### SEVEN ARE KILLED.

Many Injured and Great Damage Done by Arkansas Tornado.

Little Rock, Ark.—Seven persons are known to have been killed and more than a score injured in a tornado which swept portions of Lincoln, Jefferson and Arkansas counties. The greatest destruction was reported near Almyria in the prairie and rice lands of Arkansas county.

Mrs. Ed Johnson, her three children, a hired man named McClain, and an unidentified stranger who was at the Johnson home, were killed. The husband and an infant child were severely injured. A score more persons were injured when their homes were destroyed.

A child by the name of Hamilton is known to have been killed near Swan Lake, Ark. Seven injured were placed on a relief train to be taken to a hospital at Pine Bluff.

At Terry, in the northern part of Lincoln county, several residences were destroyed, and Dr. Williams and his wife were caught in the wreckage of their home, both being injured seriously.

All wires are down in the storm-swept section. Meager reports place property loss in the Almyria neighborhood at \$100,000.

A ten-inch fall of snow covers Missouri, Kansas and portions of Oklahoma and Arkansas. The snow began about noon. A high wind from the north swept snow and sleet before it most of the day, piling it in huge drifts and demoralizing train service and other traffic. Temperatures are not low, 30 degrees being reported from various places.

### RIOTING CONTINUES.

Lawrence Textile Workers Resist Police and Militia.

Lawrence, Mass.—The millworkers' strike, now in its seventh week, was marked by a recurrence of the riotous scenes of Saturday. The disturbances, however, were not connected with the exportation of children.

Police officers were forced to use their clubs on a crowd of strike sympathizers who had thrown stones at them, following some arrests. A small number of infantrymen and a troop of cavalry were sent to the scene and dispersed the crowd, which offered no active resistance to the soldiers.

The city officials gave back to the parents most of the children who were taken in charge as they were about to be placed on a train en route for Philadelphia. The children had passed the night at the city poor farm.

The parents of these children will be called into court to answer to charges of child neglect. Leaders of the Industrial Workers of the World said that another attempt would be made to send children to homes provided for them in other cities.

The leaders maintain that the authorities overstepped their rights in preventing the departure of the children. Federal investigation by congress, it is said, will be welcomed by the strikers.

Thus far more than 300 children have been sent out of the city under the direction of the Industrial Workers of the World.

The strike leaders and some of the parents declared that they have a legal right to send their children away for a vacation. At the poor farm, on the other hand, the officials said that when the parents called for their children they said they had surrendered them under misapprehension and that they are now desirous of taking them home and keeping them there.

### Rebels Between Two Fires.

Douglas, Ariz.—A company of Federal soldiers, led by Commissaria Calles, of Augua Prieta, fought a brief battle Sunday morning with the rebel band which raided the Elias ranch, near the border. The rebels retreated under fire, leaving two dead on the field. Calles and his force overtook the rebels 15 miles south of here. No pursuit was given, as Captain Trujillo with another force of federals is coming up from the south and the two forces hope to catch the rebels between them some time shortly.

### Aviators Daring in Wind.

Oakland, Cal.—Despite the hazardous conditions imposed by a treacherous wind, all of the aviators except Miss Blanch Scott went aloft to please the large crowd assembled for the closing day's programme and thrilled the spectators with figure flights, spectacular races and long glides from great altitudes.

The aviators will go to Sacramento, where a meet is scheduled for the coming week.

### Man of 79 Flies in Air.

San Diego, Cal.—James M. Sears, aged 79, a trowist from Salem, Ohio, had the distinction of being the oldest man in the United States to make a flight in a hydro-aeroplane. In company with W. B. Atwater, in the new model Curtiss machine, he ascended to a height of 500 feet and circled San Diego Bay. "Best sport I ever tackled," he said.

### Only Olive Oil is "Sweet Oil"

Washington, D. C.—That olive oil alone may be sold under label as sweet oil, the board of food and drug inspection, headed by Dr. H. W. Wiley, has decided. Hereafter mixtures of cottonseed oil and olive oil thus sold will be considered by the government as misbranded.

# INDUSTRIAL DEVELOPMENT OF THE STATE

### DALLAS CLUB ON RECORD.

Plan Favored to Validate Titles to Rich Timber Lands.

Dallas—At a meeting of the Dallas Commercial club, the organization went on record as favoring action by congress looking to the validating of titles to rich timber lands held in this county by innocent persons from the railroad company. A resolution to this effect was drafted, and it was ordered that a copy of the same be sent to each of the Oregon representatives and senators in congress.

There are billions of feet of standing timber of first grade quality upon these lands, the title to which is now in dispute, and the lumber industry is being seriously handicapped by reason of this contention over these titles. It is understood that the Spaulding Logging company owns a great deal of this land, and in case title is perfected by act of congress, this company will sell a part of its holdings west of here, and that a new mill will go in at Dallas. Inasmuch as the use of the LaCreole river for logging purposes has been stopped by order of the court, the logging of this timber west of here, and on the upper branches of this river, will necessitate the construction of another railroad line from this city into that territory.

### RAINBOW MINE PROSPERS.

Large Stamp Mill Will Be Installed as First Improvements.

Baker—So successful has been the first year of ownership of the Rainbow mine by the United Smelting & Refining company that extensive improvements are planned. One of them will be a large stamp mill.

A party of the company's officials, including Frederick Lyon, vice-president; C. F. Moore, chief engineer; A. P. Anderson, chief field engineer; and Howard S. Lee, engineer in charge of the Rainbow, were here in consultation with officials of the Humboldt Consolidated Gold Mining company, which controls the Humboldt mine and with Assistant Manager Wright, of the Oregon-Idaho Light & Power company, in regard to getting power for these and other mines in the Mormon Basin country. It is reported that the United States company has already ordered three boilers of large capacity for the mill, which means one of the most beneficial steps to the mining industry in recent years.

### PUBLIC DANCES MAY GO.

Albany Council Considers Putting Them Under Ban.

Albany—Public dances will be absolutely prohibited in Albany if an ordinance introduced at the meeting of the city council this week passes. This proposed law not only abrogates public dances, but provides for the supervision of private dances as well. This ordinance makes it unlawful for any person to hold a public dance or for the owner of any building to rent it for a public dance. A public dance is defined by this ordinance as one that is advertised through the press or by posters or folders or other advertising schemes.

The ordinance recites that nothing in the law shall be construed to prevent private dancing parties but that these shall be held under the supervision of two or more patronesses, approved by the mayor in writing. For violation of any of the provisions of the proposed law a fine of from \$10 to \$50 or imprisonment of from five to 25 days is provided.

### Wool Sale Dates Announced.

La Grande—The secretary of the Oregon Woolgrowers' association, John G. Hoke, of Medical Springs, states that prospects are bright and the outlook unusually good for a fine wool clip this year, and the announcement of sales dates in Eastern Oregon has been made. The dates are: Echo, May 25; Pendleton, May 30 and June 10; Pilot Rock, May 31 and June 10; Heppner, June 4, 5 and 17; Shaniko, June 6 and 21; Baker, June 8 and July 8; Ontario, June 10; Vale, June 11; Metolius, June 24 and July 16; Enterprise and Wallawa, June 28 and 29.

### Indians' Protest Heard.

Pendleton—The small band of Indians which has been attempting to keep the City of Pendleton from acquiring the Thorne Hollow springs as a source of water supply have caused another delay. The land in question is unallotted for the reason it is considered worthless, but according to a resolution adopted by the city council and forwarded to Washington, the acquisition of the land is absolutely necessary in order to keep the springs free from possible contamination.

### Early Plum Blossoms Are Out.

Cottage Grove—The earliest plum blossoms ever seen in this section of the valley were brought into the city Monday by Horace Cochran. There are many who fear a frost and great attendant damage to the precious fruit trees. Garden peas are also in blossom.

### To Have Postal Savings Bank.

Toledo—Toledo is soon to have a postal savings bank. Postmaster Arnold received notice that this office has been chosen. The bank will be opened for business March 7.

### WOODRATS BLAMED.

Porcupines Also Said to Be Damaging Valley Timber.

Cottage Grove—No positive clews have been obtained as yet as to what manner of animal is doing the mysterious damage to the timber on the Storey-Bracher tract, near here. The guesses vary from a woodpecker to a rakabor, and include pine squirrels, wood beavers, woodrats, goats, pocket gophers, worms, sidehill augurs, flying squirrels, mountain beaver and porcupines. The majority of opinions seems to be that it is either woodrats or porcupines. A peculiar feature is that but few porcupines have ever been seen in this county.

Those who believe woodrats are doing the work say their nests will either be found in the tops of the trees or in mounds near the base of the trees. None of these indications have as yet been found in this instance.

Those who believe it is the work of porcupines say that the porkys usually will be found in the tops of trees in which they are working and believe that the pests will be found hiding in some of the big trees which, on account of their great height and thick foliage, would afford ideal hiding places. Only one person has reported having seen any porcupine work in this country before, and he reports that he had some fruit trees destroyed.

### ASSISTING HORSE BREEDERS.

Animal Husbandry Department at College Listing Sale Animals.

Oregon Agricultural College, Corvallis—Prof. E. L. Potter, of the animal husbandry department of the Oregon Agricultural college, in his capacity of secretary of the State Stallion Registration board, has issued to all owners of stallions or jacks in the state a letter in which he offers to keep on file in the office of the board a list of all such animals as are for sale, provided that they are properly registered. The purpose of the board in establishing this list of registered animals for sale is to encourage still further the raising of well-bred horses. From time to time in the past there have been inquiries as to a place of purchase by men interested in breeding good animals. Already the board has a list of considerable size from which prospective purchasers may choose. The service to both buyer and seller is entirely without fee.

### NEW OFFICE FAVORED.

Argument for Aid to Governor to Be Printed in Pamphlet.

Salem—Giving as the proposed order of succession under the prospective constitutional amendment creating the office of lieutenant governor as governor, lieutenant governor, president protem of the senate and then speaker of the house and urging that the amendment will prevent the secretary of state from holding two offices at the same time, the argument in favor of creating this office was filed with the secretary of state.

This argument will be printed in the initiative and referendum pamphlet to go before the people at the next general election.

### Klamath Fisherman Not Worried.

Klamath Falls—It is embarrassing to a fisherman who wishes to have his catch within the law to have his third bite make the string exceed the maximum allowance. James Stevens went fishing on Link River and caught two rainbow trout and one steelhead, which when weighed pulled the scale to 20 1/2 pounds. The law limits the catch to 20 pounds. But as the third fish did not tell Stevens his weight before being pulled out, Stevens' friends hold that he should not be blamed for catching too large a fish.

### Steelhead Run Improving.

Astoria—During the past few days the run of steelheads that had dropped down to almost nothing has increased materially and fairly good catches have been made, the best hauls being made in the bay almost opposite the city. On account of the water being muddy, the fish do not appear to go up the river as rapidly as usual, but are hanging about in the bay. A few Chinook salmon also are being taken, and they are not only of good size, but also of excellent color and flavor.

### Cottage Grove Grange Now Leads.

Cottage Grove—By the taking in of nearly 40 members recently, Cottage Grove Grange outdistanced Evening Star Grange at Portland, until then largest in the state, and the local grange now bears that proud distinction. There was a large attendance of Grangers from the surrounding country and an all-day session was held, with dinner at noon.

### Many Hunters' Licenses Issued.

Pendleton—Over 250 hunting and fishing licenses have already been issued this year in Umatilla county. This is more than two and one-half times the number issued during the first two months of 1911. The greater number of licenses is attributed to the increased activity on the part of the deputy game wardens.

### Station at Fry to Have Shed.

Salem—The State Railroad commission has been advised that the Southern Pacific has agreed to the construction of a shelter shed at Fry, a station near Albany.

### BILL IN NEW GUISE.

Sulzer is Now Author of Apple Box Regulation.

Washington, D. C.—A new apple-box bill, differing somewhat from the Lafean bill, which was killed off in the last congress, has made its appearance in the house of representatives in a somewhat new form and with a different author. The new bill is presented by Representative Sulzer, of New York, and has been referred to the committee on interstate commerce instead of to the committee on agriculture.

While the bill is different in its phraseology from the Lafean bill, it is drafted to accomplish the same purpose—to handicap Western apples in Eastern markets, where they are now commanding top-notch prices and crowding out Eastern-grown fruit of the same varieties.

It is too early in the session to determine what fate awaits the Sulzer bill, but the purpose in referring it to the interstate commerce committee was to get a favorable report, it having been demonstrated that the committee on agriculture, after having gone thoroughly into the subject, is not favorable to such legislation. Whether the interstate commerce committee will report the bill remains to be seen, for when the bill is called up in committee an effort will be made by Western members to prevent a favorable report.

Hearings will be held by the house interstate commerce committee March 7, on the bill, which is very similar to the Lafean bill of the last congress. Representatives Hawley, Fray and others from the Pacific Northwest will oppose the bill and will secure hearings for all Northwestern apple growers who wish to appear.

### DIPLOMAT IS RECALLED.

Colombia Repudiates Letter of Minister at Washington.

Bogota, Colombia—General Pedro Nel Ospina, Colombian minister to the United States, was recalled by the Colombian government.

The action of the Colombian government was taken because neither it nor the Colombian people uphold the position taken by the Colombian minister at Washington in notifying the State department that the proposed visit to Colombia of Secretary Knox would be inopportune because Colombia's claims in connection with Panama have not been arbitrated.

The notification given by the Colombian government says that General Ospina is "separated from his post at Washington, and that the incident between Colombia and the United States is thus closed."

Colombia, it continues, will maintain her international policy.

### Colombia's Act Voluntary.

Washington, D. C.—The only concern of the State department, on being informed of the recall of the Colombian minister, was that it should be thoroughly understood that the department has not directly or indirectly suggested this course, which consequently appears to have been purely voluntary on the part of the Colombian government. The government has all along regarded Mr. Ospina's utterances as purely personal, thereby accepting his own definition of his note.

### Taft Makes Pilgrimage.

Washington, D. C.—President Taft celebrated Washington's birthday by a pilgrimage to Mount Vernon, with a stop at Alexandria, Va., where Washington used to stop on his way from his Virginia plantation to the capital. At Alexandria the president sat in the chair that the first president used as the first master of the Alexandria lodge of Masons. At Mount Vernon he walked between hundreds of sightseers to the click of cameras and whirl of moving picture machines. He placed a wreath of roses on the tomb.

### Nehalem Hearing Given.

Washington, D. C.—Contrary to report, the river and harbor board of review informed Representative Hawley that it had not made an adverse report on the proposed improvement of the Nehalem river, but says that it has now sufficient data as to commerce to justify action. At Mr. Hawley's request another hearing will be given by the board, when Mr. Hawley and other interested persons will appear to urge favorable recommendation.

### Park Will Have Hotel.

Washington, D. C.—Will G. Steel has received notice that the Interior department had granted him a 20-year hotel concession in the Crater Lake National Park, which gives him the right to erect and maintain a hotel. Steel has recently organized a company for this purpose and probably will begin work as soon as the season opens.

### "Lady of Mystery" Dead.

Philadelphia—Mrs. Sarah Keene, the "mystery lady" of the Philadelphia hospital, is dead of old age after 51 years spent in that institution. She was taken to the hospital in 1861, suffering from smallpox. She was cured, but while convalescent lost her memory. To questions as to who she was or from where she came she simply shook her head.

### Explosion Panic Fatal.

Wheeling, W. Va.—In an explosion and panic in a moving picture show at Albrightsville, Preston county, West Virginia, 29 persons were injured, one fatally. Some of the 28 injured are said to be fatally hurt.
