The fumes in the form of gas arising from the molten metal in the linotype machine in Brother Scott's News-Times office caused much anxiety among the compositors last week. Through the kindness of Fire Department Chief Joe Lenneville they were supplied with smoke muzzles to be worn over the face in the composing room. It seemed to work alright with all but the lady compositors, and with them it proved a failure as it hindered them from talking. It is hoped that something else can be devised that will fill this want and not look quite so hideous.

That the citizens may know just what the proposition made the city by the church for the south half of the church block, which was turned down, we understand the price to be \$15,000 and city pay the paving expenses, which would add a couple or three thousand more. The church restricted the use of the property to building of city hall only, and that the property be used for no other purpose. If this be correct, then what interest in the city's welfare has any member of the council, when he votes for the purchase.
