Remedies for Seasickness.

Among curious remedies for sickness is that which is popular among the mariners in the Levantthe daily swallowing of iron rust, which is obtained by scraping it off the anchor or anchor chain. But this is only part of the necessary treatment, for a small pouch containing roasted salt and flowers of thyme must be tied upon the abdomen as firmly as can be borne—this being considered to counteract the effects of the internal disturbance caused by the rolling of the vessel.

The Humorous and the Witty Story. The humorous story is strictly a work of art-high and delicate artand only an artist can tell it; but no art is necessary in telling the comic and the witty story; anybody can do it. Bulle Haul Street Cars. Foor miles of street railway and some bulls are making a rich man out of a resident of Daet, in the Philippines. Strange Hobby.

William James, probate court dep-uty, tells of a pest extraordinary that comes about that office. She is a woman, a middle-aged, heavy jowled person, who comes around shortly after she has read in the paper of the death of a prominent man. And she comes because she wants to read the dead man's will as soon as it is probated. She has no hopes of receiving a bequest in any of the wills. She just likes to look them over. Reading wills is her hobby.-Cleveland Plain Dealer.

There are a great many places and occasions when the possibility of getting extra heat immediately effects an economy by decreasing the discomfort of the worker. In the office, in the early morning or late at night, before or after the steamheat is on, it is of importance to have extra heat. In the builder's outside office, in the shipping room, in the checker's shack, on exposed lofts, in railroad stations, in studios, the

We are just as proud of the REMINGTON .22

Repeaters as we are of the Remington Big Game high power ritles—for just as good reasons. No other make of the .22 class is built to as high a standard.

The festures that place the REMINGTON .22 is a class by itself are the real big REMINGTON features—Hammerless and Solid Breech. You clean the barrel from the breech—not forcing the dirt back into the working pasts as in other .27s, insuring life-time usefulness and mointaining constant abooting condition.

There is perhaps a greater difference between the REMINGTON and other .22 Repeaters than is to be found between these of any other class.
