Woodpecker's Hearing. It is not easy to explain why woodpeckers select one tree rather than others of the same kind in the forest upon which to begin their operations, or why they attack one side of a tree and leave the other untouched. Commonly it will be found, no doubt, that worms or ants are concealed beneath the point selected and that the woodpecker is guided in his search by the sense of hearing.

Woman's Age. A few years ago after a woman had passed thirty-five she was relegated to the fireside and she looked and felt old. She lived in her memory, and all the money that was spent for little frills and follies was given to her daughter; for mother, all was over. Suddenly woman awakened to the fact that after thirty-five she is at her best, and that her beauty need not fade unless she wishes it.—Home Life.

Entirely inadequate. "I offered to let him have a hundred." "That would only be a drop in the bucket-shop."—Life.

The Clever and the Wise. To clever people almost everything is laughable--to wise people, hardly anything.—Goethe.

Only the Belief of Snobs. The idea that trade is vulgar is one of the silliest ideas that ever came into the brain of man.

THINGS WORTH KNOWING

When cane seats are relaxed turn the chair upside down, pour boiling water over it, scour in hot soapsuds and rinse again in boiling water, when the cane should be found to have contracted.

A polish that may be used for floors and furniture is made of equal parts of vinegar, boiled linseed oil and methylated spirits. Where the polish has worn off this renews it, and when it is well rubbed in it gives a brilliant surface to the floor.

If the painter has left marks of paint on the floor apply to them a paste made of equal parts of lime and soda moistened with a little water. Leave this, apply very thickly, for 24 hours, then wash it off and the stains will be found to have disappeared.

Her Natural Occupation. Now and then the childish comment goes right to the heart of a difficult problem or situation. A little boy who longed to stand on the seat of a car and look out of the window was sternly reproved by his mother. "What a 'frail-cat mamma!' exclaimed another youngster, seated near. "Yes, I suppose she is nervous," was the adult reply, "but then, you see, she has to take care of her little boy and it keeps her busy." "Well, isn't that what she's for?" was the innocent, pertinent question.

Colds. Numbers of people are suffering, just now from irritating colds in the head. A very simple home remedy which brings almost instant relief is to pour half a pint of boiling water on to a dram of pulverized camphor, and to inhale the vapor for about ten to fifteen minutes. The annoying fits of sneezing, running eyes and heavy feeling in the head will quickly yield to this remedy.

JUST BARKING. Bark! Bark! Bark! Old Rover and little Pat. Bark! Bark! Bark! What are they barking at? Up in the morning early. They bark the livelong day.

They bark when they are fighting. They bark when they're at play. You think a tramp is coming? You listen and say "Hark!" But little Pat and Rover Just merely love to bark.

FINDING WATER IN FOREST Experienced Huntsman in South Can Always Secure Cool, Refreshing Drink From Trees.

In many sections of the forest lands in the south during the dry season a man may walk for miles without finding a stream of water or a spring by which to quench his thirst. If, however, he is an experienced hunter and woodsman he will not have to drink water from the stagnant pools in order to keep life in his body.

Queer as it may seem, an experienced man can hunt for days through such dry tracts and yet experience no inconvenience on account of the lack of water. Nature has provided a means which is only known to the initiated. Every old huntsman carries with him when going on a long hunt a small auger, by which he can secure a refreshing drink and water to cook with at any moment.

A cottonwood tree or a willow is the well which the wily huntsman taps. He examines each tree until he finds one that has what a woodsman calls a "vein." It is simply an attenuated protuberance. By boring into this "vein" a stream of clear water will flow out. It is not sap, but clear, pure water. The huntsmen say that the water is better than the average to be had from ordinary wells. There is no sweetish taste about it, but it has a strong flavor of sulphur and is slightly carbonated.

The reason for this phenomenon cannot easily be explained, but that a supply of water can be contained in a tree is not so surprising. The fact of its flowing is the wonderful feature, showing that it must be under pressure, or, in other words, that there is more at the source of the supply. When it is considered that the trees furnish water in the dry season and that the ground is literally baked, it is the more remarkable, especially when the roots of the trees do not extend to any great depth into the ground.

AMUSING GAME FOR WINTER Interesting Pastime for Young Folks on Dull, Long Evenings—Prizes May Be Given.

Can you make a picture composed solely of the figure 8? It is an amusing as well as an interesting game for

The "8" Figure. The home, and our artist has shown what can be done in this direction. Many amusing pictures can be thus drawn by the amateur artist. Two competitions might be held, one prize going to the person who draws the most amusing or interesting picture, using the smallest number of the figure 8, while a competition might also be held for those who use the greatest number of figures in one picture.

SPEEDY WORK AT TAILORING From Shearing of Wool From Sheep's Back to Finished Garment Accomplished in One Day.

A man walked into a tailoring shop, the other day and asked to have a coat made. "When do you want the garment?" asked the tailor. "This evening. I want to wear it to a dinner."

"Impossible!" cried the tailor. "Make a coat in a day--unheard of!" Yet it has been done--yes, from the shearing of the wool from the sheep's back to the finished garment. This feat was accomplished as far back as 1811 by John Coveter, near Newbury, in England. At five o'clock in the morning Mr. Coveter was presented two Southdown Wedner sheep. At first the sheep were shorn, the wool spun, the yarn spooled, warped, loomed and wove. After that the cloth was burred, milled, rowed, dyed, pressed, and late in the afternoon put in the hands of the tailors. By half-past six the coat was finished, and Mr. Coveter presented it to one of the gentlemen of the town amid the thundering applause of 5,000 spectators.

Qualities That Make for Success. "The qualities of honesty, energy, frugality, integrity, are more necessary than ever today, and there is no success without them. They are so often urged that they have become commonplace, but they are really more prized than ever. And any good fortune that comes by such methods is deserved and admirable."—Marshall Field.

SEVEN YEARS OF MISERY

How Mrs. Bethune was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Sikeston, Mo. — "For seven years I suffered everything. I was in bed for four or five days at a time every month, and so weak I could hardly walk. I had cramps, backache and headache, and was so nervous and weak that I dreaded to see anyone or have anyone move in the room. The doctors gave me medicine to ease me at those times, and said that I ought to have an operation. I would not listen to that, and when a friend of my husband's told him about Lydia E. Pinkham's Vegetable Compound and what it had done for his wife, I was willing to take it. Now I look the picture of health and feel like, too. I can do all my own housework, work in the garden and entertain company and enjoy them, and can walk as far as any ordinary woman, any day in the week. I wish I could talk to every suffering woman and girl, and tell them what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. DEMA BETHUNE, Sikeston, Mo.

Remember, the remedy which did this was Lydia E. Pinkham's Vegetable Compound. It has helped thousands of women who have been troubled with displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration, after all other means have failed. Why don't you try it?

Precept and Practice. "Do you wish to go to church this evening? Father is going to preach, you know," the minister's fair daughter asked. The young man considered. "Um. The last time I went he rather fell on some of my small fallings. Do you know what his text will be tonight?" "Yes, 'Love One Another.'" He regarded the round pink cheek approvingly. "Suppose," he suggested softly, "that we let the old gentleman go preach while we sit on the porch and practice?"

Stiff neck! Doesn't amount to much, but mighty disagreeable. You will be surprised to see how quickly Hamlin's Wizard Oil will drive that stiffness out. One night, that's all.

Work of Real Forester. The modern forester undertakes to make orchards profitable. There are orchardists, to be sure, who know very well how to care for their trees and who do care for them; but there are also orchardists that are neglected or handled unskillfully. The forester will take a run-down orchard and by intelligent, scientific treatment of the trees, with systematic care, make it produce big and handsome apples in abundance.
