**Residence Is Plundered**  
 The residence of **Mrs. O. M. Taylor**, located on B street between First and Second avenue N., was entered Sunday night, while the family were at church, by some thief who secured two ladies' gold watches, a diamond ring and a purse containing a small amount of coin. They evidently unlocked the back door and entered the house by that way. The sheriff was called and made some investigation but no clue has been found.  
 The firemen's ball will be held in Stribich hall Saturday night, instead of K. P. hall as was advertised.

 College way has been so cut up by vehicles that in places it is impossible to get through with a team. **Albert Friday**, hauling milk, got in trouble and broke out the tongue of his wagon this morning. Could not something be done to make this passage better?  
**R. C. Hill**, who has made seven moves between Oregon and the east, told me while in conversation with him this morning, that after all his experiences he can speak of the superior advantages offered by this section of the county.  
 The Forest Grove firemen have added seven members during the last month. At the meeting of the firemen last night **Chief Lennerville** gave an interesting and instructive talk to the fire boys.  
 A poultryman who has had good success raising ducks recommends the following ration for them during the laying periods: Cornmeal, 45 per cent; bran, 20 per cent; cooked vegetables, 15 per cent; beef scraps, 15 per cent, and grit or sand, 5 per cent. This should be mixed with milk and fed night and morning.  
 A western woman, a resident of Seattle, Wash., has suggested to the city council the passage of an ordinance which will compel all owners of cats to put small bells on them so that the birds will be given warning on their approach and thus thousands of the feathered tribe saved from destruction. Considering the uselessness of the average cat, the above suggestion would seem to be a good one.  
 There are several states in which tracts especially and definitely devoted to the production of timber or orchards are exempted from taxation covering a considerable period of years. Those who are interested in either of the above lines would do well to look up the laws of their respective states relative to the matter in order to profit therefrom, while if there be no such laws the attention of one's state representative may be called to the fact.  
 An unkempt cedar or cypress hedge is not a lovely thing; but, trimmed or no, it furnishes the birds—our most valued benefactors—with a protection from their worst enemies—cats and hawks by day and owls by night. We passed just such a hedge the other evening at dusk, where a number of juncos were roosting, and caught a screech owl in the attempt to get at the birds. But in spite of the fact that its eyes were good the hedge was so dense that the owl could not get at its prey. We have had a kindlier feeling for that hedge since.  
 Even under the most favorable conditions the giving of birth to the young animals on the farm means for the dams a severe drain not only upon their nervous system, but also their store of physical vitality. For this reason great care should be taken to see that all animals with young should be so fed as to be abundantly nourished, while the quarters in which they give birth to their offspring should be dry and clean and free from drafts of air. Care in these two particulars would save a world of grief and loss for the average stock raiser.

**CO-OPERATIVE TRUST COMPANY**  
 (HOME BUILDERS)

**Invites you to share in the Cash Dividend February 1st**

You can share in the distribution of cash February 1st, which the Co-operative Trust Company will make to its stockholders.

3 cents on each share of stock is the rate; this is 12 cents on each share for the year and on interest earning basis for your money, is about 10 per cent.; better than a good mortgage earning.

The price of the shares advanced December 1st from \$1.00 per share to \$1.15 per share, and there is every reason to believe that it will advance again soon. Buyers of shares now will be earning a good rate of interest on their money at present dividend rate, and stand to earn more in the future, just as has been done in the past.

Remember, your money does not go into speculative investments, but is secured by improved properties at wholesale costs and by improved properties which are productive and by mortgages.

**CO-OPERATIVE TRUST COMPANY** (Home Builders) profits are builder's profits, subdivision profits, Building and Loan profits, and its investments are in Banker's securities. Co-operative Trust Company does not speculate.
