HIDDEN DANGERS.

Nature Gives Timely Warnings that no Forest Grove Citizen Can Afford to Ignore.

DANGER SIGNAL NO. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

DANGER SIGNAL NO. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the approach of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently. Here's Forest Grove proof.

J. S. Trumble, living in Forest Grove, Ore., says: "For some time I suffered from a dull aching across my loins and hips, accompanied by a disordered condition of my kidneys. The secretion from these organs were very frequent in action and I was forced to rise many times during the night on this account. The trouble grew worse as time passed and I gradually ran down in health. I saw Doan's Kidney Pills so highly advertised, that I decided to try them and prepared a box. I noticed a great change in my condition in a short time and after taking the contents of the first box felt unusually well. Doan's Kidney Pills have my recommendation as I know them to be an exceptionally fine kidney remedy."

Fortunes of the World are Founded in Oil

Joe Chanslor, now several times a millionaire, was not long ago, a clerk in Los Angeles. He borrowed some money for the purpose of operating in California oil; the result was that it made him one of the wealthiest men in the state. John A. Bunting, formerly a brakeman on the Southern Pacific, through the investment of \$170.00 in California oil land became a millionaire. We could tell you of innumerable others. Why were Bunting, Chanslor, and the many others, who made their money through investments in oil, successful? Because they were shrewd, level headed, observing men possessing unbounded confidence in the great future of the California oil fields and the oil industry. The demand for oil is increasing daily. The consumption far exceeds the output. Several oil companies paid substantial dividends when oil was selling at fifteen cents per barrel. Oil is now selling at sixty cents per barrel at the well. The total dividends for the year 1903, from all the oil companies doing business in California, not including the Standard, will probably reach the \$6,000,000 mark for the year 1909. There fore the natural conclusion to arrive at, is Investment in Oil Securities. Invest at once. We are offering for sale a limited number of shares on what we consider to be one of the best companies operating in Kern county, in fact in California. We refer to the stock of the Kern Associated Oil Company. The Kern Associated Oil Company is the best oil proposition ever offered the investment public. This Company owns free of incumbrance forty acres in the very heart of the Kern river oil district, and situated on the Southern Pacific railroad. It adjoins the San Joaquin Oil & Development Company's property which was recently merged with the Associated Oil Co., whose stock is now selling at \$31.75 per share. It also adjoins the justly famous Discovery well where oil was first discovered in the Kern River Oil District.

The Kern Associated Oil Company has two wells on its property. Well No. 1 is in oil and gives about sixty five barrels of oil per day. With a greater depth and a more approved pump the production will be greatly increased. The Company desires to sink four more wells at once and to install modern compressed air pumps. We believe that well No. 2 will with

SAYS WEALTH IS DISTRIBUTED
Chief Statistician of Census Bureau Writes on "The Assets of the United States."

The nation's wealth is not in the hands of a few, according to L. G. Powers, chief statistician of the census bureau at Washington.

Writing on "The Assets of the United States" in the September number of the American Journal of Sociology, issued recently from the University of Chicago press, Mr. Powers has the following to say of the concentration of wealth in America:

"If we start with the value of farms and other homes which are known to be owned by men of small possessions, the savings bank deposits and other known possessions of those of moderate means, and then add the lowest popular estimates of the possessions of our millionaires, we have an aggregate far in excess of the census appraisal of national wealth, and the conclusion under such circumstances is irresistible either that the census estimates are ridiculously small or the popular estimates of the wealth of our millionaires are greatly exaggerated."

"The writer does not find any evidence that would justify either the statement that our national wealth is grossly understated or that our millionaires own so large a share of that wealth as to leave the great majority without property."

WHAT TAFT WILL DO.

Here is a positive declaration by William H. Taft which should reassure the friends of President Roosevelt:
"If elected I propose to devote all the ability that is in me to the constructive work of suggesting to Congress the means by which the Roosevelt policies shall be clinched."

Taft is making a good impression by his thoughtful speeches. Bryan is as clever and as interesting as ever—and as superficial.—Milwaukee Evening Wisconsin.

If it is true that Roosevelt is going to take to the stump Bryan will have to take to the woods.—Philadelphia Press.
Mr. Bryan no longer refers to Mr. Roosevelt as his imitator, counterpart and understudy.—St. Louis Globe-Democrat.

greater depth, produce a large and inexhaustible oil supply as are the other wells on adjoining properties. We are offering a limited number of shares in this Company at twenty cents per share. Do you realize what that means? It means that in purchasing this stock you become interested in a company that can produce the oil. It is not a case of "they may," "they should," but "they are."

Let us again impress these highly important facts upon you: The property is a producer, is entirely surrounded by reliable producing properties, that there is sufficient acreage (forty acres) to justify the drilling of forty more wells all of which would be in the very core of one of the richest oil producing districts in the world. Remember that Kern County produces as much oil as any other three oil producing counties in California. Shipping facilities could not be better for the property adjoins the Southern Pacific tracks. The company has valuable assets in improvements: Two wells, derrick, tanks, tool and bunk houses etc. Before accepting the fiscal agency of the Kern Associated Oil Company we thoroughly investigated every detail pertaining to the company and its property. We did not take snap judgment, we never do, consequently want to assure you that the stock of this company at twenty cents per share is the most unparalleled opportunity for the investor that ever came under our observation.

We sincerely believe that the Kern Associated Oil Co. is destined to pay dividends as surely and as regularly as are now being paid by the Associated Oil and other Companies operating on adjoining properties and we see no reason why within twelve months the Kern Associated stock should not be quoted at many times its selling price.

You can invest any amount from twenty (20) dollars up to twenty thousand (20,000) dollars. We allow you five (5) percent on cash subscriptions. You can purchase stock on the easy monthly plan if you so desire, one fifth down and one fifth per month. Send in your subscription at once. Don't delay. The stock of the Kern Associated Oil Co. is the best buy on the market today.

"A STATESMAN WITH A CONSCIENCE."

Description of the Republican Presidential Candidate by Senator Borah of Idaho.
(From Senator Borah's Boston Speech.)

"Now, it seems to be conceded by friend and foe that few men have been nominated for the presidency whose experience, whose training and whose sound and wholesome fashion of grasping and dealing with public questions were equal to those of William H. Taft."

"He is not a crusader, he is a statesman with conscience. He has won his present position through a cheerful, unhesitating and undeviating devotion to duty, through actually achieving things on the open field of action, through an intelligent conception of the strength and worth of our great government with its checks and balances; and the strength and capacity of our citizenship with its loyalty and its patriotism."

"No man ever had a deeper regard for the fundamental principles and precepts upon which this government is founded, and no one ever had a firmer conviction that the constitution is a sufficient chart by which to measure all rights and obligations and to gauge all the demands and all the aspirations and restrain and control all the recklessness of this indomitable race of ours. Trained in the law, eleven years on the bench, he explored well the sources of jurisprudence and carried away from his work an everlasting devotion to order and justice."

"Under all circumstances and under all emergencies, he has proved himself a brave, clean-minded, self-poised and courageous statesman. No man can put his finger upon a little or cowardly act, an incompetent or questionable piece of public service—no stain upon his private life, no shadow upon his public career. And standing now in the full fierce light which beats upon a throne, with eager eyes scrutinizing every act of a long and arduous public career, no doubt arises as to his experience and ability, no challenge comes to his fine sense of duty or his patriotism."

The Plot.
