

Cure Your Dandruff

Why? Because it is annoying, untidy. And mostly, because it almost invariably leads to baldness. Cure it, and save your hair. Get more, too, at the same time. All easily done with Ayer's Hair Vigor, new improved formula. Stop this formation of dandruff!

Does not change the color of the hair.

Formula with each bottle. Show it to your doctor. Ask him about it, then do as he says.

The new Ayer's Hair Vigor will certainly do this work, because, first of all, it destroys the germs which are the original cause of dandruff. Having given this aid, nature completes the cure. The scalp is restored to a perfectly healthy condition. Made by the J. C. Ayer Co., Lowell, Mass.

Dr. B. E. Wright

It will tell its own story to you—in your home—if you'll send us the coupon.

Please send me full particulars concerning this unusual Piano offer.

Name..... Address.....

Constipation

"For over nine years I suffered with chronic constipation and during this time I had to take an injection of warm water once every 24 hours before I could have an action on my bowels. Happily I tried Cascarets, and today I am a well man. During the nine years before I used Cascarets I suffered untold misery with internal piles. Thanks to you, I am free from all that this morning. You can use this in behalf of suffering humanity." B. F. Fisher, Rossmore, Ill.

Pleasant, Palatable, Potent, Taste Good. Do Good. Never Sickens, Weakens or Grips. 10c, 25c, 50c. Never sold in bulk. The genuine tablet stamped C. C. C. Guaranteed to cure or your money back.

Might Help Some.

"It's up to you to do something to help our Neighborhood Improvement Association."

"I'm for it. I'll make my daughter sell her piano."—Cleveland Plain Dealer.

A Storekeeper Says:

"A lady came into my store lately and said: 'I have been using a New Perfection Oil Cook-Stove all winter in my apartment. I want one now for my summer home. I think these oil stoves are wonderful. If only women knew what a comfort they are, they would all have one. I spoke about my stove to a lot of my friends, and they were astonished. They thought that there was smell and smoke from an oil stove, and that it heated a room just like any other stove. I told them of my experience, and one after another they got one, and now, not one of them would give hers up for five times its cost.'"

The lady who said this had thought an oil stove was all right for quickly heating milk for a baby, or boiling a kettle of water, or to make coffee quickly in the morning, but she never dreamed of using it for difficult or heavy cooking. Now she knows.

Do you really appreciate what a New Perfection Oil Cook-Stove means to you? No more coal to carry, no more coming to the dinner table so tired that you can't eat. Just light a Perfection Stove and immediately the heat from an intense blue flame shoots up to the bottom of pot, kettle or oven. But the room isn't heated. There is no smoke, no smell, no outside heat, no drudgery in the kitchen where one of these stoves is used.

Cautionary Note: Be sure you get this stove—see that the name-plate reads "New Perfection."

New Perfection WICK BLUE FLAME Oil Cook-stove

It has a Cabinet Top with a shelf for keeping plates and food hot. The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

Standard Oil Company (Incorporated)

INDUSTRIAL DEVELOPMENT AND PROGRESS OF OUR HOME STATE

OREGON GETS HER CASH.

Work Will Start Immediately on Oregon Rivers and Harbors.

Now that the president has signed the rivers and harbors bill, engineer officers of the Oregon districts are making active preparations to carry on the work made possible by the appropriations allotted to these districts by congress. In all the appropriations made for these districts amount to \$2,373,800 for maintenance and improvements. The list of appropriations is as follows:

Improvements at Coos Bay, \$400,000; improvement of Tillamook bay and bar, \$5,000; improvement of Clatskanie river, \$5,200; improvement of Coos river, \$3,000; improvement of Siuslaw river, \$50,000; improvement of Willamette river in regard to buying present locks or building new ones, \$300,000; improvement of Willamette and Yamhill rivers, \$60,000; improvement of Columbia and lower Willamette rivers, \$175,000; improvement of Columbia river, \$1,200,000, including repairs and operation of dredge; for gauging waters of Columbia river and measuring tidal and river volume, \$1,000; improvement of Columbia, Washington, \$10,000; improvement of Columbia at Cascade, \$5,000; improvement of Columbia and tributaries above Celilo falls to the mouth of the Snake river, Oregon and Washington, \$90,000; improvement of Snake river, Oregon, Washington and Idaho, \$25,000; improvement of Cowlitz and Lewis rivers, Washington, \$34,100; and improvement of Grays river, Washington, \$500.

It is expected these amounts will carry on the government work at the places designated for the fiscal year beginning July 1.

SALMON THEORIES UPSET.

Fish Marked Six Years Ago Are Caught in Traps.

Astoria—Several of the well-established theories regarding the habits of salmon are being upset by facts which have come to light during the present season.

It has always been supposed that salmon returned to the river the fourth year after being hatched, but this season no less than 15 marked salmon, which were turned out at the Chinook hatchery six years ago, have been caught in the Bakers bay traps. Reports from other points on the river also are that five female salmon which had spawned have been caught in the traps, although it has always been supposed that the female fish perish immediately after having spawned.

These salmon were in fairly good condition, so that they could not have ascended to the upper reaches of the river and returned, and they are believed to have been salmon which had spawned, perhaps prematurely, in some of the tributaries of the Lower Columbia.

Cove Power Company Formed.

Prineville—A company of Prineville's strongest capitalists have filed articles of incorporation with the county clerk here for the Cove Power company. The purposes as set forth in the articles of incorporation are the generation of electric and water power; to buy, sell and lease real estate and personal property; to own and operate grist mills and buy and sell grain and all kinds of feed stuffs.

The main office of the corporation will be located at Prineville. The capital stock is fixed at \$50,000, and is divided into 500 shares of equal value, the majority of the stock will be taken by Prineville capital. The officers of the corporation are W. A. Booth, president; Warren Brown, secretary treasurer and D. F. Stewart and G. M. Cornett are on the board of directors with the president and secretary.

Inspect Irrigation Projects.

Salem—State Engineer Lewis will make complete examination of various projects which are being developed under the Carey act. He will be accompanied as far as Bend by Attorney General A. M. Crawford. At Bend further steps will be taken toward reviving the old Columbia Southern project. From there the state engineer will go south to examine the work of the Deschutes Land company project, which includes 30,000 acres. He will then leave to make an examination of the Paisley project of 12,000 acres.

State Gives 6,000 Acres.

Salem—The state has decided to the Federal government 6,000 acres of land in Crook county, formerly embraced in the Columbia Southern project. The land was patented to the state on the strength of certificates that the land had been irrigated.

When the government learned that the land had not been irrigated, suit to recover was threatened. To head off the impending litigation, the state has reconveyed the land to the government.

THINGS HUM IN SOUTH.

Grants Pass Man Tells of Project to Water 40,000 Acres.

Portland—"Everybody is too busy in Southern Oregon to think of what the rest of the world is doing," said H. T. Norton, of Grants Pass. "Things are humming down our way, many settlers are coming in and there will be remarkable development of that part of the state within the next few years."

"The Rogue River Irrigation & Power company has just let a contract for a project which will irrigate 30,000 acres, although 40,000 acres are contemplated in the entire scheme. The contract calls for water on the Grants Pass district, composed of about 15,000 acres, for the irrigation season of 1911, and water on the Merlin district, containing about the same acreage, for the season of 1912."

"The districts are being settled rapidly and the irrigation ditches mean a transformation of the entire country. In many places there is sufficient sub-irrigation to insure good crops and the valleys are also productive without irrigation. The new system will patch up the bare spots left by nature, making the whole country a vast field of producing soil. Many of the ranchers who are raising good crops without irrigation will take water to insure against a possible drought and to increase the productiveness of the fertile soil."

"Irrigation was not considered feasible until a local company was organized and promoted a system last year. It was a pumping proposition. The contract for the pumping and water was let to the Golden Drift Mining company and last summer the water was run down the main street of Grants Pass to show that irrigation was possible. Then high water came, one end of the mining company's dam was washed away, the stockholders of the company became involved in litigation among themselves, and no repairs were made. The local irrigation company is now part of the Rogue River Irrigation & Power company and will carry the new project through."

Preserve 90 Tons of Cherries.

Eugene—The Eugene Fruitgrowers' association has received another carload of barrels in which to store the preserved Royal Ann cherry crop. As each barrel will hold about 300 pounds of fruit, it will mean that they will handle about 180,000 pounds of cherries, or 90 tons.

New Steel Bridge.

Enterprise—The Troy steel bridge is nearly ready for use. Work will begin on the approaches this week. The bridge is 175 feet long and 16 feet wide, resting on concrete piers.

Wool—Eastern Oregon, 14@17c per pound; valley, 16@18c; mohair, choice, 32@33c.

GERMANY'S JEAN VALJEAN.

Millionaire Philanthropist Who 40 Years Ago Was a Bandit.

Herr Charles May, of Berlin, may be termed the Jean Valjean of Germany. Millionaire whose time and money were spent in doing good, author of religious books and altogether a splendid figure of Christian manhood. May was just a few days ago branded by a jury as the perpetrator of many violent crimes in southern Saxon mountains forty long years ago, where he led a band of desperate brigands. May, who is 70 years old, collapsed and was put under guard to prevent his committing suicide. The charges were made by Wilhelm Leblus, a trade union leader. May sued for libel. The jury decided that Leblus had proven the allegations in a court at Charlottenburg, a suburb of Berlin. Not only was it proven that Herr May had been a notorious bandit, but there is no doubt but what he is the author of a long series of cheap novels written many years ago in which he describes the deeds he had committed. Herr May is a splendid linguist, speaking even Chinese and Choctaw.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Not in His Judgment.

"The next thing in order," said the master of ceremonies, referring to the slip of paper in his hand, "is music." "No, sir!" savagely whispered the leader of the band. "Not music! The next thing is 'Hail Columbia!'" Taking his station, he scowled, waved his baton, and the noise of the brasses burst forth.—Chicago Tribune.

It Cures While You Walk.

Allen's Foot-Ease is a certain cure for hot, swollen, callus, and swollen, aching feet. Sold by all Druggists. Price 25c. Don't accept any substitute. Trial package, FREE. Address Allen S. Olmsted, Le Roy, N. Y.

A Fire Drill.

"What kept you so late at the factory?" "We were having a fire drill." "Isn't that something new?" "Nope; the boss was trying to drill it into the heads of the men that if they didn't improve the class of work they were turning out they would be fired."—Houston Post.

Slim Chance for Her.

A missionary who was making his way through a backwoods region came upon an old woman sitting outside a cabin. He entered upon a religious talk and finally asked her if she didn't know there was a day of judgment coming.

"Why, no," said the old lady; "I hadn't heard o' that. Won't there be more than one day?"

"No, my friend; only one day," was replied.

"Well, then," she mused, "I don't reckon I can get to go for we've only got one mule, and John always has to go everywhere first."—New York Sun.
