## FRENCH STRIKE CALLED CRIMINAL

### Employees Destroy Tracks and Wreck Trains.

Telegraph Wires Cut and Air Brakes  
Disabled—Food Supply for  
Paris By Water.

Paris, Oct. 13.—The strike of the  
railroad men, which threatens to  
spread throughout France, was de-  
nounced today by Premier Briand as  
"an insurrection, purely, built upon  
criminal foundations."

The premier declared that the strike  
was called while negotiations were go-  
ing on for an adjustment of grievances  
and he promised that the instigators of  
the strike would be prosecuted.

The river Seine, which in January  
threatened to destroy Paris, looms up  
in the role of saviour. The govern-  
ment has made arrangements to rush  
food supplies to Paris from the sea,  
requisitioning all boats to meet the  
crisis and ease the food market, which  
is already hard hit.

The employees of the Eastern and the  
Paris, Lyons & Mediterranean rail-  
roads have not to any appreciable ex-  
tent responded to the strike call and  
the government's weapon of mobiliza-  
tion has induced some of those employ-  
ed on the Northern road to return to  
their posts. Nevertheless, the North-  
ern and Western railroads are prostrated.  
The call to the colors has been  
ignored by the large majority and at  
mass meetings today the strikers re-  
iterated their determination not to  
respond to the call.

Much destruction has been wrought  
on the Western system, on which the  
strikers and their supporters have held  
up and derailed trains, blocked tracks,  
destroyed signals, ripped up rails and  
cut telephone and telegraph wires.  
The government has ordered the arrest  
of a score of strike leaders and in-  
structions have been issued to the  
troops to use severe measures where-  
ever occasion requires.

Thousands of person living in the  
suburbs and employed in Paris massed  
this evening around the depots. These  
they found closed and silent, with mil-  
itary camps in front. Then, with true  
Parisian gaiety, they laughingly set  
out to walk home, perhaps a distance  
of five or ten miles, or stormed the  
tramways, cars automobiles and other  
conveyances.

The losses to commerce already are  
tremendous. Scores of trains have  
been stalled along the roads, many of  
these carrying food supplies, which  
have become unfit for use. The pas-  
sengers on the steamship Oceanic, who  
took the train at Cherbourg for Paris,  
are blocked at Mante-Sur-Seine, about  
36 miles from Paris.

Many Americans have been com-  
pelled to remain in this city or pay  
fabulous sums to reach the coast, so  
that they might embark for England.

M. Jaure, leader of the Socialists in  
the chamber of deputies, today an-  
swered Premier Briand, charging that  
the railroads of the government were  
responsible for the present crisis. He  
declared that the scheme of militariza-  
tion was dangerous, as it was certain  
to weaken military discipline and in-  
crease anti-militarism.

The Southwest express had a narrow  
escape from being wrecked on its ar-  
rival here today. The brakes failed  
to work and subsequent investigation  
showed that the air pipes had been  
cut. The train dashed into the Auster-  
litz station at a speed of 60 miles an  
hour. It was stopped just before  
reaching the Dorsant terminus.

At Bois Colombes the strikers held  
up a freight train and, smashing in the  
doors of the cars, freed a cargo of  
cattle. Heavy consignments of fruit  
and vegetables destined for Belgium  
and Northern France are stalled and  
ruined. Prices of fish, eggs, butter  
and milk have jumped 25 per cent.  
The merchants are arranging for the  
transportation of vegetables from the  
suburbs by automobiles.

#### Search for Gold Ended.

Los Angeles—Two associates, Fuller  
and Steward, hardly less known in the  
world of adventure than himself,  
reached this city with the personal  
effects of Dr. Charles P. Holt, of  
Santa Ana, the distinguished journal-  
ist, scientist and explorer, who died of  
fever, alone in a far-off port of Colom-  
bia, South America, with wealth with-  
in his grasp. The lure of gold had  
drawn Dr. Holt to every part of the  
globe where the precious metal is  
found. He was among the first that  
invaded Alaska.

#### Argentine Heads Sworn.

Buenos Ayres—Senor Roque Senza  
Pena and Dr. Victorino de la Plaza  
were inaugurated respectively as pres-  
ident and vice president of the Argen-  
tine Republic. President Pena de-  
clared in his message that his interna-  
tional policy would be directed with  
friendship toward Europe and fratern-  
ity for America.

#### GALE HITS GULF.

West Indian Hurricane Headed for  
Florida Coast.

Key West, Oct. 15.—At 6 o'clock to-  
night the wireless station here report-  
ed a West Indian hurricane centered  
west of Havana and moving with great  
intensity toward Progresso, Yucatan.  
The storm will extend from Florida  
to Mexico. All wireless stations with  
the exception of the local government  
station are disabled. There is an un-  
confirmed rumor that a liner is ashore  
near Key West.

The weather bureau station at Sand  
Key was awash and the men there  
sought refuge at the lighthouse. The  
United wireless station was temporar-  
ily disabled and the operator secured  
the instruments and abandoned his  
quarters when heavy seas began to  
come in. The government wireless  
alone was in operation.

#### English Coast Feels Storm.

London.—The English coast is strewn  
with wreckage as the result of a storm  
that has continued for two days. The  
casualty list is a long one. Bodies of  
five seamen from the coasting steamer  
Cranford were picked up off Hartle-  
pool. It is believed the vessel, which  
carried a crew of 20, foundered, and  
that the men were attempting to reach  
shore in a small boat when they were  
lost.

Some of the wreckage coming ashore  
indicates that a sailing ship met a like  
fate. Lifeboats from many points  
were out and in some instances effect-  
ed rescues. In other cases they were  
unable to reach distressed craft.

#### Steamer Cannot Make Port.

Tampa, Fla.—A message from the  
wireless station at Key West at 7:20 p.  
m. reported the steamship Olivet just  
outside the bar unable to make port on  
account of heavy seas. The wind is  
blowing 50 to 60 miles an hour. The  
steamship Comus, spoken 40 miles  
west of Tortugas, is proceeding. In-  
dications are that the storm is swer-  
ing eastward and will strike the Flor-  
ida coast in the vicinity of Tampa,  
slightly to the northwest. The barom-  
eter is reading 29.94.

#### GALLERIES MAY BE INVADED

Wealthy Art Patrons May Have to  
Turn Over Treasures.

New York.—An anonymous note sent  
to William Loeb Jr., collector of the  
port of New York, precipitated a sen-  
sational raid on the Fifth avenue es-  
tablishment of Duveen Brothers' art  
galleries and the arrest of two mem-  
bers of the firm, Benjamin J. and  
Henry J. Duveen, charged with con-  
spiracy to defraud the government of  
more than \$1,000,000 by undervalua-  
tion of imports.

In the event of fines being imposed  
or duties recovered from the firm or its  
members, the informant will be in line  
for the reward offered by the govern-  
ment for evidence resulting in such  
conviction.

If the alleged frauds prove as exten-  
sive as customs officials have stated,  
this reward will probably be between  
\$100,000 and \$500,000.

The United States government has  
warrants out for the remaining mem-  
bers of the firm, who have art gal-  
leries in the leading capitals of Eu-  
rope.

Millions of dollars' worth of paint-  
ings and art work have been sold to  
millionaire art patrons in this country,  
and it was suggested that the customs  
officials may invade these art collec-  
tions and temporarily hold the master-  
pieces pending an adjudication of the  
alleged frauds.

District Attorney Wise said he be-  
lieved that fraudulent valuations have  
been carried on systematically for  
years.

#### Hurricane Rages in Cuba.

Havana.—The provinces of Havana,  
Matanzas and Pinar del Rio have been  
in the grip of the severest storm of  
recent years since Thursday. The  
highest velocity of wind was 80 miles  
an hour. The rain probably was un-  
precedented, and has wrought great  
damage to sugar cane and tobacco.  
Exit from and entrance to the port  
have been closed. Dredges and barges  
working about the battleship Maine  
were compelled to seek refuge. All  
but one dredge got away safely. The  
crew of the dredge was rescued.

#### Makes Call in Aeroplane.

Washington—Claude Graham White,  
the English aviator, stopped at the  
White House door in his aeroplane;  
after a flight of about six miles. He  
landed where the slightest deviation  
from the course would have impaled  
him on the spikes of an iron fence at  
his right, or smashed him against  
granite walls at his left. Admiral  
Dewey was on the spot to extend con-  
gratulations. An hour later White  
ascended from the spot where he had  
landed and returned to his starting  
point, the Bennings race track.

#### [Two Fall Into Boiling Dye.

Provo, Utah—Two employees of the  
Knights Woolen Mills fell into a vat  
of boiling dye while scuffling on its  
brink. H. D. Johnson died soon after  
being taken out and his companion,  
John H. Nebaker, cannot live.
