

Lived in One House 94 Years.
In the village of Stathé (Somerset) on the banks of the River Parrett, resides William Broome, who has lived the whole of his life—ninety-four years—in the same cottage. The house is his own property. Broome has always enjoyed good health, is still very active and has never tasted medicine. He is a great-grandfather, grandfather and father, but only six of his descendants are living.—London Evening Standard.

Peculiar Church Ornament.
Lambeth "Old" church has numerous historic monuments, and in one of the windows is the full length figure of a peddler with his pack, staff and dog. This is supposed to represent the unknown person who presented "Peddler's Acre" to the parish upon condition that his portrait and that of his beloved canine companion should be preserved in the church and that his dog should be buried in consecrated ground.—Pall Mall Gazette.

Novel Tool Chest.
For use in manual training schools a Wisconsin man has patented a tool chest which may be converted into a work bench by clamping it to the top of two desks.

ASSIST YOUR WEAK STOMACH

Oftentimes the stomach needs some assistance in its great work of digestion and assimilation and an occasional dose of Hostetter's Stomach Bitters will give that assistance better than anything else you might take. Its merit has been proven thousands of times in cases of Poor Appetite, Headache, Indigestion, Dyspepsia, Costiveness and Malarial Disorders. Be persuaded to try a bottle today. Refuse substitutes.

INDUSTRIAL DEVELOPMENT AND PROGRESS OF OUR HOME STATE

NEW O. A. C. POULTRY CONTEST

Joins Eugene Y. M. C. A. in Organizing Work for Children.

Corvallis—The poultry department of the Oregon Agricultural college, under Prof. James Dryden, is organizing a poultry raising contest for the boys and girls of Eugene, in co-operation with the Young Men's Christian association here. Some 50 entries have been made. The college offers \$200 in cash prizes.

At the college ten acres of land are given over entirely to the poultry husbandry department, which has now about 2,000 chickens. There are 20 colony brooder coops and 14 colony laying houses, beside the incubator house, containing 16 incubators of six different makes, and the brooder house. The work of the department is largely that of proving the laying qualities of the principal varieties, including Plymouth Rocks, Leghorns, and crosses of these two breeds.

In a recent letter from St. Petersburg, Russia, Prof. Dryden was assured by one of the government lecturers on poultry raising there that the O. A. C. poultry bulletins have been of great value in her work, teaching her, she said, "just what to say, and how to say, many things in a few words." The bulletins are published for general distribution in the state, and may be had upon request.

ROAD COSTS \$100,000 PER MILE

O. R. & N. Cutoff From Pendleton to Yoakum Nearing Completion.

Pendleton—One of the most expensive bits of road building the O. R. & N. Co. has ever undertaken is now in progress between this city and Yoakum and will be completed within the next two or three months. The work covers but 12 1/2 miles of construction but will cost approximately \$1,200,000.

The improvements in progress involve a complete change of the main line of the O. R. & N. Co. between Pendleton and Yoakum; none of the old line will be used. The work shortens the present line 1.7 miles; eliminates 1361 degrees of curvature; reduces the maximum degree of curves from 10 degrees to 4 degrees, and reduces the grade from eight-tenths of 1 per cent, uncompensated, to six-tenths of 1 per cent, compensated.

On the new line there will be one 500-foot tunnel, cutting out the horseshoe bend; a high fill and a steel bridge of two 150-foot spans with concrete piers and abutments, through the reservoir of the Furnish-Coe Irrigation company.

SALMON RUN LIGHT.

Catch of Fall Fish on Columbia River is Very Poor.

Astoria—Reports from all the streams, both along the Oregon and Washington coasts, are to the effect that good runs of fish are coming in and the packing plants are doing exceptionally well. The gasoline schooner Gerald C, which arrived Saturday from Nestucca, brought 871 cases and ten tierces of salmon for Elmore & Co. The catch of fall salmon on the Columbia river is very light at the present time, and some of the gillnetters who have been fishing with large mesh nets have taken them out of the water. Now that the weather conditions are changing, however, a good run of silversides is looked for.

Salt Salmon Prices Rise.

Astoria—Judging from the present market conditions the Alaska salmon packers who have not yet sold their packs of salt salmon will make unusually large profits this season. Last year Alaska salt salmon was selling for \$6 a barrel, but it is now quoted at \$9, with a strong demand and the indications are that the price will advance to \$10. It is understood that the Alaska Fishermen's Packing company, of this city, has fully 3,000 barrels of this salmon, which it has not yet disposed of.

German Families Coming.

Medford—H. A. Vogel has purchased the C. W. McClendon farm in Sams valley, 20 miles from Medford, for \$50,000. The farm contains 604 acres of land. Mr. Vogel intends to subdivide the property and improve each division to suit the tastes of German families from Iowa, his home state, who are planning to move to Oregon in search of a milder climate.

Train Service Alleged Poor.

Salem—Complaint has been filed by the Upper Hood River Valley Progressive association with the State Railroad commission alleging that service on the Mount Hood Hood railway is inadequate and that on some occasions a distance of 23 miles between Hood River and Parkdale is made in six hours.

PENDELTON PLANS "ROUND UP"

Commercial Club to Send Excursion to Wild West Show.

Two sleepers carrying Portland railroad men will go out on the fast mail on the evening of September 30, bound for Pendleton, where the railroad representatives will witness the final day's festivities in the Pendleton "roundup."

The "roundup" is advertised by Pendleton to be "wild and woolly, fast and furious." Among the frontier sports and pastimes to be shown will be broncho busting, steer roping, relay and pony express races, wild horse races, packing contests, horseback tugs of war, steer riding, horseback pistol shooting, fancy riding and roping.

HOP CROP LARGE AND GOOD.

Scarcety of Labor May Prevent Some Being Harvested.

Eugene—The hop crop about Eugene this year is large and of fine quality, but the help is so scarce that it is doubtful if some of the growers will be able to harvest their crop. Hop picking is now in full blast in the most important yards, and on account of the dry weather the hops have developed to a large size with very few leaves, so that picking is easy. In the Robert Hayes yard 150 more pickers could be used to advantage, and unless some unforeseen circumstance relieves the situation some of the hops in this yard cannot be harvested.

Coos County May Get Sawmill.

Marshfield—It is reported that the Brookings Lumber & Box company, of California, may build a sawmill in Curry county either at Clatco or at Arch Rock. The company owns 25,000 acres of timber in Curry county.

Pelts—Dry, 10 1/2c; salted, butchers' take-off, 40@75c; spring lambs, 25@45c.

Vain Attempt to Show Off.

A youthful masculine, scarce three years old, was listening to a story by his mother, but despite his devotion to her stories, kept making unaccountable excursions to a clear space on the park lawn and solemnly airing his sole physical accomplishment of a neat somersault. The mother wondered, but asked no questions. Presently, however, the mystery was explained. Another boy, seated near the open space with his parents, rose and walked away. The little acrobat sighed sadly. "I guess he never even saw me," he remarked.

Where Addison Was Married.
St. Edmund's, Lombard street, London, the rectory of which is vacated by the death of omniscient Canon Benham, had previously possessed literary associations. The register records the marriage of Joseph Addison to the dowager countess of Warwick on August 9, 1716. Dr. Johnson grimly remarks that this match resembled the marriages in which a sultan gives his daughter a man to be her slave; and Addison used to escape from the uncomfortable splendor of Holland house to a coffee house at Kensington.

Mothers will find Mrs. Winslow's Soothing Syrup best remedy to use for their children during the teething period.

Rubber Planted on Waste Land.
The wide reaches of waste lands on the island of Singapore, which have been of no use since the culture of gambler, coffee, and pepper was given up, are now the scenes of great activity. Rubber plants are being set out over these wastes and seem to do well. In the suburbs of Singapore city a considerable area of swamp land has been drained and converted into an nursery for Para rubber plants, which are sold at a good profit to the planters.

Strong Winds and Sand Storms
cause granulation of the eyelids. PETTIT'S EYE SALVE soothes and quickly relieves, 25c. All druggists or Howard Bros., Buffalo, N. Y.

French Woman's Long Sleep.
A curious case is that of a woman in the hospital at Alencon, France, who has been asleep for 30 days, and, unlike most patients who fall into a lethargy, this patient has a perfectly normal temperature. Her teeth are rigidly set, and she has to be fed through a tube, which was introduced with great difficulty, and has been left between her teeth.

How He Knew.
"Love is blind," said the pessimistic looking man, quoting this worn-out chestnutty axiom with as much fervor as its originator could have done. "How do you know?" questioned the severe-looking woman with the high cheek bones. "I'm married," said he.

MUNYON'S PAW-PAW LIVER PILLS
