofulous and tubercular matter so thoroughly destroys the healthful properties of the blood that Scrofula sometimes terminates in consumption, an incurable disease. The entire circulation being contaminated, the only way to cure the trouble is to thoroughly purify the blood and restore the circulation to a strong, healthy state. S. S. is the very best treatment for Scrofula; it renovates the entire blood supply and drives out the scrofulous and tubercular deposits. S. S. S. is the greatest of all blood purifiers, and it not only goes right down to the very bottom of the trouble and removes the cause, but it supplies the weak, diseased blood with the healthful properties it is in need of, and in this way builds up weak, frail, scrofulous persons and makes them strong and healthy. One of Premier Stotypin's proposals S. S.
