Dr. and Mrs. Bean's Sunday School Class Have Party

An informal and exceedingly interesting event of the past week was the party given on Friday evening by the members of Dr. and Mrs. Bean's Sunday School classes in the parlors of the Congregational church.

Various sports were indulged in, the most interesting perhaps being hypnotism in which talents were brought out which had never before been known to exist in certain individuals. A novel way of getting partners for supper was that of choosing fingers which were seen pointing over the top of curtains. The supper of oyster stew, crackers and celery gave a pleasing finish to the evening.

Stuff Your Turkey WITH SEALSHIPT OYSTERS

We receive our oysters under the regulations of the Sealshipt System which covers the growing, shucking, shipping, selling of

Sealshipt Oysters

Protected by an Effective System

At the seaside they are packed, solid, into air tight containers and then SEALED. The ice is on the OUTSIDE of the containers. The containers are in patent Sealshiptors.

Handled in this way, they retain all the freshness and flavor of oysters just taken from their beds. They are all solid meats—not a drop of water has ever been added—no ice has ever touched them.

These are good reasons why

Sealshipt Oysters are so much better than common oysters which are shipped in open wooden tubs with chunks of ice sloshing around.

They are economical, for you are buying nothing but solid oysters—no water.
