A sluggish liver means a coated tongue, a bad breath, and constipated bowels. The question is, "What is the best thing to do under such circumstances?" Ask your doctor if this is not a good answer: "Take laxative doses of Ayer's Pills."

GREAT STRIKE ENDED.
 Seventy Thousand Cloakmakers Will Return to Work.
 New York, Sept. 2.—The cloakmakers' strike, one of the greatest industrial disturbances in the history of American labor, was settled tonight. Seventy thousand garment-workers, who have been idle for nine months, will return to work.

The industrial loss to employers and employes has run high into the millions. In loss of wages alone the total has been estimated at more than \$10,000,000, while the loss to manufacturers, jobbers and retailers the country over has been computed at ten times that amount.

In spite of the stupendous readjustment involved, the strike has been in the main notable for peaceableness. There were numerous cases of petty disorders and a petition of the manufacturers brought forth from Justice Goff, of the State Supreme Court, an injunction, in which he ruled that any strike called to demand the closed shop was in restraint of trade.

Julius Henry Cohen, counsel for the manufacturers' association, describes the agreement signed by him and representatives of the strikers in this sentence: "No principle has been surrendered by the manufacturers, yet the union may truly claim they have won a great victory for their people. The manufacturers believe in the union and in the principle that all who desire its benefits should share its burdens."

One essential of this victory and one important not only to the strikers, but to the Nation at large, is the abolition of all contract work at home. Hereafter garments made in New York will be manufactured under sanitary conditions. There will be no more sweatshops.

The rock on which all previous efforts at mutual conciliation have split has now been avoided by the adoption of the "preferential union shop" idea, for which Richard D. Brandeis, of Boston, formerly counsel for Glavis, in the Pinchot-Ballinger hearing, is given full credit.

In the articles of agreement the idea is thus described: "Each member of the Manufacturers' Association is to maintain union shops, union shops being understood to refer to a shop where union standards as to working conditions, hours of labor and rates of wages prevail, and where, in hiring help, union men are preferred, it being understood that since there are differences of degree of skill employers shall have the freedom of selection as between one union man and another, and shall not be confined to any list nor bound to follow any prescribed order."

The articles provide for these more important points: "First—Electric power free; second, no work at home; third, discipline of any manufacturer found guilty of discriminating among his employees; fourth, six days' work a week, and a cash weekly pay day; fifth, all subcontracting within shops abolished; sixth, nine hours' work a day, five days a week and five hours the sixth day; seventh, the subject of piece-work to be agreed upon by a committee of employees and their employer; eighth, double pay for overtime."

Mr. Cohen concludes his statement with the following declaration, remarkable for one in his position:

"Trade unions are not only necessary, but must be guided and strengthened. I have not been fighting your unions; I have been fighting for what I believed were the rights guaranteed by the laws of the country to my clients."

FILIPINOS OPPOSE TAXES.
 Governor-General of Islands Is Disliked by People.

Chicago—High taxes are as unpopular with citizens of the Philippine Islands as they are in Chicago.

This is the opinion of Governor Leonard Osorio Reyes, special commissioner of the Philippine government, in Chicago on his way home after a year's tour of investigation of harbor conditions throughout the world. To this circumstance he attributes much of the unpopularity of Governor-General W. C. Forbes, of the Islands.

"Our new Governor-General," said Governor Reyes, "does not stand nearly as high in the opinion of the people as his predecessor. He is spending too much money and resulting high taxes levied on the people are breeding pronounced discontent. Then, too, his recent action with regard to the exclusion of Chinese immigrants has caused much unfavorable comment. That is undoubtedly the reason for Secretary Dickinson's present visit to the Islands."

One Spurns Hobbie Skirt.

New York—The returning flux of travelers has brought back one American woman who has no use for the hobbie skirt. Mrs. Cyrus H. McCormick, Jr., of Chicago, wife of the agricultural machinery manufacturer, who landed here today from the Lusitania, said she hoped the hobbie skirt would meet an early death. "It is a foreign invention," she continued, "yet it is popular only among Americans. I saw more hobbie skirts aboard the steamer than I did in all the time I was on the continent. I don't like them, and I won't wear them."
