DRUG NAMES

A living language is a changing one. Each day brings variations that oft times leads to confusion in the interpretation of words and phrases. Hence it is the dead Latin language is used in medicine. There is safety in its unchanging word-forms and fixed meanings. No matter how a prescription may be presented, the Latin name of each specified drug means but one substance and the prescriber knows.

Bring your prescription to us and it will be filled right, with the purest of drugs.
