MAXIMS OF ERASMUS.

Read first the good books. The important thing for you is not how much you know, but the quality of what you know. Divide your day and give to each part of it a special occupation. Never work at night. It dulls the brain and hurts the health.

The justest war can hardly approve itself to any reasonable person.

They may chain the tongues of men; they cannot touch their minds.

To kill one's fellow creatures requires no great genius, but to calm a tempest by prudence and judgment is a worthy achievement indeed.

Christ is nothing else than love, simplicity, patience, purity—in short, all that he himself is—and the devil is nothing but that which draws us away from these ideals.

Nothing Harmful

in Baby Cough Syrup.

You must be particular—ex-acting, when choosing a remedy for baby's cough.

There are so many remedies containing habit-forming drugs that baby's health will be greatly impaired unless you know absolutely just what the remedy contains and the action of each ingredient, so you can be sure it is harmless.

NYAL'S

BABY COUGH SYRUP

is sold by us on a positive guar-anty—we know the contents and the action and know that it will do as represented. It breaks up a cough in short order, protects the membranes of the throat against irritation and infection, rids the throat of all injurious deposits, and prevents further accumulations.

Contains no habit-forming drugs and can be given with perfect safety—baby will like it, too.

Twenty-Five cents the bottle

THE PEOPLE'S FORUM

New Building A Necessity.

Some opposition to the proposed issue of \$35,000 of school bonds has been cropping out on the grounds that a \$20,000 building would be sufficient.

If the new building is to be of brick and concrete it must be evi-dent to anyone who knows any-thing about buildings that \$20,-000 would not be enough. The Carnegie Library of Pacific Uni-versity cost \$20,000 and it has just one story and a basement and not one half the floor space that a public school building would need.

A good frame building could be built for less than \$20,000; but it was the emphatic senti-ment of the school meeting on December 30th that the new building should be of brick. A motion was made at that meeting to limit the cost of the new build-ing to \$25,000, but it was voted down hard, because the men pres-ent familiar with the cost of buildings declared that an ade-quate brick building could not be erected at a cost of \$25,000, much less at a cost of \$20,000.

A building containing ten or twelve good rooms with full cement basement and up-to-date heating plant can be built for \$35,000. Such a building would be a credit to the town. It is simply a matter of business to build permanently and well from now on.

The sight purchased by the Board and Advisory Committee is admirably located on Third avenue South and Fifth street opposite the beautiful Rodgers Estate, and just the same distance east of the Central building as the Lincoln building is north, i. e., 5 blocks.

The Bond election comes on Saturday, March 1st, from one o'clock to 4 o'clock p. m. at the Central building.
