

"The Newly Weds."

Sometimes we interpret too literally. "I want to learn to make jelly," said the newly installed housewife. "Is it hard?" "Oh, Lord, no, mum!" replied the cook, with supreme pity. "It's soft."—Judge.

Worms

"Cascarets are certainly fine. I gave a friend one when the doctor was treating him for cancer of the stomach. The next morning he passed four pieces of a tape worm. He then got a box and in three days he passed a tape-worm 45 feet long. It was Mr. Matt Freck, of Millersburg, Dauphin Co., Pa. I am quite a worker for Cascarets. I use them myself and find them beneficial for most any disease caused by impure blood."—Chas. E. Condon, Lewistown, Pa., (Midlin Co.)

Pleasant, Palatable, Potent. Taste Good. Do Good. Never Sickens, Weakens or Grips. 10c, 25c, 50c. Never sold in bulk. The genuine tablet stamped C. C. C. Guaranteed to cure or your money back.

Youthful Taste.

"We keep our own cow," explained the hostess, proudly. "So we're sure of our milk."

"Well," interrupted the small son of the guest, setting down his cup, "somebody's stung you with a sour cow."—Toledo Blade.

England's Low Birth Rate.

England's birth rate last year was the lowest on record—25.58 a thousand of population. This is nearly 1.0 below the rate for 1908, which showed a slight increase over 1907, the first for many years.

There's a Reason.

Physician—I have told you to take long walks in the open air, and you are not doing it.

Confirmed Dyspeptic—I know it, doctor, but you told me I was to take them on an empty stomach, and I never have an empty stomach.—Chicago Tribune.

The Sun's Heat.

The sun will continue to give out its present amount of heat for thirty million years.

INDUSTRIAL DEVELOPMENT AND PROGRESS OF OUR HOME STATE

STATE'S PROGRESS GREAT.

EXPECT 25,000 DELEGATES.

State Engineer Lewis Says Irrigation Work is Revelation.

Salem—After traveling 1,000 miles through Central and Southern Oregon, half of the distance by automobile and stage, State Engineer John H. Lewis is back at the state capitol and reports that development work and advancement of Carey act projects are a revelation to him.

"During the past few years the development work has been remarkable," he asserts. "At Prineville they are expecting a big rush of settlers because of the recent opening of the road land grants and prospects are bright for a branch of the Oregon Trunk up Crooked river.

"At Laidlaw the indications point to a reorganization of the Columbia Southern project and it is probable construction work will be resumed for the purpose of reclamation of 30,000 acres of valuable land.

"Irrigation development is causing signal activity at Bend. In addition to this factor, timber, railroad construction and waterpower development are all opening a great era for that already prosperous community. Lots that sold for next to nothing on the main street of the town ten years ago are now going at \$4,000. Many new houses are being erected and a great rush of settlers is expected.

"Forty miles south of Bend heavy machinery is being assembled and construction work is beginning on an irrigation project to water 30,000 acres. Development work here is in charge of the Deschutes Land company. The main line of the Oregon Trunk will go directly through this project and the Natron-Klamath line is to pass within a few hundred feet of the dam site in Crescent Lake, which supplies water for the project. La Pine is the town-site for this development work and there is now talk of moving Roseland, the old town, to La Pine so that it will be on the railroad. From La Pine already can be heard the sound of blasting on the Natron-Klamath line, where work is being carried on over the mountain. Every blast is cheerful news to the people of the Deschutes.

"At Paisley the 12,000-acre Carey act project is being delayed because of conflict in water rights.

"At Lakeview the dam and main canal of a 50,000-acre private project are nearly complete and the land under the canal sold.

"Perhaps of all prospective projects in Southern Oregon the one in Warner Lake valley I found had the more numerous interesting features. This is 40 miles east of Lakeview and \$30,000 has already been expended in surveys looking to the development of 100,000 acres of land. This valley is 80 miles long and runs from five to 15 miles in width, between rock bluffs 3,000 feet high. The land here will be developed by the state under the Carey act. The company doing the work is under \$7,000 bonds to make a complete investigation and is apparently going ahead in good faith, notwithstanding there are immense obstacles blocking the path.

"A canal of 1,000 second-foot capacity will have to be constructed for 15 miles along an almost vertical rock cliff and three miles of dikes, 40 to 50 feet in height, must be constructed across a peat bog, in addition to several storage sites, long flumes and inverted siphons.

"The tract, however, is very desirable, and lies well for irrigation, having an excellent climate, and with railroad facilities, which have been definitely promised, may prove very feasible to irrigate.

Wasco Out of Debt.

The Dalles—Wasco county is practically out of debt and has \$41,095 in its general fund with which to meet current expenses, according to the semi-annual report of the county treasurer just published. During the past six months it expended \$23,714.70 on roads and highways, which was its heaviest expense. Its next heaviest expense was its state tax, the half-yearly payment being \$12,441.18.

Booth-Kelly Lands Burned.

Eugene—The Booth-Kelly Lumber company's logged-off land above Wendling is being swept by fire, which has been burning now several days. So far the company has been able to keep the fire out of the standing timber, but the mill was forced to close down on account of a shortage of logs.

New Block at Klamath Falls.

Klamath Falls—The two story building which L. F. Willis is erect on the lot where the Masonic hall now stands will be 50x106 feet, and will have two store rooms on the main floor and office rooms on the second floor. The entire front of the building will be of plate glass.

Weston Harvest Starts.

Weston—Harvesting is starting in here. A few outfits have already begun work on the lighter lands. Crops around the immediate vicinity of Weston will be average, from all indications, and of good quality; much better than last year.

Portland Plans to Entertain National Woolgrowers' Convention.

Portland—That Portland will reap fully \$2,000,000 as a result of the National Wool Growers' convention and the National Sheep show January 4, 5, 6 and 7, 1911, is the belief of persons prominently identified with commercial activity in the city.

The National Wool Growers' Convention and Sheep Show, the first ever held in Oregon, is expected to bring into Portland fully 25,000 delegates and persons interested in the sheep and wool business.

Members of the Portland Commercial club and Oregon Wool Growers' association met with George S. Walker, secretary of the National Wool Growers' association, and formulated plans for the largest convention and show ever held in the history of the sheep or wool industry in the United States.

A number of innovations are to be introduced at the Portland show. Among these will be an exhibition of collie and shepherd dogs, of which the Northwest has many breeders and fanciers. This exhibition will be for both exhibition and "working" animals. The latter will be "worked" as on a sheep range for the edification of the visitors.

Arrangements are being made by C. B. Minton, secretary of the show, for a monster exhibition of Angora goats simultaneously with the sheep show. Always heretofore at the annual show this feature has been neglected, but at the January show it is planned to make this a stellar attraction. "The brand of mohair grown in Oregon exceeds that of any part of the United States," said Mr. Minton, "and as the industry is much followed in Oregon, we hope to have fully 1,000 thoroughbred Angora goats at the exhibition."

Not only will awards be given to prize sheep, but the fat stock and mutton will have a special department with cash awards. This is also an innovation.

Negotiations have been opened to obtain the armory for the sheep show and the convention sessions.

FRUIT IN JEOPARDY.

Decision in Peacock Mills Case May Stop Water.

Walla Walla—Attorney C. M. Rader of Walla Walla, discussing the decision of Judge Bean at Pendleton, in the famous Peacock Mills water case, said that several hundred acres of land now irrigated in the Milton-Freewater section, will be deprived of water unless the decision is overruled by the Supreme court of Oregon. The case has been in the courts for five years, and involves a water right arrangement in which priority in water right acquisition enables a holder to deprive a more recent securer of a water right of his water in times of drouth.

PORTLAND MARKETS.

Wheat—Bluestem, 88@90c; club, 83@84c; red Russian, 81c; valley, 86c. Barley—Feed and brewing, \$20@22 per ton.

The Analysts.
"Did you have the soil of your backyard analyzed by the agricultural department?"

"Yes. They said it consisted largely of glass, tin and putty, with traces of builder's lime, and suggested that it might do to raise a mortgage on."—Louisville Courier-Journal.

ATCHISON GLOBE SIGHTS.

The trouble with luck is it is mostly of the wrong kind.

Some homes always look as if the family has just moved in.

About the only vacation some people get is in interruptions in their work.

A woman is immensely flattered if her husband tells her she is "broad minded."

As soon as we get rid of one difficulty, we usually find another waiting to take its place.

The only people who really have a good time are those who enjoy being imposed upon.

Occasionally you meet a man who dislikes to attract attention. But such men are extremely rare.

There are a good many devils in the world, according to the man who always wants to give the devil his due.

The older people get, the less regard they have for looks in their "nights," and the more for comfort.

Women use the same expressions of sorrow in telling of a disappointment in a dressmaker as of a disappointment in love.

A man was trying to speak of a pacifier to-day, and referred to him as "peaceifier." Why isn't "peaceifier" a good word?

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Still Cheaper.

"Isn't it cheaper to move than to pay rent?" I inquired of the young married man.

"I suppose it is," he replied with a settled air, "but my plan is cheaper than either; I live with my father-in-law."

Hint at the Reason.

"The patient is much better today, nurse."

"Yes, doctor. You remember you didn't call yesterday?"

Not Particularly Impressed.

Mr. Upsome—You had a good time seeing the Riviera while you were abroad, I presume.

Mr. Struckett-Ritch—Er—yes, but one performance was enough for me. I've seen it played lots better right here in Cincinnati.—Chicago Tribune.

Same Old Kind.

Ruggles—Have you a fireless cooker in your kitchen?

Raggles—Yes, but it's fireless because I can't afford to buy fuel for it any more.

THE KEYSTONE TO HEALTH IS HOSTETTER'S STOMACH BITTERS

The process of digestion and assimilation depends entirely upon the condition of the stomach. If yours is weak take a short course of the Bitters. It prevents Indigestion, Dyspepsia, Cramps and Diarrhoea.
