Spring Medicine

There is no other season when medicine is so much needed as in the spring. The blood is impure and impoverished—a condition indicated by pimples, boils and other eruptions on the face and body, by deficient vitality, loss of appetite, lack of strength. The best spring medicine, according to the experience and testimony of thousands annually, is

Hood's Sarsaparilla

It purifies and enriches the blood, cures eruptions, builds up the system.
Get it today in usual liquid form or chocolated tablets known as Sarsatabs.

YOUNG BEAVER'S DAY'S WORK

Industrious Little Animal in Regent's Park Gardens, London, Fells Tree Two Feet Thick.

A young beaver in Regent's Park Gardens, London, was once placed at then. work upon a tree twelve feet long and two feet six inches thick, just as the town clock sounded the hour of noon. The beaver began by barking the tree a foot above the ground.

That done he attacked the wood. He worked hard, alternating his labor with dips in his bathing pond. He bathed and labored alternately until four o'clock in the afternoon, when he ate his supper of bread and carrots and paddled about in his pond until

Ten minutes later, when only one inch of the tree's diameter remained intact, he bore upon his work and the tree fell. Before it fell the beaver ran as men run when they have fired a blast. Then as the tree lay on the I will recommend ground, he portioned it out mentally,

He worked at intervals all night, cut the log into three parts, rolled two of the portions into the water and reserved the other third for his permanent shelter.
