MINNESOTA FORESTS ABLAZE Women Pray While Men Fight Fire Militia to Rescue.

Bemidji, Minn., May 16. - Women and children are in Bemidji's smokefilled churches tonight praying for rain or some other act of nature to save Points of View on Line of Funthem, their husbands and fathers and their homes from impending catastrophe.

Although battled desperately by hundreds of citizens, soldiers and forest rangers since 11 o'clock this morning, a forest fire four miles wide is slowly nearing Bemidji from the south.

Christopher C. Andrews, Minnesota state forestry commissioner, arrived here from Walker, Minn., this morning and is now at the scene of the fire. The citizens of the city, convoked by

BIG BATTLESHIP LAUNCHED.

Monster Fighting Machine Will Carry Crew of 1,000 Men.

New York, May 14 .- The battleship Florida, biggest of the American Dreadnoughts built thus far, was successfully launched at the Brooklyn navy-yard yesterday in the presence of the vice-president of the United States, the secretary of the navy, the naval attaches of all the powers and a crowd of 50,000 enthusiasts, whom intermittent rains failed to keep away.

The 21,825-ton fighting leviathan, built to carry 10 12-inch guns, glided down the ways to the strains of The Star Spangled Banner, played by the navy yard and the 29th infantry bands, while the crowd cheered and hundreds ot river craft tooted their noisy welcome.

The vessel was christened by Miss Elizabeth Fleming, daughter of ex-Governor Fleming, of Florida.

Later when the Arkansas and the Wyoming, now under construction, are afloat they will exceed the Florida in size by 3,000 tons, a difference sufficient to make a pretty good little liner in itself. The Florida herself is by no means finished, for as she went off the ways yesterday she was only about 60 per cent advanced towards completion, which means that she was not much more than a vast empty hull, and still awaits the boilers and main and secondary engines and armor and equip-ment that go to make up the ship ready for commission.

Probably there is not a battleship afloat that could tackle the Florida on even terms, when her commander's flag flies from the ungraceful, but formidable skeleton masts which will be placed upon her, that is, provided the naval designers do not change their minds, as to the utility of this novel feature of marine architecture within the next eighteen months, by which time the Florida should be in commission.

AERONAUTS FALL FOUR MILES; LIVE

Rip Cord Works Too Well, and Balloon Collapses.

Vice-President of Aero Club Passes Through Snow Storms on 400 Mile Flight.

Horse Cave, Ky., May 12.—After a thrilling flight of 400 miles, during which they ascended to an altitude of 20,600 feet and encountered two snow storms, A. Holland Forbes, of Bridgeport, Conn , vice president of the Aero club of America, and J. C. Yates, of New York, lost control of their balloon, the Viking, yesterday afternoon and descended so rapidly that both were badly bruised and the balloon partly wrecked.

The balloon came to earth near Center, Ky., a hamlet about 20 miles from Horse Cave, and dropped through the final 100 feet of space like a stone.

The escape of the balloonists from instant death was little short of miraculous.

"We left Quincy, Ill., at 6:55 o'clock Monday evening," said Mr. Forbes. We were hoping to strike favorable air currents from the West that might give us a chance at the long-distance record. We were carried in a semicircle, passing over parts of Illinois, Missouri, Indiana and Kentucky.

"Tuesday morning we encountered intense cold and a severe snow storm at an altitude of 16,000 feet. Tuesday afternoon at an altitude of 16,000 feet we ran into another snow storm. Shortly afterward we shot up to 20,600 feet. From that time on the cold was so intense that we became benumbed and half stupefied and gradually lost power to control the balloon.

"I cannot tell what the altitude was just before we made our final drop, but efforts to let out the gas by the valve had not suceeded in bringing us to the ground as fast as desired.

"Finally I decided to use the rip cord before we lost consciousness encovered, the cord did not work well and ripped the bag almost from top to bottom. The descent was terrific, and I was very little gas left in the balloon, as it fell like a stone."

Mr. Forbes was able to dictate a few letters and telegrams to friends and relatives. Both men are being cared for at the home of a farmer, Tilden Boston, near Center. Forbes' injuries are not serious, but the physicians are yet doubtful in the case of Yates.

Rich Placers Uncovered.

Victoria, B. C., May 16.—Rich placers have been found in Northern British Columbia, near the headwaters of Taku inlet, and miners are taking out 5 cents to the pan. Jack Hy-land, a trader, who arrived from Tele-graph creek, brought authentic news of this find.

Surrend to Troops.

Santa Fe., N. M., May 17 .- The threatened uprising of the Taos Pueblo Indians at Taos, N. M., appears to be at an end. Governor Mills today said the national guard sent to Taos last night has been ordered to return. United States Attorney Wilson tele-

graphed from Taos this morning that the renegade Indians have volunteered to surrender themselves on the bench warrants which they have been resisting. He added that the trouble had been greatly exaggerated.

A regular troop of Cavalry, with Captain McCoy in command, from Fort Wingate, arrived here tonight to take a special train for Barranca, whence it dered back by the War department.

It probably will be necessary for the troops to serve the bench warrants and make the arrests, but no bloodshed is feared, as the Indians, who including women and children number only 300, stand in awe of the military.

Chase Horsethief in Relays.

Chicago, May 17 .- A 19-year-old horse thief was captured by the Waukegan police this afternoon after a 20mile chase that lasted more than four hours and during which the police used three relays of horses and an automobile. Volleys of shots at the opening of the chase and interruptions of parties on pleasure drives that their fresh horses might be exchanged for tired animals driven by the police added exciting incidents to the flight. The police finally captured the thief by the used of an automobile.

Fruit Crop Is Menaced.

Denver, May 17 .- Colorado's fruit of the estimated value of \$7,000,000 is menaced tonight by a storm, accom-panied by a sudden drop in temperature, which is sweeping the state. The thermometer at the western slope registered 40 degrees Fahren-heit at 10 o'clock, and was falling steadily, under a 60-mile wind from the

three-year-old male seals are to be allowed to escape from the killing fields on the Pribyloff Islands to supply the required number of breeding adults in the future. They are to be marked in such a manner as to make them readily recognizable throughout the season and under no circumstances are they to be slain. They are to be the best samples of the seal herds. This direction, given to W. I. Lamb-

key, agent in charge of the Alaskan seal fisheries, was announced today by Secretary Nagel. Stringent measures for the protection of seal life are contained in the instructions to the agent. The privilege of taking the seals, heretofore leased to a private company, now rests with the government, which is to sell the skins to the highest bidder.

Flannery Trial Opens.

San Rafael, Cal., May 14.-District Attorney Thomas P. Boyd, of Marin county, made his opening address to the jury today in Judge Lennon's court in the case of Harry P. Flannery, expresident of the San Francisco police commission, who is on trial on a charge of grand larceny growing out of his alleged connection with the men who conducted the recently-raided fake poolroom in Sausalito. Flannery was ordered to furnish \$5,000 cash bail before the opening of court tomorrow morning, at 10 o'clock.

table and mineral realms and mathematics in all its stages have their bases in certain fixed and unvarying forms, which are only four in number.

Explaining his new science, which he termed stereometry, before a body of Southern California educators, yesterday and today, Mr. Thompson de-clared that with the four units, which he illustrated with wood models, he could produce any geometric shape now known and many never dreamed of.

There was no limit to the minuteness or to the colossal proportions of the creations built of these forms. Combined in octaves or in series of seven, he said, they interpreted nature in its infinite variety from the tiniest molecule to the mightiest sun.

Mr. Thompson said that there was no form of crystal, snowflake or any geometrical conception which he would not produce with a combination of two or more of his four units.

Mr. Thompson labored nine years to bring his discovery to its present state. He says he devoted 20 hours of every day to the task.

Lion Toys With Tiny Babe. Cleveland, Tenn., May 12 .- A trained lion being exhibited on an opera stage here tonight suddenly became again the bloodthirsty beast of the jungle, and, snatching a babe from the arms of its mother, carried it to the back of the stage, dashed it to he floor and plantted both his forepaws on the little one's body, licking the blood from the wounds on the baby's head and face. Frantic citizens advanced on the lion and diverted its attention, while a man snatched the baby. The child is terribly lacerated but may live.
