It's Different in Life.

His Parting Shot.
A local minister had had a serious time in fighting the saloon element in his town and had not been backed up in his efforts by the members of his own church. This with other troubles had led to his resignation, and in announcing his departure at his farewell sermon he said: "I am going to do something the devil has never done. I am going to leave C—."

CHICAGO APPLE SHOW GREAT

Thousands of Easterners Saw Display and Sought Information.

Spokane—"Perhaps the most significant result of the National Apple show in Chicago recently, is the widespread attention attracted to the commercial orchard districts of Washington, Oregon, Idaho, Montana and British Columbia," said E. F. Cartier Van Dissel, first vice president and chairman of the board of trustees of the National Apple show, Inc., adding:

"The daily newspapers and class publications in Chicago were liberal in devoting space to the enterprise, and taken in all it was the best exploitation the apple ever had, next to the story of its first appearance in the Garden of Eden. Moreover, the people of the Mississippi valley country and the states to the east and south and north have a better acquaintance today with the apple districts in the Northwest than ever before."

Mr. Van Dissel said that the Chicago show was attended mostly by men and women who have money to invest or are looking for homes in this country. The fact that the exhibitors were literally besieged from morning until night by eager inquirers, seeking knowledge at first hand of the various

districts in the four states and province, he added, may be taken as an indication that many will cast their lot in the western country.

"The carlot displays," Mr. Van Dissel continued, "were viewed by thousands, who marveled at the color, size and uniformity of the western apples, which also held the interest of buyers from all over America; but it is probable that the district exhibits were the chief centers of attraction for those with a few thousand dollars to invest in orchard lands.

"Representatives of the districts that entered displays were on the ground with photographs, statistics and conservative word pictures of the exact state of things in the pomological history of the valleys and bench lands in Washington, Oregon, Idaho, Montana and British Columbia. They told their stories in a convincing way and were ready to answer all questions as to climate and soils.

"No one is in a position to foretell the extent of the influx of capital and settlers into the Northwestern country as a direct result of the apple show, but if only one of every hundred men and women who evinced interest in what this country offers to the homeseeker crosses to the west side of the Rocky mountains, the value of the Chicago exposition will be apparent on all sides.

"Some might infer that this widespread talk about apples and apple lands is entirely due to the Spokane and Chicago shows. That is not true; it is too general to make such claims. However, they confirmed the reports given in print and by word of mouth of the marvelous development of the apple industry and the rapid and substantial strides made in the Northwest during the last 10 years, and as such they proved their value a thousand-fold.

"The Chicago show was operated at a financial loss to the management, as we expected it would be, but from a publicity viewpoint it was a highly gratifying success. It also resulted in bringing invitations from many eastern and middle western cities to have the shows there following the competitive exposition in 1911.

"It is likely that the coming year will see the construction of a permanent home for the National Apple show, also the establishment of a circuit in important eastern cities. We are highly pleased with what was accomplished, and I look for a larger and more complete show than ever for the fall of 1911."

Got Nothing From Legacy.
The deacons of a Baptist chapel in Coltenham, England, got a shock when they heard the contents of the will of one of the chapel trustees, who died in December, 1908. By a codicil he left a hundred pounds to the chapel for each deacon who attended his funeral. There were nine deacons, but not one of them attended; so instead of the £900 by which the chapel might have been the richer, the legacy was void.

Appeal Made Effective.
A certain Harford (Md.) farmer has hit upon a mode of relief from trespassing fowls belonging to his neighbors. On one end of a thread four inches long he fastened a grain of corn and on the other end a tag inscribed "Please keep me home." These were scattered where the trespassers were usually found, and a score or more of hens carried home the appeal.

Feminine Moods.
"Women will go far in certain moods, far beyond their own fears and nearer to the dictates of temper than a man would dare. Let the stress be great enough, and the kindest of them will become as the most cruel, the gentlest as the actually criminal."—"The Girl With the Red Hair," by Max Pemberton.

Stops Hair Falling

Ayer's Hair Vigor, new improved formula, will certainly stop falling of the hair. Indeed, we believe it will always do this unless there is some disturbance of the general health. Then, a constitutional medicine may be necessary. Consult your physician about this.

The reason why Ayer's Hair Vigor stops falling hair is because it first destroys the germs which cause this trouble. After this is done, nature soon brings about a full recovery, restoring the hair and scalp to a perfectly healthy condition.

PORTLAND CHAMBER OF COMMERCE
U. S. Cashier Co. Portland, Or., Nov. 3, 1910.
Dear Sirs—I have the pleasure in notifying you that at a meeting of the Board of Trustees of the Portland Chamber of Commerce, held Nov. 1st, 1910, I was directed to state that the demonstration of your automatic coin paying machine convinced the Trustees of its excellence, that they consider it perfect in every way, and that a factory for the manufacture of these machines would be an unusually desirable industry for Portland. I am, yours respectfully,

A device of this character has long been desired by the banks and is thoroughly practicable. I can readily see that with a machine as perfect as yours is at the present time that the natural evolution of the machine would evidently be something startling.
