## LOS ANGELES TIMES BLOWN UP

Building and Plant Destroyed in Fire Which Follows

Five Known Dead and at Least 20 Missing- Property Loss About \$500,000.

Los Angeles, Cal.-The building occupied by the Los Angeles Times was set on fire by an explosion just before 1 o'clock Saturday morning. There probably will be found a heavy death list from the fire and explosion.

The interior of the building was enveloped in flames immediately following the explosion, which it is thought took place in the basement, and it is reported that a number of men were seen to fall dead through the windows. Esti-mates now place the number of dead as high as 50.

The fire was preceded by an explosion and immediately the building was enveloped in flames. This explosion occurred on the second floor of an addition of the old building. The old part is of three floors.

Within a few seconds from the time of the explosion the entire building was firey furnace. Crowds that gathered early say they saw many men fall back from the windows into the flames. Others leaped and were injured.

A later account says the Times office was dynamited, and claims it was done by enemies of the paper, presumably members of labor unions, whom the Times has been fighting relentlessly for a number of years.

The entire building and newspaper plant are destroyed, with a loss of \$500,000.

Most of the department editors are believed to have escaped. Thirty men were at work on the linotypes and 50 in the "ad" room. It is not known how many of these got out.

Flames followed the explosion so quickly that many of the printers are believed to have perished. Some were seen to fall backward from the windows into the fire. Many others who leaped to the ground were injured.

HUMAN HERDBOOK NEEDED.

Albert P. Hall Suggests Registration of Entire Race.

Washington - Bertillon measurements and photographs of every citizen for public record were proposed at the American Prison Association congress by Albert P. Hall, of Minneapolis, in submitting the report of the committee on the criminal law reform.

"The United States government ought to make its chief concern to discover, develop and realize itself by gathering and recording full biographic and civic data of each of its component units, the life of every man," said Mr. "We have developed the registration and identity of domestic animals. Why omit the record of human life, the supreme product of creation? The task is not impossible, its benefits would be incalculable and far reaching.

"Such a registration should be National in scope and authority, embracing a continuous enumeration and consecutive numbering of the whole citienship, jucluding a duplicate card certificate system identifying its bearer by photograph or finger prints."

Carshops Are Destroyed.

Tucson, Ariz.-The Southern Pacific shops here were destroyed by fire Saturday night. The loss is estimated at \$350,000. The fire was the second one within an hour and the cause of neither is known. Ten locomotives, eighteen oil tenders and four ballast cars were destroyed. Immediately across the yards were the tanks holding 200,000 barrels of fuel oil, which were barely saved. Their destruction would have doomed the entire city. The destruction of the shops takes from Tucson her chief industry.

Chinese Press Organizes.

Victoria, B. C .- Mail advices from China state that a Chinese press association has been formed with headquarters at Shanghai and arrangements are being made to send correspondents to Washington, London, St. Petersburg, Thibet, Japan and to all prominent Chinese centers. No foreigners are to be included among the correspondents.

Men Strike for \$20 Per Month. Warsaw-A strike of the electric streetcar employes has been declared. It was organized by the Socialist party. The men demanded a minimum wage of \$20 monthly and the repeal of a system of fines which they declare to be in force. There were no distur-bances, but the police arrested the leaders of the movement.

Wireless Lights Lamps.

Copenhagen - Waldemar Puzenim, the Danish inventor, has succeeded in lighting incandescent lamps by the wireless transmission of an electric current.

Great calamities do not embitter ex-Istence. It is the petty vexations, the small jealousies, the little disappointments, that make the heart heavy and the temper sour. Don't let them. Anger is pure waste of vitality. It helps nobody and hinders everybody. No woman does her best except when she is cheerful. A light heart makes busy hands and keeps the mind free and alert. No misfortune is so great as one that sours the temper.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

The Real Thing.

Fred, aged three, had been a naughty boy, and his mother had punished him. He felt very much hurt and complained to his auntie about his mamma's spanking him. Auntre said: "It is not you that mamma spanks, but a little devil inside of you who makes you do naughty things." After sitting very still for five minutes he said: "It beats all how it hurts me when that devil gets spanked."-The Delineator.

Physician's First Thought.

A physician was driving along the street when his horse took fright and ran away. He was thrown violently to the sidewalk, and knocked senseloss. Presently he recovered a little from his unconsciousness, and, noticing the crowd which had gathered about him, remarked: "What's the matter, gentleman? Anybody hurt? I'm Dector B- Can I be of any Bervice?"

Pessibly Greatest of All Tasks. Louisa M. Alcott once wrote: "To rear ten virtuous children, put ten useful men and women into the world and give them health and courage to work out their own salvation is a better job done for the Lord than winning a battle or ruling a state."

One Thing That Will Live Forever, PETTIT'S EYE SALVE, first box sold in 1807, over 100 years ago, sales in-crease yearly. All druggists or How-ard Bros., Buffalo, N. Y.

Cradles Unfashionable. Cradles are going out; children are not wearing them any more. People tell us that rocking is unhygienic; babies, according to modern idea, should go to sleep naturally in a stationary germ-proof bed, with antiseptic pillows and sanitized rattle. Sentiment may save the cradle for a little while, but sooner or later it will go to the dusty attic along with the hair-cloth Maybe the infant of to-morrow will bear up somehow under these accumulated misfortunes, will struggle along somehow to maturity, but what about the artists, the poets, the song writers? What a world of sentiment and melody has been woven around the theme of the mother and the gently rocking craffle! What kind of song will the poor poet of the future be able to make about an enameled iron crib with brass trimmings! -Success Magazine.

Always Worth Waiting For.

If success seems abominably slow in being attained, it is worth while remembering that the quickest and surest way to render it absolutely impossible to give up trying for it, or to tay for it like some people act when they find themselves in deep watertheow their arms and feet all about in desperation.

Pleasant News for Author.

to get a copy of his own latest book. He had a friend with him. "Is 'Fate and Fussing in?" he inquired. "Yes, sir," answered the librarian, promptly. "But how do you know without looking?" "It's never been out yet!"-Cleveland Leader.
