#### THE COUNTRY CHURCH.

The country church I consider in most respects the most important institution in these United States. And I say this although I realize that the same indifference toward church life and churchgoing which has swept through our cities has also affected our country churches. The point is, however, that we cannot afford to have a prosperous agricultural life that is purely materialistic. The church is the one great institution concerned with the higher human instincts. The church has been weakened by several causes. For one thing there are too many churches, and as a result denominational jealousies are strong, the churches are poor, and the ministers are poorly paid. This is not true in all parts of the country, however, and there are splendid exceptions—strong, fine country churches with active pastors. As a matter of fact, I suppose we could have better agriculture without the country church—that is, the church is not educational, and if it comes to pure agriculture we could teach the farmers how to take care of their farms without bothering with the church part at all. But I believe that the church is absolutely necessary for bringing the country community to its highest level of individual and community life. No other agent can take its place, because the religious instinct is fundamental. Sooner or later any civilization that survives must be dominated by religious influences.—Kenyon L. Butterfield.

You must be particular—acting, when choosing a remedy for baby's cough. #### THE METHODIST CHURCH

There will be a meeting of the men of the Methodist Episcopal church, and their friends, in the church parlors Friday evening at 7:30, for the purpose of organizing a Brotherhood. Rev. J. K. Hawkins, of Sellwood, the pastor and leader of the best working ing Brotherhood in the city of Portland, will be present to direct the movement.

#### CONGREGATIONAL CHURCH

Rev. Thomas will occupy the pulpit morning and evening. The subject for the morning sermon will be "The Cost of Missing a Meeting." The evening discourse, "Lincoln, or A Man sent from God." The missionary meetings Tuesday and Wednesday were most helpful and interesting. The speakers of note who addressed the gatherings gave talks of missionary work which were of the greatest value in every respect.

#### THE CHRISTIAN CHURCH.

Rev. M. H. Kendall will preach at the Christian church next Sunday morning and evening. Mr. Kendall is a splendid speaker, and has a good message. Hear him next Sunday. The pastor of the church will be at Independence for the next week or so in a revival.

The Teachers and officers' conference at the Christian church last Friday night was one of the most interesting meetings of that kind ever held. All teachers were present but two, and all officers but one. The meeting consisted of discussions on the best methods of improving the work of the school, and some most valuable suggestions were made. Some of these will be put into immediate operation. The special feature every Sunday is already creating interest and other interesting things will be inaugurated. The school is doing good work under the leadership of J. A. Parker.

#### Nitric Acid Destroys Stump.

An Australian farmer has discovered a method of destroying stumps. He bores a two-inch augur hole and pours in nitric acid, followed by sulphuric acid. This treatment rots the stump so completely in five weeks that it can be knocked to pieces with a hoe. About half a pint of each acid suffices for a three-foot stump.

#### Would Meet Death in Oregon.

Herbert Hunter, 70, the "human polar bear," stepped into the Rogers hotel today and asked for his mail. He was attired in a light gray suit and a gray felt hat, says a Minneapolis daily of recent issue.

"I don't know as I can stand this much longer," he said. "I can't wear a straw hat and go around in my shirt sleeves or people will think I'm crazy, but this warm weather you are having is killing me.

"Yes," said Hunter, "I've quit sleeping out in the parks. I am staying with a friend out on Cedar avenue. I occupy the sleeping porch, but even then I have to fan myself half of the night to get to sleep." And its forty below in Minneapolis.
