—People have begun to do their Xmas shopping and the Bazaar is quite crowded in the afternoons. It is a task to find suitable presents for everybody but it is a good deal easier now than a week later, as there is a better selection of goods, and not so crowded.

The Forest Grove High School football team will go to Oregon City next Saturday to play a game with the team at that place. There was no game here last Saturday as advertised, owing to members of the Portland team, which was to play, having the smallpox.

There was a family gathering at the home of Mr. and Mrs. James Hocking, Friday of last week, on the expected arrival of a daughter, Mrs. Greeson, of Omaha, Nebraska, but as she got snow bound in Salt Lake, she failed to arrive until Saturday morning. She got here in time for a piece of the turkey. There were 26 to partake of the Friday dinner.

Members of the Legislative Committee of the Oregon Good Roads Association and State Grange, appointed at a largely attended State Conference, have come to Portland to spend a few days, for the third time in the past two months, in order that they might agree upon such a bill as could be brought before the legislature and become a law without unnecessary delay.

—If people who can, would come to the Bazaar to do their Xmas trading in the forenoon they will find it a good deal better than afternoon, as it is not so crowded. Sometimes in the afternoon the crowd gets so large, that it is next to impossible for the Bazaar people to wait on everybody although there are seven clerks, which is all the store can work to any advantage.

The Polk County Itemizer has been victimized, and this is the righteous howl of indignation the editor sends up: "The friends of this paper will please hand us in news items when they are fresh. We prefer not to publish a birth after the child is weaned, a marriage after the honeymoon is over, or the death of a man after his widow is married again."

A suit was filed in the Justice court Tuesday by Capt. G. W. Peters against Stewart Fuller of the Gold Crag Limited mining company, for fees said to have accrued for the selling of stock. A Monarch Range

ACTUALLY PAYS FOR ITSELF
IN Cold Cash!

By reducing fuel bills 25 to 50 per cent

By saving one-quarter of the time usually spent in the kitchen

By eternally doing away with nearly ALL of the disagreeable labor necessary to keep the common range half way presentable.

UNDERSTAND US!

Fuel, time and labor represent real money and the Monarch Range will positively save enough of all three to pay back its own cost in a short time. We don't make this statement thoughtlessly but with a desire to demonstrate it to every intending range buyer.

Our years of experience as practical stove dealers convinces us that the construction of the Monarch fully justifies this claim.

HOW THE MONARCH MALLEABLE RANGE SAVES

TIME

Much time is wasted with a common range waiting for hot fire in the morning or a baking heat during the day. The Monarch works PROMPTLY. A piping hot fire in five minutes after opening the draits is the regular thing.

LABOR

The hardest and most disagreeable tasks about the kitchen are blacking the range top and cleaning the crusted black bottoms of cooking utensils. All this is done away with by the Monarch polished top that don't require stove blacking.

FUEL

Ranges of the common type WASTE fuel because outside air is drawn in through its open seams and joints. The Monarch utilizes ALL the heat in the coal or wood. It is built AIR-TIGHT by riveting its steel plates to Malleable Iron frames—no stove bolts or putty used.
