### Certainly Annoying.

The Circle Railroad in London describes a circle whose diameter is about 10 miles. In the car was an old and very obese lady, who expressed the utmost solicitude lest she be carried past her station. A passenger assured her that her station was half an hour away, and that he would tell her when they reached it.

"Thank you very much, sir," said the old lady, "but whenever I get out, beln' as 'ow I'm so 'eavy, I back out; an' I ain't more than 'arf way out afore along comes a guard, an' 'e says, 'Look lively there, mum,' 'ee' 'ee, 'look lively, an' 'e pushes me back. In again, an' I've been round the circle three times this morning!"

### New York's Night Workers.

It is generally supposed that the night workers are few in number, but careful canvass shows that the total number of persons who work after sundown in New York reaches the figure of 52,000. This is equal to the population of each of such cities as Springfield, Mass., Hoboken, N. J., Savannah, Ga., Utica, N. Y., and Elizabeth, N. J.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

### A Doubtful Member.

In Miss Wood's kindergarten class there were eight pupils, four girls and four boys. One of the boys, however had not yet reached the estate of klits not to mention trousers. Accordingly when little Susan Phelps was asked by a visitor to tell how many boys and how many girls there were, her confused reasoning went as follows:

"There's eight, one, two, three, four, five, six, seven, eight, Miss Elliott," she replied. "And if he's a girl"—she pointed at one who wore dresses in stead of manly garb—"why, there's five girls, and one, two, three boys. But if she's a boy, there's one, two, three, four girls, and one, two—four boys. She's really a boy, you know Miss Elliott," she confided, in conclusion.—Youth's Companion.

### Proper Fumigation.

To fumigate a room after sickness, paste strips of newspapers over cracks of windows and doors. Remove all living things. Loosen the bedding and carpets. Burn two or three formaldehyde candles (obtained at drug stores) according to directions on the box. Leave room closed six or eight hours. Open and air.

### Three Hardest Words.

A learned man has said that the three hardest words to pronounce in the English language are "I was mistaken." When Frederick the Great wrote to the senate, "I have just lost a battle, and it's entirely my own fault," Goldsmith says, "his confession showed more greatness than all his victories."

## INDUSTRIAL DEVELOPMENT AND PROGRESS OF OUR HOME STATE

### BASS PUT IN KLAMATH.

Lake Stocked From River Sloughs Near Portland.

Under the supervision of Robert O. Stevenson, state game warden, lake Klamath has been stocked with 10,000 bass fry. The fish were taken from the Willamette and Columbia sloughs near Portland to lake Klamath by J. L. Green, chief deputy game warden, and C. T. Evans, a special deputy warden.

The bass were liberated in the lake after being taken from Portland on board the Southern Pacific train. The fish were transported in huge cans in the express car.

Considering the fact that the fish were taken in the express car the loss was small. Fewer than 1,000 were lost in the transfer. The usual method of transportation is a refrigerating car. The temperature of the water should be about 56 degrees. Hundreds of pounds of ice were used in keeping the temperature down. Several stops were made for fresh water. A report was abroad that the state fish hatchery had stocked Lake Klamath, but this was erroneous. The work was done by Game Warden Stevenson and his assistants. If an appropriation is made for stocking the streams and lakes of the state, Game Warden Stevenson says that he will make them fairly teem with the gamey fish.

"We can stock every lake and stream in the state with bass, ring perch, croppies and sunfish at practically no expense," said Chief Deputy Warden Green. "These fish we shall take from the sloughs in the vicinity of Portland. Already we have taken more than 100,000 from the ponds adjacent to Columbia slough, which are rapidly drying up."

### APPLE SHOW TO BE LARGE.

State Horticultural Society Receives Many Inquiries.

Portland—That the annual apple show to be given here under the auspices of the Oregon State Horticultural society November 30 and December 1 and 2 will be the largest affair of the kind ever held in the state, is the belief of Frank W. Power, secretary of the society. Mr. Power is in receipt daily of inquiries from fruitgrowers all over the state for complete details and premium lists.

The special prize of \$250 for the largest and best exhibit, which has been made open to fruitgrowers of any district in the Northwest, is creating much interest and Mr. Powers believes that a large list of entries for this prize will be received.

The show is receiving support of the Portland Commercial club and that organization has voted \$100 towards the fund to be raised for the sweepstakes prize of \$250.

Mr. Power announced that the railroads have agreed to grant special rates for the show. With their assistance it is believed that the attendance this year will be unusually good.

### '57 FOREST FIRE RECALLED.

Forest Service to Replant Acreage Burned 53 Years Ago.

With the coming of the rainy season in Oregon, the forest service has planned the seeding of between 5,000 and 6,000 acres of burned-over lands at a cost of approximately \$20,000, 700 acres being situated at the Bull Run watershed, as an auxiliary to the Portland water supply.

The largest amount of planting is to be done in the Mt. Hebo district, south of Tillamook, and adjacent to the dairying district. The district was burned over in 1857 and has never become reforested. It is now a mat of ferns and underbrush. On most of the area Eastern hardwoods will be planted, hickory, white oak and chestnut being the favorites. Most of these species are now being grown in the front yards of the ranchers in that section, which gives the Federal officers encouragement in the belief that they will thrive. The ferns and underbrush will be cleared away with mattocks so that seed may be given a chance to grow.

### Hood Fruit Fair Nov. 23-26.

Hood River—The board of directors of the Hood River Fruit Fair association have fixed the date for holding the annual fruit fair from November 23 to 26. The fair will continue for four days. This is one day longer than it has been held in previous years. The late date at which it will be held this year will enable the growers to make a much finer display than in former years. The fair building will not be finished for this year's display and the use of several of the largest buildings in the city is at the disposal of the fair committee.

### Comics Pears Sell High.

Medford—A carload of Comice pears from the Hillcrest orchard has been sold for \$6.70 a box. This is the banner price received for Rogue River valley pears this season.

### SAYS OREGON BEST STATE.

Railroad Man Here on Visit, Sorry He Can't Locate.

Portland—James H. Carside, one of the best known railroad men in the middle states and for nearly a quarter of a century connected with the A. T. & S. F. Ry. Co., and the C. R. I. & P. Ry., at Atchison, Kan., is in Portland for a few days visiting.

This is Mr. Carside's first trip west of the Rocky Mountains. Oregon looks good to him, and he says when he gets back to dear old Kansas he will have to boost for Oregon, whether he wants to or not, for he believes in telling the truth, the whole truth and nothing but the truth.

"Oregon is the best state in the Union," Mr. Carside exclaimed enthusiastically. "It's a dandy. And I have seen all the states of the country except those of the Pacific Northwest. On the way out I had a good opportunity to draw comparisons, and let me tell you that Oregon is the best of 'em all. I know you have a good many people from Kansas out here, and I don't blame them a bit for remaining. I would like to stay here myself. You've got the land, the resources, and above all the climate. I never had an idea what wealth had been bestowed by nature out here. I have read a good deal about it and heard it talked of, but could not imagine that it was the truth, but from what I now see only half was told."

### New Sawmill to Start.

Portland—A new sawmill, with a capacity of 30,000 feet per day, is ready for operation near Bull Run. It is owned by the Mount Hood Railway company and will be sawing railroad ties to capacity in a few days. William Willis, of Sellwood, will take charge of the mill.

### FRIARS BATTLE WITH REBELS

When Troops Storm Monastery They Find Occupants Gone.

Lisbon—Following their policy of extreme vigilance, authorities of the provisional government sent a force to search the monastery at Grace and arrest the friars. On arriving they found the doors barricaded. The soldiers and members of the populace fired several volleys into the building, whereupon the friars returned the attack, their bullets striking the roadway and adjacent buildings. The attackers then withdrew for consultation.

Shortly they returned to the attack, assailing the heavy doors of the convent with battering rams. When the doors yielded, the soldiers and the people rushed in and searched every corner of the edifice, but not a friar was to be found. It is surmised they made their escape by underground passages.

On account of reports that some troops in the provinces have not yet declared their adherence to the republic, the provisional government has posted 39 heavy guns and 10 Maxims in trenches on the heights of the city, and are ready to check any attempted invasion of Lisbon. Up to the present, however, the government has received no advices of risings in favor of the monarch.

The most interesting man in Portugal is the new president, Theophile Braga, who may be said without exaggeration to be the father, not only of this revolution, but of that in Brazil, having, by his standing as a professor of his philosophy, paved the way for both movements.

### RELIEF FUND GROWS.

\$30,000 Already Donated for Times Explosion Victims.

Los Angeles—Funds for the relief of families left dependent by the Times explosion may soon equal the amounts appropriated for the capture and conviction of the conspirators. Banks have joined with the newspapers in collecting funds, and it is announced that the total so far collected is more than \$30,000.

This will be divided among the families of 21 Times employees. It is probable that when the subscription lists are closed, there will be more than \$2,000 available for each family.

Only 17 bodies of the men who lost their lives in the explosion and fire have been recovered. It is believed that either the force of the explosion or the intense heat of the flames which instantly formed, disintegrated the bodies of those still missing, and that the cinder fragments were hauled away with the rest of the debris.

Only 18 of the 23 supposed to have been killed have been accounted for. A general funeral for the victims will be held. General Otis has arranged for the interment in a plot in Hollywood cemetery, which will be marked by a shaft to be erected to their memory.

A great throng is expected to attend the funeral, and though the city is quiet, with no undercurrent of feeling apparent, the auditorium where the services are to be held, will be heavily guarded.

### GROWERS HOLDING APPLES.

Buyers Threaten to Go to Middle West for Fruit in Barrels.

Walla Walla, Wash.—Less than 25 per cent of the apple crop of the Northwest has been sold, according to estimates of local commission men. Orchardists are holding their fruit at present about 15 to 25 cents a box higher than the buyers are willing to pay, and as a result little trading is being done.

If this state of affairs continues, say buyers from the East, they will be forced to buy the crops of the Middle West, now ready in barrels in Colorado and East to the Ohio river. They expect to see Walla Walla valley apples placed on the market in large quantities, however, within the next few days.

Apples here are ready this year fully ten days ahead of the usual schedule. Weather conditions have been such that the fruit has ripened early and the fruitgrowers have been active in boxing the fruit as soon as it was ready.

### Aviator Falls To Death.

St. Petersburg—Captain Macievich, the Russian military aviator, was killed in a fall from a Voisin biplane. The accident occurred during an altitude competition, which was won by Captain Macievich, who reached a height of 3,933 feet. Macievich had risen to that height, when he decided to descend. At a height of 1,640 feet his machine upset and the aviator was thrown out. He came down like a plummet, reaching the ground before the biplane. Every bone in his body was broken except one arm.

### Cotton Prices Advance.

New York—There was an active demand in the cotton market this week, with prices making a new high record for the season on the strong showing of the English market following the settlement of the Lancashire labor troubles and reports that many Southern planters were holding cotton for 15 cents.

## PILES

"I have suffered with piles for thirty-six years. One year ago last April I began taking Cascarets for constipation. In the course of a week I noticed the piles began to disappear and at the end of six weeks they did not trouble me at all. Cascarets have done wonders for me. I am entirely cured and feel like a new man." George Kryder, Napoleon, O.

Pleasant, Palatable, Potent, Taste Good, Do Good, Never Sicken, Weaken or Grip, 10c, 25c, 50c. Never sold in bulk. The genuine tablet stamped C. C. C. Guaranteed to cure or your money back.

### A Byron Statue.

Many years ago some admirers of Lord Byron raised a subscription for a monument to the poet to be placed in Westminster Abbey. Chantrey was requested to execute it, but on account of the smallness of the sum subscribed he declined, and Thorwaldsen was then applied to and cheerfully undertook the work.

In about 1838 the finished statue arrived at the customs house in London, but to the astonishment of the subscribers the dean of Westminster, Dr. Ireland, declined to give permission to have it set up in the abbey, and owing to this difficulty, which proved insurmountable, for Dr. Ireland's successor was of the same opinion, it remained for upward of twelve years in the customs house, when (1846) it was removed to the library of Trinity College, Cambridge.

The poet is represented in the statue of the size of life, seated on a ruin, with his left foot resting on the fragment of a column. In his right hand he holds a style up to his mouth, in his left a book, inscribed "Childs Harold." He is dressed in a frock coat and cloak. Beside him on the left is a skull, above which is the Athenian owl. The likeness is, of course, posthumous. Thorwaldsen was born November 19, 1770, and died on March 24, 1844.

### The Flash of Genius.

A man should learn to detect and watch that gleam of light which flashes across his mind from within more than the luster of the firmament of stars and sages. Yet he dismisses without notice his thought, because it is his. In every work of genius we recognize our own rejected thoughts, they come back to us with a certain alienated majesty.—Emerson.

### True Secret of Living.

The secret of living is the discovery of the greatest good, the things that are really worth the seeking, the values that do not fade nor depreciate. The greatest good you can do any person or people is to train them to make this discrimination, to help them to choose for themselves amongst the many possible prizes the ones that are worthy.

"Mabel, I don't propose—"

"Well, George, I've noticed that, but daddy says you'd better propose before long or there will be doin's."

"When you interrupted me, Mabel, I was about to say that I do not propose to wait any longer to learn whether you do or do not return my love."

"Oh, George! This is so sudden!"—Houston Post.

If you ran a shoe store, would you like it if your clerks bought shoes of an opposition dealer?

### Footgear Brought Success.

It was the sturdy sandals of the Teutonic tribes that enabled them to march across Europe to the walls of Rome, and we know that the footgear of an army is still a most important part of its equipment. Those whom the Romans called Scythians wore rough sheepskin boots and the Gauls were already noted for their wooden soles.

### Better Look Outside.

If you want to make the best of your life, don't spend much time in looking within and wondering if your feelings are all right. Look outside instead, and see what you are doing for others, what you are saying about other people, how you are behaving to those around you. If you are behaving kindly and truly to your neighbor you will not go far wrong.

Montana City Holds Record. Miles City, Montana, holds the record for variation in temperature. The highest temperature recorded there is 111 deg., which is within 8 deg. of the highest recorded in the United States. Miles City's lowest mark has been 7 deg. below zero, which is truly arctic. The range between these two extremes is 178 deg., which is a record.

### Hereditary Instinct.

When baby turns away from the amiable visitor who is trying to make friends, and rushes to mother and buries his face in her skirts, he is doing exactly what it was wise for children to do in the ancient forest, when stranger and danger were the same thing, and not just rhymes as they are now.
