Trouble Ahead for Percy.

"Miriam," said her mother, "Percy Flaxham is an excellent young man, with desirable family connections, and upon the whole I have no objection to your receiving him on a familiar footing, but you must not allow him to presume upon the fact that you have accepted a present from him."

"I won't, mamma," said the proud young beauty. "If he gets chesty over it I'll give him the clammy flipper the next time he blows in here."—Chicago Tribune.

INDUSTRIAL DEVELOPMENT AND PROGRESS OF OUR HOME STATE

WILL MAKE WHEAT RECORD.

Weather Ideal for Wheat and a Bountiful Crop Will Be Harvested.

Wasco—From Wasco to the Shaniko hills, a distance of 40 miles; from this place to the John Day, about 12 miles, and about an equal distance to the Deschutes river, wheat is ripening very fast.

Sherman county intends to make a record for itself in wheat production this season and while it is not likely that all previous records will be broken, the showing of the grain fields is pleasing to all concerned.

Cool weather at a time when the moisture in the ground was not too plentiful, was the saving grace this season. For several weeks weather conditions in Sherman county have been close to the ideal, and the grain has in consequence ripened very slowly, but surely. During the critical period—when the fall wheat was put in the "dough," hot weather would have pulled down the prospects to an alarming degree.

While it is very true that the spring sown wheat is not all out of danger, with present weather conditions continued for awhile longer, nothing except a strike of harvesters could possibly stop Sherman county from giving an unusually good account of a very good all around wheat producing section.

Good farming is one of the secrets of Sherman's generally good showing, and whenever nature helps out a little, the outcome looks like magic. Sherman county wheat growers know how to farm and they are practicing what they know.

RACE COURSE TO BE CLEAR.

Government to Patrol River During Astoria Regatta.

Astoria—For the first time in the history of the Astoria regatta the course on the river will this year be officially taken notice of by the Federal government. Steps are now in progress to this end, and that they will be successful is undoubted, as proceedings are being taken through the proper channel. A survey of the proposed course was made and submitted to Collector McGregor, who approved of it, and then forwarded it to the department of commerce and labor at Washington, which has authority over such matters.

The survey was returned without approval and a suggestion was made as to a change in the survey. This has been done, and the resurvey returned, and when it is approved the department will promulgate a general order directing that all vessels of every character and description shall keep off the course during the hours of the races. The course will be patrolled by government launches, and the master of any vessel violating the order will be subjected to a fine of \$500.

Crabtree Branch Ready.

Lebanon—A work train and crew is ballasting the road just across the river on the Lebanon-Crabtree branch. It is said this train will continue the work daily until the entire road from here to Crabtree is ballasted and put in order for regular train service. Track laying has been completed, thus closing the gap between Lebanon and Crabtree, allowing work trains to pass over the road. As soon as ballasting is finished, a regular train service will be inaugurated.

Surveyors Finsh Work.

Newport—Morris Wygant has finished a location railroad survey along the coast from Siletz bay to Yaquina bay. The preliminary survey was made two years ago. Wygant would make no statement, but from remarks dropped around camp it is believed the Spalding Lumber company, of Falls City, is behind the proposed railroad. On the other hand, the United Railways company has let a 24-mile contract for a line into Tillamook, which is 25 miles above Siletz bay.

Prize Offered for Apples.

Corvallis—At a meeting of the executive committee of the Commercial club a fund of \$1,000 was voted to be used in premiums for the best exhibits by Benton county apple growers at the November meeting of the State Horticultural society in Portland. It is expected that the premiums will interest many local growers of good fruit and that the showing at the meeting of the horticulturists this year will be an exceptional one.

Woolen Mill Busy.

Bandon—Manager Bedillion of the Bandon Woolen Mills has just closed another big contract with the Detroit firm for which he has been manufacturing goods in the past. The contract is sufficiently large to keep the mill running at full blast for a year.

Build Telephone Line.

The Dalles—Thirteen tons of galvanized telephone wire arrived here to be used in constructing telephone lines on the Warm Springs reservation.

OREGON WILL GET SHARE.

Ballinger Decides State Entitled to Irrigation Money.

Washington—Secretary Ballinger after giving careful consideration to appeals made to him by Representatives Ellis and Hawley before they left for Oregon, has come to the conclusion that Oregon is entitled to share in the distribution of the \$20,000,000 irrigation fund made available by congress just before adjournment, and it now seems quite likely that extension of the Umatilla project westward with a view to irrigating 60,000 acres more, will be authorized, and that part of this fund will be allotted to begin construction.

Secretary Ballinger points out repeal of section nine of the reclamation act, which was permitted without protest from Senators Bourne and Chamberlain, relieves both the president and himself of any obligation to apportion further funds to Oregon at this time, but personally the secretary believes Oregon should be shown consideration, particularly as it is the second heaviest contributor to the reclamation fund, and has never been given a square deal by previous secretaries of the interior.

There are but two projects in Oregon to which funds can be allotted, and it is certain Klamath can receive nothing.

TO HEAR COPENHAGEN MAN.

Will Address State Dairy Association; Father of Industry.

Portland—Dairymen of the Willamette valley will be given an opportunity of hearing one of the greatest experts in dairying in the world, lecture when Professor Bernhard Boeggild, of the Royal Danish Agricultural college at Copenhagen, arrives here July 18.

Although Portland was not in the eminent authority's itinerary, through the efforts of Philip Bates, publisher of the Pacific Northwest, he has been induced to come here and address and visit with the people for three days—July 18, 19 and 20.

The professor and his wife will reach Portland Sunday, July 17, and immediately upon their arrival Mr. Bates will whisk them down the Willamette valley in an auto, where they will visit the cities of Oregon City, Corvallis, Albany, Salem, Forest Grove and McMinnville. They will be entertained by the commercial clubs of these cities and will visit many dairies on the trip.

Water System Nears Completion.

Newport—Water will be running into Newport in less than two weeks. Engineer Lee, who has installed the system, made the announcement. A sewerage system will be installed immediately after the water is in use.

PORTLAND MARKETS.

Wheat—Bluestem, 85c; club, 81c; red Russian, 78c; valley 82c.

A Budding Financier.

"I've got a boy in my employ who will be a king of finance some day," said a man who has a factory in New York. "A few weeks ago he sold a pair of homing pigeons to a man in Brooklyn. Two days afterward the pigeons appeared at his window. Another Brooklynite bought them, and again the birds came back. The boy has just made a third sale. I am wondering if I had not better get rid of him before he tries to sell me my own factory."

Short and Sharp.

Urchin—is this the office of the Bugle? Well, sir, I have come to subscribe for your paper.

Editor (with a genial smile)—Why, sonny, you don't look quite big enough to do such a thing as that.

Urchin—Sir, if a man has to be measured for his subscription at this office I shall subscribe for the Palladium, just across the street. Good day, sir.—Chicago Tribune.

Foxy.

Rita (looking at photo)—Oh, yes, he's handsome enough, but he's an awful bouncer. Stella—What did he do? Rita—Didn't I tell you? He made an awful fuss with me one season and then asked me if I thought that dad would object to him as a son-in-law. I said no, I thought not, and he went away and proposed to my sister.—Illustrated Bits.

Assisting Him.

"Hello!"
"Hello!"
"Is this the complaint department of the Daily Bread?"
"Yes."

"What's the matter with your thundering old shebang, anyhow! I've been trying for five minutes to get you!"
"I know it. I thought I'd give you something more to holler about. What's the kick this time?"—Chicago Tribune.

Correcting a Wrong Impression.

"Mrs. Winkler, what I am going to say will surprise you, I have no doubt, but I love your daughter Minerva, and"

"Mr. Spoonamore, do you think any young man ever stole a march on a watchful mamma? According to my calculations you were due to say two weeks ago to-night what you have said to me just now."

Slightly Deeper Dye.

"Ever see an Indian policeman?" asked the passenger with the bristling moustache.

"Yes," said the passenger with the skull cap. "I used to know one in Omaha."

"How did he look in uniform?"

"Much like the ordinary copper, only a little more copper colored, of course."

His Reason.

"Why do you always leave the house, James, when I begin to sing the old songs?" pouted Mrs. Howlitt.

"Fresh air," said Howlitt.—Harper's Weekly.
