Masonic Hall echoed with plantation songs, negro melodies and old camp meetin' hymns Tuesday evening when the Nashville Jubilee singers appeared here under the auspices of the Public School's. The hall was filled to seating capacity and some of the numbers were greeted with deafening applause. The entertainers had to respond to many encores. From three trees about ten years old, John Stribich of this city, has gathered 150 pounds of walnuts which are of exceptionally fine size and flavor. The trees grew from nuts, one of the trees being of the Mayette variety, another of the Franquette variety and still another of a different variety. That there is a great future for the walnut industry in this section and that walnut trees do well here is demonstrated by such examples as this. If the old settlers of Forest Grove had planted walnut instead of maple trees what a harvest of nuts there would be at present.

There are some who claim that one cougar will in a year destroy more deer than ten expert hunters.
