JOHN M. SCOTT, General Passenger Agent, Portland, Oregon.  
B. P. O. E. (Elks) Convention, July 8 to 13, 1912

**Every gallon pays a big dividend**

There's as much difference between sprayed and unsprayed vegetables as there is between those grown on good and poor soil. A gallon of spray material costs only a few cents, but the increase in the value of vegetables sprayed with it amounts to dollars. Try spraying as an investment.

**S-W NEW PROCESS ARSENATE OF LEAD** is an insecticide that will protect your vegetables from leaf-eating insects. It acts quickly and surely and is a very economical insecticide to use because it is very adhesive and remains on the foliage in a poisonous condition even when exposed to severe weather. It will not burn the foliage or poison the soil.

Call in and get our prices and any further information about the Sherwin-Williams New Process Arsenate of Lead.
