### Some Age to Them

Census returns from Florence, Colorado, include a pair of remarkable schedules in the case of Francisco Esper and his wife, Rafael, who claim to be 110 and 107 years old respectively, and to have been married 90 years.

According to the information given by their grand daughter, Mrs. Julia Montoya, with whom they reside, Esper, who is of French parentage, was born in what is now New Mexico in 1800 and his wife was born in Taa, Mexico, in 1803. They were married at Santa Fe in 1820. One son, the survivor of 10 children, still lives in New Mexico, and is 87 years old.

### Afflictions.

Stars shine brightest in the darkest night; torches are better for heating; grapes come not to the proof till they come to the press; spices smell best when bruised; young trees root the faster for shaking; gold looks brighter for scouring; juniper smells sweetest in the fire; the palm tree proves the better for pressing; camomile the more you tread it the more you spread it. Such is the condition of all God's children. They are then most triumphant when most tempted, most glorious when most afflicted.—Bogatzky.

### Or Somethin'.

"Is your wife any better?"  
"No; still ailing. I do wish she'd get well, er somethin'!"
