

# BALK AT EXPEDITION

## Texans Object to Mexicans Passing Through State.

Washington Heeds Request — Battle Across Line Would Result When Troops Reached Juarez.

Washington, D. C. — Diplomatic complications have arisen between the state of Texas and the United States government, on one hand, and the Mexican government on the other, which temporarily, at least, will not allow Mexico to move any troops over American territory in connection with her revolutionary disturbances.

Secretary of State Knox made further inquiry from Mexico through the American embassy at Mexico City asking the specific purpose of the military expedition for which permission is sought to travel from Eagle Pass, Texas, to El Paso, Texas, in order that points in Northern Mexico, to which the rebels have cut international railroad communication, may be reached.

Governor Colquitt, of Texas, pointed out to the State department in his message that residents of El Paso were apprehensive that rebels at Juarez might resist the entry of Mexican troops from American territory and precipitate a battle endangering American lives and property.

Secretary Knox assured Governor Colquitt that no permission would be granted until the matter had been studied carefully, and indications were that it would be adjusted in a leisurely, diplomatic manner. Advice reached here that no troops had started on the proposed expedition, and none would do so until the question had been decided.

In connection with the proposed expedition to Juarez, the State department heard that Mexico intended not alone to replenish the garrison opposite El Paso, but to pass a host of troops into Northern Chihuahua for a general military movement there.

It was indicated that while the rebels might not object to a re-garrisoning of Juarez, thus avoiding foreign complications, they might offer armed resistance to a movement aimed generally at the trouble zone.

### NEW SERVICE LUMBER BOON

North Pacific Coast to Benefit in Deal Through Soo Line.

Aberdeen, Wash.—With the agreement recently reached between the O. W. R. & N. and the Soo Line, a new transcontinental railway service from Grays Harbor, Portland, Tacoma and Seattle and all intervening points to the Minnesota transfer will be opened within a few days, according to a statement made by L. E. Paskill, freight agent of the Soo Line.

The agreement means that lumber manufacturers south of Seattle will be able to invade the vast market existing in Southern Canada and at the same time can route through to Minneapolis at a rate no higher than other competing lines which cover the Southwest Washington territory.

### Ambassador is Hopeful.

Honolulu—Viscount Sotomi Chinda, the newly-appointed ambassador from Japan to the United States, has arrived here on the Japanese liner Shin-yo Maru. He will reach San Francisco late in February.

In an interview published in the Hawaii Shippo, a Honolulu Japanese paper, the ambassador said that after leaving Yokohama he received a wireless message from his government saying that the provisions for Japanese exclusion had been eliminated from the Dillingham bill now pending in the United States congress.

"For the continued amity of the two nations, I hope that this is correct," said the ambassador.

### Will Issue Edict Soon.

Pekin—An edict establishing the republic will be issued in February. A statement from the Chinese foreign office board says the Republicans are harassed by dissensions and are prepared to waive a majority of the proposed modifications. The statement further says that there is no fear of the transfer of the capital from Peking. A Tien Tsin dispatch says that three bombs were thrown at General Chao Erh-Hsun, viceroy of Manchuria, at Mukden. The viceroy was not injured and his assailant escaped.

### Harriman Men on Board.

New York—Three directors have resigned from the United States express company, according to an announcement. They are Albert D. Boardman, George H. Burrill and Chauncey H. Crosby. Their places have been taken by representatives of the Harriman estate, who are believed to be the controlling interest in the Wells-Fargo company. Officials refuse to confirm or deny the report that it is proposed to merge with the Wells-Fargo.

### Allies Command Coasts.

Tripoli—The coasts of Tripoli and Cyrenaca still are commanded by the Turks and the Arab allies to such an extent that Italian action is greatly restricted. The Italian cruiser Citta di Catania reports that she bombarded seven small posts and Turkish camps near the shore and that large numbers of armed Arabs were observed.

### WILSON IS ACCUSED.

Committee Investigates Scandal in Connection With Reports.

Washington, D. C.—Another investigation of the department of agriculture involving orders of Secretary Wilson and Solicitor McCabe and embracing charges of suppressed reports and influence of land speculators over government officials, is to be instituted by the house committee on expenditures in the Agricultural department.

Troubles relating to exploitation of Florida everglade lands, millions of acres of which have been sold throughout the country by syndicates, started before the house committee as a result of the summary dismissal from government service by Secretary Wilson of C. G. Elliott, chief engineer of the drainage division of the department, and A. D. Morehouse, assistant engineer, and the suspension of F. E. Singleton, an accountant, on a technical charge of transference of public lands.

Representatives Clark, of Florida, and Bathrick, of Ohio, who have investigated the investigation, charged that officials of the department of agriculture had been influenced by Florida everglade land promoters in the suppression of a report on the condition of the land made by the drainage department; that Chief Engineer Elliott was threatened by agents of the land promoters unless he would revise a circular letter to the house which did not contain laudatory references to the lands they were selling; that upon his refusal the circular and a subsequent fuller report were suppressed by the order of Secretary Wilson and that later Engineers Elliott and Morehouse were removed from office.

Solicitor McCabe, before the house committee, denied the dismissal of the department officials was in any way caused by the Florida land case and asserted that the action was taken following charges that the dismissed men had misapplied funds.

### DISRESPECT DENIED.

Compers Contends He is Not Guilty of Contempt.

Washington, D. C.—Samuel Compers, president of the American Federation of Labor, made an unequivocal denial of any intent to disobey the injunction of the Supreme court of the District of Columbia, when he took the stand in his own defense against the charge of contempt in connection with the Bucks Stove & Range company boycott case. His testimony was not completed and he will be a witness again.

Compers insisted under oath that his editorials in the American Federationist and the utterances of himself and other officials of organized labor in the campaign of 1908 were not intended to aid or abet the boycott of the company.

### Herrick Goes to France.

Cleveland — Ex-Governor Herrick was greeted as "Next Ambassador to France" at a luncheon of business men here. The words were used by ex-Vice-President Fairbanks in an address and brought applause from the assembly. Referring to a statement by Mr. Fairbanks that he "was out of politics," Mr. Herrick remarked that he did not believe that the former vice president was "out of politics," that "in the sort of politics that is being evoked in this country a man like Fairbanks always has a place."

"All men in politics have their places," Mr. Herrick said. "I believe the man who rants about his country, shoves up his hair, crouches on the stage and then breaks down, has his place."

### Rulers View Launching.

Ferrol, Spain—King Alfonso and Queen Victoria were present Thursday at the launching of the battleship Espana. The Espana is the first of the battleships of the new Spanish navy to take water. King Alfonso was present at the laying down of her keel, in July, 1909. The Espana is a four-screw steel vessel, 435 feet in length. Her displacement is 15,450 tons and her estimated speed 19.5 knots. She will carry eight 12-inch guns, 20 4-inch guns and a number of quick-firers and machine guns.

### Priceless Gifts Made.

New York—At the annual meeting of the trustees of the American Museum of Natural History important gifts to the museum by J. P. Morgan, Jr., and Ogden Mills were announced. Mr. Morgan presented his almost priceless collection of meteorites and minerals and Mr. Mills gave the George Catlin collection of 250 oil paintings of Indians and the life of the redskin in the West between 1832 and 1840.

### Church is "Skyscraper."

Kansas City—With impressive exercises the Grand-Avenue Methodist Episcopal church, Kansas City's skyscraper house of worship, was dedicated Sunday. The church is the pioneer Methodist organization of the city. The new edifice is a wing of a 12-story office building erected by the congregation and bearing the name of the Grand-Avenue Temple. A pipe organ of 57 stops and 22 couplers has been built in the main auditorium.

### Delay Annoys Dr. Sen.

London—President Sun Yat Sen, in an interview with the Nanking correspondent of the Daily Mail, said that the settlement of affairs in China must be speedy. He added: "It is peace or war. We shall not permit the retention by the Manchus of the imperial title or power to create a nobility."

# FEAR INTERVENTION

## Strong Anti-American Message Issued By Governor.

Call to Arms Is Sounded—Rebel Bands Active—Forces Closing In On Juarez.

El Paso, Tex.—Mexico is to be crushed under the military force of the United States and is to lose its identity as a world power. This is the message of Acting Governor Aureliano Gonzales to the people of Mexico and his native state of Chihuahua. The message was telegraphed to all the Jefe politicos of the state, and created a sensation among the Mexican and American population of the state.

The mobilization of the American army means the invasion of Mexico, Governor Gonzales says in his firbrand message.

"The hand of the oppressor is pressing hard upon your brow," he continued, "and will brand all true Mexicans as slaves unless they resist the foreign power. The attitude of the United States toward Mexico is one of a lordly master toward an abject slave."

"The manhood of Mexico demands its resistance by all possible means. Mexico has lost, or is losing, its identity as a nation among nations. The Americans are attempting to control the business affairs, the politics and the economics of Mexico. Unless resistance is shown at once, Mexico will be but a dependency of the United States."

The proclamation amounts to a call to arms to resist an American invasion of Mexico and has caused consternation here as well as across the border.

Colonel Antonio Rojas, at the head of 500 men, now is on his way toward Juarez to attack the city, according to a report received in Juarez from San Antonio, west of Chihuahua. In view of the report that Rojas would demand the surrender of Chihuahua in five days, the report is not generally credited.

Braulio Hernandez, with a force of 300 rebels, is reported operating south of Chihuahua, along the line of the Mexican Central, which has abandoned temporarily its efforts to make repairs between Chihuahua and Torreon.

### WRECK OF MAINE FLOATS.

Battleship Ready to Proceed to Final Resting Place.

Havana—The wreck of the Maine floated free from the mud when the water was turned into the dam surrounding the wreck. The water within the dam is 14 feet below the harbor level at low tide.

It is the intention to raise the wreck immediately to the harbor level, leaving nothing more to be done except to break the dam and float out the ship.

Water was forced into the dam through a system of pipes fixed at the bottom of the ship, the power being supplied by a pump that had been recovered from the wreck. The ship began to rise almost immediately.

The ship will remain within the dam until orders are received from Washington to float her out, which can be done within a fortnight.

### 700 Plaintiffs in Suit.

Butte, Mont.—The record for the number of plaintiffs involved in a suit in the Montana courts, has been broken in the filing here of an action by the Butte Mill and Smelter men's Union against the Western Federation of Miners to enjoin the federation from revoking the charter of the Smeltermen's union. Seven hundred men are named as plaintiffs in the suit, brought against the Western Federation of Miners, Charles H. Moyer, president of the federation, and the Butte Miner's union.

### Price of Silver Soars.

New York—The price of silver in the New York market touched 60 1/2 Saturday, the highest since November, 1907, the quotations having advanced fractionally over those of last week. Authorities in the financial district credit the rise to the activity of a powerful syndicate in India. The Indian government's supply of the metal for coining is believed to be low, and large pooling operations are said to be under way with the purpose of selling to the mint when demands of coinage become pressing.

### Church is "Skyscraper."

Kansas City—With impressive exercises the Grand-Avenue Methodist Episcopal church, Kansas City's skyscraper house of worship, was dedicated Sunday. The church is the pioneer Methodist organization of the city. The new edifice is a wing of a 12-story office building erected by the congregation and bearing the name of the Grand-Avenue Temple. A pipe organ of 57 stops and 22 couplers has been built in the main auditorium.

### Delay Annoys Dr. Sen.

London—President Sun Yat Sen, in an interview with the Nanking correspondent of the Daily Mail, said that the settlement of affairs in China must be speedy. He added: "It is peace or war. We shall not permit the retention by the Manchus of the imperial title or power to create a nobility."

### WATCH MEXICO CLOSELY.

Government Keeps in Touch With Enemy Move Across Border.

Washington, D. C.—President Taft and his cabinet have turned a scrutinizing eye toward Mexico. Officials before the president seriously questioned the loyalty of General Pascual Orozco to the Mexican federal government and intimated that the present conditions in the state of Chihuahua, bordering on Texas, might develop into a movement of secession, establishing an independent republic in the North.

The president and his official family discussed precautionary measures, and the War department then sent additional orders to army posts throughout the country to be ready for a possible mobilization.

The department of justice has instructed its agents to exercise all possible vigilance in enforcing neutrality, while the State department has asked for quick reports from consular agents of any danger in the interior to Americans or their interests.

After the cabinet meeting, the president professed not to be alarmed by the situation. It was admitted in official circles that the separation of Chihuahua from the rest of Mexico would create a situation different, in many respects, from those that existed during the last rebellion.

### GRAIN CANNOT BE MOVED.

Thousands of Carloads of Wheat Are Tied Up in Canada.

Duluth, Minn.—The congestion of traffic on the Canadian railroads, which resulted in sweeping reduction of freight rates to permit Canadian grain to come to the American head of the lake for elevating and storage, is more serious than at any time since its inception, according to news received here from Port Arthur, Ont.

The news tells of 3,500 cars already billed to Port William over the Canadian Northern which cannot be moved. There is no place to store grain when it arrives at Port William. Thirty million bushels are frozen on the ground or in Western elevators.

In addition, there are 1,000 cars of grain on tracks between Winnipeg and Port Arthur, making 4,500 cars on the Canadian Northern alone.

The Canadian Pacific has reduced the number of empty cars that are delivered daily to elevators at the Canadian head of the lakes, on the theory that it is useless to load cars when they cannot be hauled to destinations.

### SWIFTS ARE ATTACKED.

Prosecution Centers All Efforts On One Packing Company.

Chicago—The government centered its attack on Swift & Co. in the packers' trial here. John M. Chaplin, chief of the plant accounting department of that corporation, was subjected to a searching examination by District Attorney Wilkerson and required to explain to the jury many details of the complex system used by the packers.

Chaplin identified numerous letters changing the by-products allowances, which were sent by other employees.

One letter signed by Chaplin and dated November 15, 1907, gave instructions to discontinue making allowances for hides in figuring the test cost of beef.

District Attorney Wilkerson pointed out that from the organization of the National Packing company, March 8, 1903, the test cost of beef, as figured by Swift & Co., steadily rose while the allowances for by-products decreased.

### Cabinet Minister Prisoner.

Torreon, Mex.—Abram Gonzales, minister of the interior, who went to Camargo to quell the uprising at that point, was made prisoner by the mutineers, escorted back to the railroad at Santa Rosalia and sent to Chihuahua on a handcar, according to news received here. The rebels refused to listen to his overtures. He reported his failure to the central government.

Seventy dead and wounded Salgadistas were left on the field at Chilapa after an encounter with the forces of General Ambrosio Figueroa. The losses of the federals were not given.

### Lands May Be Available.

Spokane, Wash.—A plan by which 7,000,000 acres of logged-off lands in Washington, Idaho and Montana may be obtained by the government and then opened up for homestead entry is being worked out by the executive committee of the International and Empire Federation of Commercial Clubs. The plan, as outlined, proposes the exchange by the Interior department of forest reserve lands for logged-off lands, on the basis of three acres of cut-over lands for one acre of forest reserve.

### Aviator Scares Crowds.

New York — The first successful flight of a hydro-aeroplane in this section was seen here Wednesday, when Frank T. Neeff ascended from the Hudson river at Twenty-third street and for 16 minutes flew up and down the river at a height of 500 feet. The aviator made no public announcement of his plan, and when he alighted in the river amid floating cakes of ice, many on shore thought he had fallen into the stream.

### Tinplate Men Combine.

Pittsburg—Representing a capitalization of \$100,000,000, the Independent Tin Plate Manufacturers of the United States were granted a charter in Common Pleas court under the name of the Association of Sheet and Tin Plate manufacturers. Headquarters will be located here.

# TO ARREST 40 MORE

## Many Labor Leaders and Officials Accused of Conspiracy.

All Will Be Taken Into Custody At Once—Bonds Fixed in Advance—Government Keeps Secrecy.

Indianapolis, Ind.—Capiases for the simultaneous arrest of all the men named in the 32 indictments returned by the Federal grand jury in the dynamite conspiracy cases, with certified copies of the indictments, were completed in the expectation that the arrests might be effected within five days.

Although the men, most of them labor union officials and agents, are scattered from Boston to the Pacific Coast, papers for their apprehension have been so arranged that they are to be arrested and an opportunity to give bond afforded them on the same day, and as nearly as possible, within a few hours. The bond is to be asked for their appearance in Indianapolis, March 12, when they are to be arraigned before Federal Judge Anderson.

The government is trying to take into custody all the prisoners in at least 20 distant cities within a given time, so that, through premature arrests, one defendant, by demanding a copy of his indictment, may not reveal the names of his alleged co-conspirators.

It has developed that the defendants accused of complicity with the McNamaras and Ortie E. McManigal in perpetrating more than 100 explosions before and after the wrecking of the Los Angeles Times building, will number at least 40, and probably more.

There are to be at least eight more defendants than the number of indictments returned, as many of the true bills contained more than one name.

### MADERO DEFENDS CABINET.

Declares Charges Are Scandal and Discharges Committee.

Mexico City—"For no reason will I change any of my ministers. The members of my cabinet are honorable men. They are patriots. I shall not permit any of them to be slandered as you are slandering them."

With these words President Madero brought to a terminus an interview sought by a committee from the anti-revolutionist party, which was attempting to persuade him to dismiss from his cabinet the ministers of war and of the interior.

The conference had proceeded calmly up to the moment the spokesman for the committee, in reply to a statement of the president that evil-minded Mexicans were aiding the rebels, declared that this was true, and that, moreover, the president knew these men because they were members of his own cabinet. The president then peremptorily ended the interview.

In line with this incident, Alfredo R. Dominguez, one of Madero's staunchest supporters during the revolution, publicly criticized the administration, declaring that in his opinion the removal of the entire cabinet could not save the administration.

The visit of the committee to the president was to interpolate him regarding the source of supplies issued to regular troops and bartered by them for drink and food and in turn a source of haciendas having furnished great quantities in return for immunity from robbery, but the most serious report of all is that supplies have been sent from the government arsenal in the capital itself.

Scores of the president's most ardent supporters of six months ago are speculating on his ability to carry the country through the crisis. The element that is giving the most trouble is that which followed Madero during the revolution. This party charges him with not putting into immediate effect reforms promised.

### Trust Allegation Denied.

New York—The answer of the Continental Sugar company, which has refineries at Fremont, Ohio, and Blissfield, Mich., one of the defendants in the government's suit for the dissolution of the so-called Sugar trust, was filed Thursday afternoon in the United States District court. The answer denies that the company is engaged in any unlawful combination or conspiracy to restrain interstate trade or foreign commerce in raw and refined sugar, molasses, syrups and other by-products of raw sugar.

### Strike Abandoned Now.

Davenport, Ia.—Strike talk among employees of the Rock Island arsenal was at a discount as the result of a movement for the acceptance of the Taylor system job cards under protest until the congressional committee, appointed to investigate the system, shall have reported. A definite announcement that the union men will not strike pending the congressional investigation followed a conference between the men and Commandant.

### Turks Close Out Italians.

Constantinople—The Turkish cabinet has decided to put into force the order for closing all Italian institutions in Turkey, including private banks, insurance companies and the orphanage at Scutari.
