Mrs. Macrum Entertains.

The Fleur de Lis Club was royally entertained by Mrs. Carrie Macrum Saturday evening. The house was beautifully decorated with autumn leaves and jack o' lanterns.

Thirty guests arrived at eight thirty, the ladies dressed as ghosts. Silence supreme reigned broken only by weird ghost stories. The ghosts were auctioned off to the highest bidder of peanuts. The gentlemen escorted their prizes to the dining room where the ladies unmasked. The lunch was delicious and every course suggestive of Halloween. After supper the ghostly robes were discarded for evening dress and a round of five hundred was played in which Mrs. Carrie Macrum and Willis Goff won first prize and Miss Dollie Hinman and Wilbur McEldowney carried off the booby prize. The

next round of gait was in the basement and consisted of the usual Halloween games and fortune telling. The evening wound up with music and singing and they say they all arrived home before midnight.

Dr. Bancroft and Lewis Coming.

Dr. Bancroft, the psychologist, has been secured by the Public School to give two of his famous lectures in our city. The series of lectures he will give will be intensely interesting and useful information. He is a talented gentleman of pleasing personality. He possesses the rare faculty which enables the clever lecturer to make what he has to say interesting in the highest degree. His powerful discourse on "Hoodooos" will be an interesting educational treat as the study of mental phenomena has assumed gigantic proportions, and it is well to get information of the presumably to be supermundane right from the fountain head, as Dr. Bancroft is and has been for years, considered an authority in the realms of psychic research.

Dr. Bancroft's series of lectures and entertainments throughout appeal to the higher capabilities of the intellect and the size of his audience should afford a pretty active index to the element of human progress in any community.

The features of the entertainment, in which the doctor is assisted by D. Lillian Lewis is of the highest order of merit.

The Public school of our city should be given great praise in securing such noted talent for our city, as they have arranged for two evenings, November 10th and 11th, in the opera house.

The advance seat sale for this attraction has been exceptionally large, securing a large audience.

Tickets for sale at usual place.

Notice.

Officers and Committees of the Taft and Sherman Club are requested to meet at Hotel Laughlin at 8 o'clock, sharp, Friday evening Nov. 6th.

This meeting is called to close up the business of the campaign just closed. F. S. Barnes, Pres. of the Taft and Sherman Club.

The Bible class of the M. E. church met at the home of their teacher, J. M. Pollock last evening and gave him and Mrs. Pollock a surprise. Refreshments were served and a pleasant evening was passed. About forty guests were present.

J. T. Ketchum, a stockman of The Dalles, was in Forest Grove on business Wednesday and to-day.

Beginning with next Monday, Goff Bros. will close their store at 6 p. m. The W. C. T. U. will meet with Mrs. L. L. Hollinger Friday afternoon.

Oregon fir never had a compliment paid which meant so much as the editorial which appeared in the "American Lumberman" of last week, the world's leading lumber journal. J. E. Defebaugh, editor of the periodical and known to every lumberman in the country, personally penned the editorial, which says in part: "Douglas Fir needs no stain to make it beautiful in color, it does not have to be carefully selected for grain, it takes a fine finish and is strong and as hard as many of the woods used for finer purposes. On the Pacific Coast are many fine residences and magnificent office buildings in which this wood is used. It will not supplant mahogany and oak, but should be used side by side with

them and for substantially the same purposes." Mr. Defebaugh urges its careful consideration by Eastern architects.

In tropical regions there are nettles far more powerful than that of our own country.

The one called Urtica stimulans, which is found in Java, and that called Laportea crenulata, found in Hindustan, when bruised emit an effluvium which poisonously affects the eyes and mouth and if handled produce convulsions and serious swelling and pain in the arms, which may last for three or four weeks and in some cases cause death.—London Telegraph.
