### SWEDISH SANITARIUM

Our methods of treating diseases is not a new one but an old and well tested one, worthy of a trial to any discouraged and hopeless sufferer. Being graduates of Sweden and employing the European methods the results in curing are astounding to which hundreds of patients in all stations of life will testify. Our methods are not entirely drugless but we adhere to the use of physical methods as much as possible such as Electricity, Chiropneustic, Hinsen rays, Baked-oven, Manipulations, Baths of all kinds, Physical Culture, also the famous Naubelm treatment prescribed so much in Europe for heart trouble and asthma.

### Quite the Proper Thing.

Anxious Chaperon (in Washington).—Are you sure, my dear, that it is good form to go to the top of the Washington monument?

Her Fair Charge—O, yes, ma chere. That is one of the regular society columns.

### Makes a Difference.

## INDUSTRIAL DEVELOPMENT AND PROGRESS OF OUR HOME STATE

### SUMMER SCHOOL OPENS.

Sixth Annual Session Begins at Oregon University.

University of Oregon, Eugene—The sixth annual summer session of the university of Oregon, now open under the direction of Professor H. D. Sheldon, is expected to be the most successful and best attended since the summer school was started. It will last six weeks, closing Friday evening, August 5.

Plans are being made for at least 150 students. About fifty of these will be regular students taking extra work so as to graduate in less than the required four years, and the rest will be students who have no time to study in the winter.

Courses are given during the summer session in botany, chemistry, education, English composition and literature, French, Spanish, German, history, mathematics and physics. With the exception of English composition and literature, all the courses will be under the regular heads of the departments. Professor Henry David Gray, of Leland Stanford university, will have charge of the English department.

In addition to Professor Gray, other well known educators will give lecture work in the educational department. The course they are grouped under will comprise a series of thirty lectures on the various phases of school organization and administration.

### Horse Breeder Files Complaint.

Salem—A. C. Ruby, who breeds fine horses and has headquarters at Portland, has filed a complaint with the railroad commission against what he alleges unfair treatment by the Southern Pacific company and the Oregon Railroad & Navigation company.

The railroads, according to Mr. Ruby, are universally slow in delivering stock after it arrives, the service is poor and the freight charges exorbitant. Mr. Ruby says all stallions and jacks are billed at 3,000 pounds, regardless of their actual weight, and some weigh less than one third that figure. The men who accompany horses are compelled to pay full first class passenger fare to ride in a box car with the animals. The cost is therefore very high.

Recently it cost Mr. Ruby \$137 to ship four head from Pendleton to Ontario. It costs about \$100 to ship a horse from Klamath Falls to Portland.

### Big Cherry Crop

Eugene—The season's crop of the famous Royal Anne cherry of the Eugene fruit district is enormous. The canners of the co-operative association of growers started up this week with 200 girls and women at work. The yields from older orchards run 12,000 pounds per acre upwards. Cherries will average not less than 3 1/2 cents a pound.

After a short season of handling the green fruit the manufacture of the Maraschino cherry will begin and about two carloads per week will be shipped to New York. The cherries are given a preservative liquid bath here, then barreled and sent to New York, where they are again treated and made into the tidbit that goes into the cocktail that makes the New Yorker happy.

### Remodel Map of Oregon.

Salem—Though initiative petitions have already been presented at the office of the secretary of state which propose by direct enactment to create five new Oregon counties next November, petitions are still being circulated in different parts of the state asking the electorate to create two additional ones, making the list of new counties to be created by the people at the next general election a total of seven. Four of these new counties are to be located in Eastern Oregon and three in Western Oregon. If they all carry, the map of Oregon will be so badly mutilated the state's own sons will be unable to recognize it.

### Inheritance Tax Fortune.

Salem—The state treasurer's office has received the inheritance tax from the estate of the late Caroline Ladd, amounting to nearly \$14,000. The net value of the estate was \$1,491,194.57. There were five children, each of whom received \$298,238.92, on which each paid to the state \$2,932.39, a total of \$14,661.95.

The law provides that a discount shall be given for payment of inheritance taxes within eight months. This was taken advantage of, the saving to the estate being \$733.10, and leaving the net amount paid to the state treasury \$13,928.85.

### Cool Weather Helps Apples.

Hood River—The cool weather in the Hood River valley has aided the apple crop. Orchardists are propping the trees, preparing for the heavy burden of fruit. Apples have never been so large. The box factories are running full crews making boxes to meet the demands. A large number of the growers are increasing their orders for boxes as the season advances. Hood River is expected to market 400,000 boxes of apples this year.

### DOZEN MILLS BUSY.

Year's Cut in Wallowa Will Total 20,000,000 Feet.

Wallowa—The lumber industry of Wallowa is daily becoming a more important factor in the growth of the town. From a paltry shipment of 22 cars in the last 12 months, the exportation promises to reach nearly 20,000,000 feet during the coming year.

Twelve sawmills are running full blast within a radius of 11 miles of this city and all are marketing their product here, the bulk of it being purchased by the Nibley-Minnaugh Lumber company and the Bear Creek Lumber company. The daily cut of these 12 sawmills is averaging very close to 200,000 feet.

The largest mill, that of the Nibley-Maimnaugh Lumber company, while in operation for the first time this season, is cutting about 50,000 feet every day; the Bear Creek Lumber company is sawing in the neighborhood of 40,000 feet daily; four other mills are each averaging over 20,000 feet daily, and the other mills are sawing from 5,000 to 15,000 feet, according to crew and capacity of the mill. The three largest mills expect materially to increase their output within the next few weeks.

In order to make the most of their product, the Nibley-Minnaugh Lumber company will have in operation about July 1, one of the finest planing mills and box factories in Eastern Oregon. It will occupy a floor space of 60x120, exclusive of the lumber sheds and power house. It will contain all modern machinery for the surfacing of lumber and the making of boxes.

### Plans Big Cherry Celebration.

Cove—Cove citizens are preparing for the first annual cherry show which will be held when the ripening fruit is at its best. The cherry crop will not be quite as heavy as last year, when Cove was one of the few districts that boasted of bumper crops, but the grade of fruit will be better and it will mature much earlier.

About 300 pickers will be needed in Cove alone this year for a period of three weeks to care for the fruit.

### Cannery for Wheeler.

Wheeler—The Union Fishermen's cannery of Astoria, Or., has been given a site for a cannery at this town, and the company will start the erection of the building so as to be ready for the fall pack. When the shingle mill is started here this town will lead all other towns in the county as a manufacturing town and will have the largest payroll.

### PORTLAND MARKETS.

Wheat—Track prices: Bluetem, 81@82c; club, 78c; red Russian, 76c; valley, 80c.

## Biliousness

"I have used your valuable Cascades and I find them perfect. Couldn't do without them. I have used them for some time for indigestion and biliousness and am now completely cured. Recommend them to everyone. Once tried, you will never be without them in the family."—Edward A. Marx, Albany, N.Y.

Pleasant, Palatable, Potent. Tastes Good. Do Good. Never Sickens, Weakens, Clogs. 10c, 25c, 50c. Never sold in bulk. The genuine tablet stamped C. C. C. Guaranteed to cure or your money back.

### Meyerbeer and Thunder.

Meyerbeer, like Handel, composed best in a thunderstorm. He had a room made at the top of his house with glass roof and sides, so that he might enjoy these conditions to the full whenever they presented themselves. It is said that no beast of the field, no raven or nightjar, could scent the approach of a storm more unerringly than Meyerbeer, and nothing was allowed to interfere with his solitary enjoyment of it when it arrived. Wherever he was he would leave at the first premonitory rumble.

Pessimistic. Wareham Long—"You've heard e' the milk o' human kindness, hain't yuh? Goodman Gronung—"Yes, but I hain't never seen any but wot's been skinned."

Only One More Resource. Elderly Uncle—"Spent your entire patrimony, have you, Archibald? Gosh through everything? Scapegrace Nephew—"Yes, uncle; everything, but the bankruptcy court."

## You Can Have a Model Kitchen

as cool and white as a dairy. No smell, no smoke, no heat, no dust. No old-fashioned contrivances. The

## New Perfection WICK BLUE FLAME Oil Cook-stove

is the latest practical, scientific cook-stove. It will cook the most elaborate dinner without heating the kitchen.

Boils, bakes, or roasts better than any range. Ready in a second. Extinguished in a second. Fitted with Cabinet Top, with collapsible

rests, towel rack, and every up-to-date feature imaginable. You want it, because it will cook any dinner and not heat the room. No heat, no smell, no smoke, no coal to bring in, no ashes to carry out. It does away with the drudgery of cooking, and makes it a pleasure. Women with the light touch for pastry especially appreciate it, because they can immediately have a quick fire, simply by turning a handle. No half-hour preparation. It not only is less trouble than coal, but it costs less. Absolutely no smell, no smoke; and it doesn't heat the kitchen.

The nickel finish, with the turquoise blue of the enameled chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

Every dealer everywhere; if not at yours, write for Descriptive Circular to the nearest agency of the
