**Three G's**

(GOLDEN GRAIN GRANULES)

—If he hasn't got it he will get it for you. It's good for you 3 times a day. And remember that there is no substitute for 3 G's.

## Corner for the Juniors

### OUTFIT OF A "MIND READER"

Electrician Tells What He Discovered in Repairing Communication With Occult World.

A Hindu mind reader found his outfit in bad shape one day and was obliged to enlist the service of a telephone man to again place him on "speaking terms" with the occult world. What the electrician found, says a contemporary, was as follows: On the floor of the room where the confiding victim handed over the "necessary" in order to know the future was an ordinary-looking rug. To the under side of the rug eighteen turns of copper wire in the form of a coil were carefully sewed, the two ends passing through the wall at the floor and into the next room. Here a few dry cells and a telephone transmitter were connected with the circuit.

The Hindu professor could never "concentrate his mind" without wearing his turban, for concealed in this was an ordinary telephone head set from which wires ran down in his clothing and connected with a coil of wire about the professor's waist and held up by his suspenders. After money matters had been attended to the victim, in most cases a woman, was asked to write her name.

Secured the Bag.

age and questions she desired to have answered upon a slip of paper, which she deposited in a velvet bag on a nearby table, without having it read or touched by the Hindu. An assistant, who always managed to be busy near-by, secured the bag, retired to the next room and repeated the name, age, questions, etc., into the telephone transmitter and the professor, pacing about upon the rug, received the information by induction and soon had his victim's confession to such an extent that any answers were satisfactory. The break with the occult world was due to a poor joint in the wiring.

### NAMES OF A SPANISH ORIGIN

Many of Geographical Terms Used in Western Hemisphere Derived From That Language.

You have been reading a great deal about the Spaniards and are probably aware that many of the geographical names in the western hemisphere are derived from their language; even two-thirds, it is said, but you may be surprised to learn that many others in common use come from the same source.

We speak of negro children as "pickaninies." This word is derived from Cuban "piquinine." The word "negro" is Spanish, meaning black. "Sambo" comes from "zambo," meaning bow-legged. "Mulatto" and "quadroon" were originally Spanish. The name of the Spanish patron saint, "Diego" (James), gave rise to the slang term "Dago," as applied to Italians and Spaniards in this country. Pumpkin pies are no less appetizing for having been made with the assistance of a colander which comes from the Spanish "colador," and that bitter but valuable medicine, quinine, is named in honor of the countess of Chinchon, who discovered it in 1631. Chinchona is the doctor's name for this fever remedy. From the towering peaks of the Andes in South America comes the "coca" plant, one of whose products is "cocaine," a soothing drug, which renders the dentist's chair somewhat less a place of torture.

Now that peace is declared, we may drink to the Spaniard's health with "sarsaparilla" soda water. From the Indians Columbus got the word "hamaca," which we have changed into "hammock." "Grenadiers" and "hand-grenades" naturally, originated at Grenada, the old Spanish city. "Capstan" (rope-winder) the Spanish call "cabestrán." "Caravel," "flotilla," "armada" and "galleon" are well-known words of Spanish origin. To the Spaniard "mariner" is "marinero."

Owing to the splendid enterprise of the Spanish explorers three and four centuries ago, Spanish names are to be found all over the world. Some of the most interesting in this country are: Colorado (the red), Texas (the tiles), Nevada (the snowy), Florida (the flowery), Utah, New Mexico, Arizona and California.

### Boyhood Days.

Little Ethel—"I wonder why men always like to talk about their school days?" Little Willie—"Oh, I guess it's because after they get growed up they want to find out where their teachers live so they can do unto them as they got done by."

## PROPER MANAGEMENT OF SOWS OF THE UTMOST IMPORTANCE

Animals in Good Physical Condition Will Care for Their Young and Raise Them in Excellent Manner—Best Food Just Before Farrowing Time Is Wheat Middlings and Bran.

Excellent Type of Berkshire.

(By L. G. JOHNSON.) Quite often I have heard the complaint of sows eating their pigs, and only a short time ago a neighbor of mine had a fine brood sow to eat her pigs immediately after farrowing. Now this is not natural for a sow to do so, and when they do there is a reason for it, if that reason is only looked for.

Sows by nature are not cannibals and if they are in good physical condition they will care for their young and raise them in the proper way.

On the other hand if she is nervous and fretful at farrowing time she is apt to eat her pigs, but when they have the run of good pasture and are properly fed and cared for they seldom eat their offspring.

If a sow is compelled to live in the barnyard, sleep in manure piles or straw stacks, and only fed a little dry corn she is apt to be feverish, constipated and have but very little milk, and in such cases she is likely to eat her pigs or lie on them and smother them before they are old enough to suck.

I have a large basement under my barn where the frost is never seen and in case the weather is very cold I give my sows a good, warm, dry pen in this basement. I don't care about the pen being over large, a pen sixteen feet square is large enough for four sows up to two weeks before farrowing, after which I place each sow in a separate pen with her pigs. I like this pen to be ten feet square with light bedding, cut straw is preferable.

The best food for a brood sow is wheat middlings, the coarser the better, or wheat bran and middlings may be mixed half and half. This should

be wet to a stiff mass with milk, house slops or water, where it is available skim milk is the best for this purpose.

Besides this she will eat and should have plenty of clover or alfalfa hay; it is surprising the amount of clover hay that a sow will eat, especially to those that have never fed the same to hogs; in addition to this I always feed my brood sows about four or five pounds of sugar beets to every hundredweight per day; I feed them whole for the purpose of giving the sow exercise in eating them, some advise the feeding of raw apples but I do not like to feed any great amount of them especially if they are sour.

One winter I kept six sows in the same pen and fed them the following rations per day: Twenty-seven pounds of sugar beets, ten pounds coarse middlings and all the clover hay they would eat, and they came out in shape that was hard to beat and raised forty-seven nice healthy pigs.

In addition to the above ration I keep a box in the pen where the sows may have free access to it at all times filled with the following: Charcoal six parts, wood ashes two parts, and two parts salt. It is needless to say that plenty of pure clear water should be given to the sows as most everyone realizes this fact.

I always handle my sows and humor their whims in order to keep them gentle as a gentle, well-satisfied sow will do better and have better success with her pigs than one that is nervous and fretful.

Brood sows should not be fed for the purpose of fattening them but only feed enough to keep them in a thrifty, strong and healthy condition.

## KANSAS COWS MAKE RECORDS

Carlotta Gave 15,773 Pounds of Milk in One Year—Fairly Good Average Yield Is 6,000 Pounds.

If a cow gives 6,000 pounds of milk a year most men are satisfied. This is a fairly good average yield. But here are some two-year-old Ayrshires that surpass that figure by a long way. Their work was described by Prof. O. E. Reed, head of the dairy department in the annual institute. Here are the records:

Canary Belle, 10,118 pounds of milk and 437 pounds of butter, 3.7 per cent test.

Fearnot of Oakdale, 5,218 pounds of milk and 292 pounds of butter, 4.08 per cent test.

Johanna of Juneau, 7,681 pounds of milk and 335 pounds of butter, 3.72 per cent test.

Rose of Oakdale, 5,956 pounds of milk and 308 pounds of butter, 4.42 per cent test.

Any one of these cows would support a family of five persons. Such cows probably could be bought for \$175 or \$200, but not at the college. The cost of feeding the ration, and the income, may be gauged for all the group by referring to the history of Johanna of Juneau, a model family cow: Johanna ate, every day, thirty pounds of silage, ten pounds of alfalfa hay, and nine pounds of grain, consisting of four parts of corn, two parts of bran, and one part of cottonseed meal. This ration cost \$5 a month. It was fed as described only when the cow was giving the highest yield. One pound of the grain ration was allowed for every three pounds of milk, so that when Johanna gave 27 pounds of milk a day she received 9 pounds of the grain.

Johanna gave 893 gallons of milk which sold in Manhattan for 32 cents a gallon, 8 cents a quart, or \$285.76. Not a bad kind of a cow to have around. And, by the way, a gallon of milk weighs eight pounds. Professor Reed told, too, of another fine cow, a Holstein, thirteen years old—Carlotta Abbecker 52826. Carlotta's year record test was finished ten days ago. She gave 15,773 pounds of milk and 515 pounds of butter fat, equivalent to 606 pounds of commercial butter. Her feed cost \$95.50. Most cows pass their usefulness period at 6 or 9 years. This old cow of 13 years returns a profit, leaving out details, of \$75.75 net. If her milk had been sold at 7 cents a quart it would have brought \$512.50. Deducting the feed bill the owner would still have \$418. Her milk was skimmed, though, for the calves, and the cream used for butter.

## BREEDING BULLS NEED EXERCISE

Close Confinement Will Ruin Disposition of Otherwise Kind Animal—Makes the Best Sire.

(By G. M. TWICHELL.) I saw a good bull the other day which was being spoiled by kindness. He had not been out of his little pen for more than a year, his feet were out of shape and naturally he was crabbed and surly. Who wouldn't be under such treatment? It is simply inhuman, but it's common. A day or two later I saw another in a well fenced enclosure, with an overhead wire firmly attached to strong posts set 40 feet part at the ends of the pen, and a chain connecting the bull's nose to the wire. Here he traveled day after day, the fence too high for him to see other cattle, but with plenty of room for exercise. The good nature of the animal told of the success of humane treatment. It is not only cruelty to keep a bull closely chained day after day and year after year, but more than that, it will ruin the disposition of an otherwise kind animal. The law of environment holds here, and the bull suffering for exercise cannot be as good a breeder as his neighbor made comfortable in every way. Try it.

## STABLE MANURE QUITE VALUABLE

Most Important and Abundant Material for Soil Improvement—Much Unnecessary Waste.

Farm manure always has been and probably always will be the most important and most abundant material for soil improvement. It is a necessary product on every farm and on stock farms a product which accumulates in very large amounts. If not used for soil improvement it becomes a worthless nuisance about the stables. A conservative estimate places the annual production of farm manure in the United States at two billion tons. The actual and known agricultural value of fresh farm manure containing both the liquid and solid excrements is \$2 a ton, if the value is measured in terms of plant food or by the actual increase in crop yields produced by the use of the manure on long cultivated soils. The unnecessary waste and loss of farm manure which occurs in the United States each year is equal in value to ten times the value of all commercial fertilizers used in this country.

## W. L. DOUGLAS SHOES

W. L. Douglas makes and sells more \$3.00, \$3.50 and \$4.00 shoes than any other manufacturer in the world

**\$2.50 \$3.00 \$3.50 \$4.00 \$4.50 & \$5.00**

FOR MEN, WOMEN AND BOYS

W. L. Douglas \$3.00 & \$3.50 shoes are worn by millions of men, because they are the best in the world for the price. W. L. Douglas \$4.00, \$4.50 & \$5.00 shoes equal Custom Bench Work costing \$6.00 to \$8.00

Why does W. L. Douglas make and sell more \$3.00, \$3.50 and \$4.00 shoes than any other manufacturer in the world? BECAUSE: he stamps his name and price on the bottom and guarantees the value, which protects the wearer against high prices and inferior shoes of other makes. BECAUSE: they are the most economical and satisfactory; you can save money by wearing W. L. Douglas shoes. BECAUSE: they have no equal for style, fit and wear. DON'T TAKE A SUBSTITUTE FOR W. L. DOUGLAS SHOES.

If your dealer cannot supply W. L. Douglas shoes, write W. L. Douglas, Brockton, Mass., for catalogue. Shoes sent everywhere delivery charges prepaid. *Fast Color Pigments Used.*

### A RECORD-BREAKING YEAR

Willamette Valley Chautauqua Plans for Largest Crowd in 18 Years.

"The Chicago Operatic Co.," Lou J. Beauchamp, "Rev. Wm. Spurgeon," "S. Platt Jones," "Mexican Troubadours," "Judge F. P. Sadler," "Fred Emerson Brooks," "Lee Emerson Bassett," "John Mitchell" are among the well known names noted on the program of the Willamette Valley Chautauqua to convene at Gladstone Park, Oregon City, Or., July 9 to 21, 1912. These are only a few of the features their booklet tells us about, and it looks as if the 19th year of the Chautauqua would be the best yet. Extensive improvements are being made in the beautiful Gladstone Park, the directors evidently expecting a record breaking crowd. Even the P. R. L. & P. Co. has caught the spirit and is rebalancing its branch line which leads into the park and thereby facilitate and improve its half hour car service from Portland and Oregon City.

Learn Him Something. "Poets are born and not made," said the young man with the pale, interesting face and the long hair. "Are they?" replied his wife. "Well, I'll show you that they are made sometimes. I'll make you watch the baby while I go shopping this morning or you shall never have another dollar that my father sends to me."

Be thrifty on little things like bluing. Don't accept water for bluing. Ask for Red Cross Ball Blue, the extra good value blue.

Ready. "The Rev. Mr. Gude—'Isn't there some one here who will help us keep up interest in the church?' Deacon Tightwad (suddenly awakening)—'I for one am prepared to raise the rates to eight per cent. on chattel mortgages if the other money lenders in the congregation will co-operate.'"

Automobile Eye Insurance needed after Exposure to Sun, Winds and Dust. Murine Eye Remedy freely applied Affords Reliable Relief. No Smearing—Just Eye Comfort—Try Murine.

Br'er Fox Again. "A fox which was hard pressed by the Essex Union Hounds entered a house in High street, Billerica, and bolted upstairs into a bedroom. When found," says Punch, "he pretended to be a wolf rehearsing 'Red Riding Hood' for a cinematograph show, but his tale was..."

Mother will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

The World's Greatest Slave. Aesop probably is one of the most noted slaves that ever lived. The fables and stories he told have delighted mankind for twenty-five hundred years, and there is no telling how much longer the world will continue to enjoy them. Aesop was so deformed that for a long time his Greek master could not sell him. Finally he was sold, and the master found him so wise that he was set free.

Hard Luck Feared. "You should lay aside something for a rainy day." "And have the roof leak and spoil it."

To Break in New Shoes. Always shake in Allen's Foot-Powder, cures hot, sweating, itching, swollen feet, corns, ingrowing nails and bunions. At all druggists and shoe stores, 25c. Don't accept any substitute. Sample mailed FREE. Address Allen S. Olmsted, Le Roy, N. Y.

Some Proof. Hunt Secretary (to inexperienced assistant, who is telling him, after run about some poultry claim)—"But how do you know they ever had the fowls? Did they show you the corpses?" Assistant—"No, not exactly; but it's all right, don't you know, they showed me the empty roosts."—Punch.

**St. Helens Hall**  
Portland, Oregon

Resident and Day School for Girls in charge of Sisters of St. John Baptist (Episcopal) Collegiate, Academic and Elementary Departments. Music, Art, Elocution, Gymnasium. For catalogue address THE SISTERS SUPERIOR Office, St. Helens Hall

**DR. W. PRUNDER'S OREGON BLOOD PURIFIER**

A Tonic, Alternative and Resolvent. The best remedy for Kidneys, Liver and Bowels. Graduates Pimples, Eruptions and Disorders of the Skin. Purifies the Blood, and gives Tone, Strength and Vigor to the entire system.

Advocates Leaves of Soap. A chemical friend of the Scientific American suggests that a campaign be started against the common cake of soap. About 60 years ago there was sold a form of soap for travelers, consisting of a booklet, about two inches by four inches, in which small leaves of soap paper saturated with soap were bound. Each leaf contained enough soap for one washing of the hands. It is suggested that one might profitably dispense, through a penny-in-the-slot machine, a paper towel in which is folded a sheet of soap paper, for convenient use in public lavatories.

Red Cross Ball Blue gives double value for your money, goes twice as far as any other. Ask your grocer.

Industry Coming Into Its Own. Guayule was for years overlooked or despised; its rubber content was considered of little or no value, and when at last acknowledged this was said to be inferior to other rubber because it did not come from the tropics. Yet in spite of all guayule has become an important source of rubber supply, millions of dollars have been invested in the industry, factories have been erected close to the guayule fields and towns have grown up for the operatives and field laborers.

When Your Eyes Need Care Try Murine Eye Remedy. No Smearing—Just Eye Comfort—Try Murine. Try it for Red, Weak, Watery Eyes and Granulated Eyelids. Illness treated Book in each Package. Murine is compounded by our chemists with a "Patent Medicine"—but used in successful Physicians' Practice for many years. Now dedicated to the Public and sold by druggists at 25c and 50c per Bottle. Murine Eye Remedy Co., Chicago

Original of Sam Weller. The original of Sam Weller was Sam or Samuel Vale, who was well known as a London comedian who acted in the farce called "The Boarding House" and subsequently at Covent Garden theater. Sam Vale was noted everywhere for the Wellerisms, such as "Come on, as the man said to his tight boot." "I'm down on you, as the extinguisher said to the candle." "Where shall we fly, as the bullet said to the trigger," and "Let everyone take care of themselves, as the donkey observed when dancing among the chickens." Sam Vale died in 1848.

A Confession. "Well," he said, "it is—let me see!—three years since we met crossing the ocean, isn't it? Are you married yet?" "No," she sweetly replied, "again."

**Mexican Mustang Liniment**

FOR RHEUMATISM.

Mrs. Olive Huntington, Norton, Ore., says: "I consider your Mexican Mustang Liniment the best of liniments. I have used it for different ailments and it always gave satisfactory results. It is especially good in cases of Inflammatory Rheumatism and all forms of lameness."

25c. 50c. \$1 a bottle at Drug & Gen'l Stores.

**Painless Dentistry**

is our pride—our hobby—our study for years and now our success, and ours is the painless work to be found anywhere, no matter how much you pay. Compare our Prices.

We finish plate and bridge work for you in one day if desired. Painless extractions from when plate or bridge work is ordered. Consultation free.

Molar Crowns \$5.00  
22k Bridge Teeth 4.00  
Gold Fillings 1.00  
Enamel Fillings 1.00  
Silver Fillings .50

WHEN writing to advertisers, please mention this paper.

**DAISY FLY KILLER**

placed anywhere, attracts and kills all flies. Neat, clean, ornamental, convenient, cheap. Kills all seasons. Made of metal, cast will not rust or tip over; will not soil or injure anything. Guaranteed effective. Sold by dealers or 6 sent prepaid for \$1.

HAROLD SOMERS, 150 DeKalb Ave., Brooklyn, N. Y.

As to Buying. Whatever we wish to buy, we ought first to consider not only if the thing be fit for us, but if the manufacture of it be a wholesome and happy one; and if, on the whole, the sum we are going to spend will do as much good spent in this way as it would if spent in any other way.—Ruskin.

## RECORD OF A GREAT MEDICINE

Doctors Could Not Help Mrs. Templeton—Regained Health through Lydia E. Pinkham's Compound.

Hooper, Nebraska.—"I am very glad to tell how Lydia E. Pinkham's Vegetable Compound has helped me. For five years I suffered from female troubles so I was scarcely able to do my work. I took doctors' medicines and used local treatments but was not helped. I had such awful bearing down pains and my back was so weak I could hardly walk and could not ride. I often had to sit up nights to sleep and my friends thought I could not live long. At my request my husband got me a bottle of Lydia E. Pinkham's Vegetable Compound and I commenced to take it. By the time I had taken the seventh bottle my health had returned and I began doing my washing and was a well woman. At one time for three weeks I did all the work for eighteen boarders with no signs of my old trouble returning. Many have taken your medicine after seeing what it did for me. I would not take \$1000 and be where I was. You have my permission to use my name if it will aid anyone."—Mrs. SUSIE TEMPLETON, Hooper, Nebraska.

The Pinkham record is a proud and precious one. It is a record of constant victory over the obstinate ills of woman—ills that deal out despair. It is an established fact that Lydia E. Pinkham's Vegetable Compound has restored health to thousands of such suffering women. Why don't you try it if you need such a medicine?
