PORTLAND, OREGON

### Attractive Letters.

Rodrick—Yes, he came over here to learn our language and started on the alphabet. Began picking up letters, you know.

Van Albert—And what progress has he made?

Rodrick—Oh, he soon found that the only letters he had time to pick up were the X's and V's.

### An Amendment.

"Are you ready to live on my income?" he asked softly.

She looked up into his face trustfully.

"Certainly, dearest," she answered, "if—"

"If what?"

"If you get another one for yourself."—New York Journal.

### The Ambiguous Cook.

Mrs. DeAyser—Did your cook leave on account of the extra 15 cents a week that the Razor woman offered her?

Mrs. Von Holmer—I can't tell; she said she was going to leave because she wanted the change, and I don't know whether she meant the money or the new place.

# INDUSTRIAL DEVELOPMENT AND PROGRESS OF OUR HOME STATE

## EXTEND PORTAGE ROAD.

Conditions Prescribed by Legislature Met by Enterprising Citizens.

The Dalles—The money for the purchasing of the Portage road right of way has been subscribed and the extension from Big Eddy to this city is now an assured fact. Before many weeks the actual construction work will be commenced.

For several months the contractors, who have the construction work in charge, have been getting material on the ground and at the present time all of the machinery, ties, rails, etc., are here. The only thing that has been holding the extension back has been the delay in the purchase of the right of way.

At the last session of the legislature an appropriation was made for the extension of the Portage road from Big Eddy to this city. It was through the earnest endeavor of Senator N. J. Sinnott and others representing this district that such action was taken. In getting this appropriation it was necessary for the representatives of The Dalles and vicinity to make a certain pledge to show good faith, this promise being that of right of way would be furnished by the citizens and a public dock built by the city.

Several months ago the city council voted a bond issue of \$10,000 for the building of a public dock which will be built and ready for use by the time the extension of the road is finished. There was a little delay in starting the ball rolling, but as soon as the merchants and citizens were called upon they came through and the money was raised in a very short time.

## GRAINMEN IN COMBINE.

Wheat-Growers to Manufacture and Ship Flour.

Portland—As a test of their strength in opposing interests which they consider inimical to the Farmers' Educational and Co-operative union, wealthy wheat growers of Umatilla county and the Walla Walla country are going to manufacture flour for export on an extensive scale, according to announcement made in Portland. While the plans of organization are not as yet complete, it is known that they include the building of flouring mills, warehouses, power plant, transmission lines and about 40 miles of railroad.

There is abundance of capital to finance the various enterprises in connection with the movement. \$500,000 having been already subscribed, and there is plenty of money, say the promoters, to insure the carrying out of the enterprise.

## NAVY CANDIDATES LOSE.

Oregon District "Down and Out" With Annapolis Men.

Salem—Representative Hawley has received word that both the candidates from this district, principal and alternate, failed at the examination for the United States Naval academy at Annapolis, and as the third alternate dropped out before the examinations, this district is left without appointees.

The Representative is unable to state what he will do in the nature of filling the vacancies, but it is possible he will establish a system of competitive examinations, which has been tried once previously and with much success. He says this matter will not be given consideration for some time, however.

## Through Line to Crater Lake.

Klamath Falls—L. W. Clapp, stage line operator, has established an automobile service between Klamath Falls and Crater Lake. Mr. Clapp has the contract with the Southern Pacific to handle the through passenger service from San Francisco to Crater Lake. Tickets can be purchased either at San Francisco or Portland and way points for the trip directly through by way of this great natural wonder. From San Francisco a ticket through will mean that after the arrival here passengers can remain over night and the following morning leave in an auto for the rim of Crater Lake where they will connect with another line from the other side.

## Lebanon Says Train Service Bad.

Salem—The railroad commission received a complaint from the citizens of Lebanon, Ore., of the passenger service afforded them between Lebanon and Albany on the Southern Pacific line. The complainants allege that the Southern Pacific passenger trains are seldom on time and its coaches are inadequate to comfortably carry patrons from Lebanon to Albany.

## Wood-Working Plant Established.

Redmond—An important industry recently located at Redmond is the wood working plant of L. L. Osborne. As soon as the building is completed, it is the intention to manufacture kitchen cabinets, light furniture, screen doors, sash and doors. This is the only establishment of the kind nearer than Prineville.

## BIG WATER PROJECT ON.

55,000 Acres of Rogue River Land to Be Irrigated.

Medford—Fifty-five thousand acres of the Rogue river valley will be irrigated, at an expenditure of at least \$2,000,000, within the next few years as the result of the closing of a deal whereby the Rogue River Valley Canal company, composed of a party of Spokane capitalists, headed by P. Welch, acquires ownership of the property of the Fish Lake Water company.

The consideration was not given out by either party to the transaction. Mr. Welch said that his company has had the property under option nearly a year and had spent nearly \$150,000 in examining the property, making surveys and in development work. The old company had about 60 miles of canals and ditches.

Fred N. Cummings, manager of the Rogue River Valley Canal company, said that his company would proceed at once to the construction of additional canals and laterals until there were 100 miles of canals and 400 miles of laterals. The company owns reservoir rights in the Fish and Four Mile lakes, with a storage capacity of 55,000 acre-feet of water, besides the running water in the north and south forks of Little Butte creek.

The company owns 7,000 acres of land in the valley in one body, on which it will maintain an experimental farm in charge of an expert. Though this body of land the company has dug a canal six feet wide at the bottom and a boulevard 60 feet wide paralleling it.

## OWYHEE PROJECT RUSHED.

Engineer Called to Chicago After Inquiry on Irrigation Plans.

Ontario—George H. Binkley, field engineer for the Arnold Construction company, of Chicago, has been called to the home office of the company to consult the Trobridge-Niver company relative to the plans and specifications for the Owyhee irrigation project, which covers the Kingman colony and Gem projects also. Mr. Binkley took with him the data gathered during the past year concerning this project, and upon his return the plans will be submitted to the engineer selected by the water users of the district. The plans afterwards will be submitted to the state engineer for his approval and the district will then be in shape to receive bids on the construction of the reservoirs and canals. Secretary W. L. Blodgett, of the district, at the meeting of the directors in Nyssa, was instructed to investigate the qualifications of several engineers, who are applicants for the position of local engineers for the district. The directors will meet again soon, when it is expected an appointment will be made.

## Prizes for Apples Offered.

Salem—As a premium for the best apple exhibit from Marion county at the State Horticultural society show in Portland in November, the Salem board of trade has just offered \$25. A local concern has also offered a barrel of spray for the best box of Spitzenberg apples grown in the Willamette valley.

Hogs—Top, \$9.75@10.25; fair to medium, \$8.50@9.50.

## Cleaning the Henhouse.

If you wish to rid your henhouses of lice and mites now is the time to do it.

Clean them perfectly, whitewash the sides and roosts, remove all litter from the nests and whitewash them outside and in. Take out all droppings and litter on the floor and sprinkle ashes over the floor every few days.

Fumigate the house once or twice a week with sulphur or tobacco smoke. Make a war on the insects for the next two months, and you will not be troubled much with them during summer.

## Checks for the Communion Table.

The author of "The Sabbath 'n Puritan New England" mentions a custom which prevailed in several New England churches that made it the duty of the deacons to walk up and down the aisles of the church at the close of each service and deliver to every person who in their judgment was fitted to commune a metal check, which entitled him at the next celebration of the Lord's supper to join in the sacred ordinance. On the communion Sabbath it was the deacons' duty to see that every one who presented himself at the Lord's table had this check and to collect it from the communicant before passing to him the bread and wine.

# CASTORIA

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of *Wm. D. Gifford*

## Near Its Final Stage.

Mr. Dorkins—Maria, I think I can make this dining table last a while longer by replacing a few of the top boards with new ones.

Mrs. Dorkins—Well, go ahead and patch the top of the old thing up if you think you can, but I want you to understand that it's on its last legs.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

## Suggesting a Reason.

Corkins—I don't know how I do it, but I can always tell what time of day it is without looking at a watch or clock.

McStab—To be sure. Nature always confers instinct upon creatures that lack the higher faculties.

## Domestic Fiction.

Mrs. Brown—I used to be so fond of fiction before I was married. Mrs. Smith—And don't you read much now? Mrs. Brown—No; after the tales my husband tells me about why he is late getting home merely printed fiction seems so tame and unimaginative.

Red, Weak, Watery Eyes. Relieved By Murine Eye Remedy. Try Murine For Your Eye Troubles. You Will Like Murine. It Soothes, It Cures. Write For Free Book. Murine Eye Remedy Co., Chicago.

## Protecting Seed Corn.

A method of protecting seed corn against the crows is to add a tablespoonful of chloride of lime to a peck of shelled corn mixing it well. It is a very cheap and easy way and the seed is more agreeable to handle than when coated with tar after the more common method.

## What the Wild Waves Heard.

"You're looking blue," remarked the lobster. "What's the matter?"

"I have just heard," the oyster answered, "that there are such things as vegetable oysters."

"What's the difference?" rejoined the other. "There are human lobsters, too, but I don't let that worry me a cent's worth."—Chicago Tribune.

## You Can Get Allen's Foot-Ease FREE.

Write Allen S. Olmsted, Le Roy, N. Y., for a free sample of Allen's Foot-Ease. It cures sweating, hot swollen, aching feet. It makes new or tight shoes easy. A certain cure for corns, ingrowing nails and bunions. All druggists sell it. 25c. Don't accept any substitute.

## Strawberries Grown in City.

To show that strawberries can be grown in the heart of the city, Willis A. Hendricks of East Twenty-first and Albert streets brought to the office of the Oregonian a number of boxes of Magoon and Oregon improved berries containing an average of twenty berries to the box. The berries were grown on an ordinary city lot without irrigation. Mr. Hendricks had 1,000 plants on his lot and at the first picking he picked a total of 56 boxes of the monster berries. A number of the berries were over five inches in circumference and one measured 7 1/2 inches in circumference.—Portland Oregonian.

## All to Do Over Again.

It is an open question if the old fisherman in the following story ever got the right answer to the problem that was puzzling his head. A writer in Everybody's Magazine, at least, leaves one in doubt on that score. The riddle was this: "If a herring and a half costs a penny and a half, how many herrings can you buy for a shilling?" The old fisherman had worked on it for some time.

"What did you say the mackerel and a half cost?" he asked at last.

"I didn't say mackerel; I said herring," explained the skipper.

"Oh, that's different," said the other. "I've been figuring on mackerel."
