

GROVE CITIZENS HELP

People in Far Off Oregon Respond to the Needs of the East

The big heart of the great Northwest was deeply touched by the distress of the central states and carload after carload of food and clothing was dispatched to the afflicted districts. Friday a car of potatoes from Forest Grove, Oregon, reached New Harmony, having been diverted to this point by the Red Cross agents for use in this locality. The car bore the following placard:

"With Best Wishes from the People of Forest Grove, Oregon."

There was another card (intended for the people of Forest Grove) which gave the date on which the car would be loaded for the stricken people of the east and the mere announcement, caused it to be filled to overflowing with the finest potatoes ever seen in this region.

From some interesting literature found inside the car the information is gained that Forest Grove contains 2,700 people, is 26 miles west of Portland and only 40 miles from the calm Pacific. It is on the Southern Pacific and is in the rich Tualatin valley which produces all varieties of grains and vegetables, grapes, prunes and the far-famed apple that has made Oregon famous.

Forest Grove has the largest milk condensing plant on the Pacific coast and pays the dairymen of the district \$40,000 per month for milk. The Pacific University is located there, it has splendid public schools and a commercial club made up of hustling business men, of which J. H. Connet is the secretary. What seems to be the biggest asset just now is the splendid generosity of its citizens who have responded to the needs of the east with many carloads of produce and extended across the Rocky mountains the hand of Fellowship.—New Harmony Times, Ind.

The generous contributions of the Grove and vicinity to the unfortunate sufferers from the flood disaster, feel more than amply compensated, from the expression given in the above article. "Cast thy bread upon the waters and it shall return unto thee after many days."

Grand Army Encampment.

The 32nd annual department encampment of the Grand Army of the Republic will be held at Newberg, Oregon, on the 17, 18, 19 of June, 1913. At this encampment will be decided by ballot where the next encampment will be held. Will Forest Grove be the fortunate city? Do you want it? It will increase the population of this city 2000 talking, thinking, active people of the Grand Army, Woman's Relief Corps, the Ladies of the G. A. R. and perhaps the Sons of Veterans and a camp of the Boy Scouts and visitors from other departments all of whom will carry the news, one of the best advertisements for 1914. See W. J. R. Beach about it.

Here's Something New Secretary Of War Won't See With His Eye

Photo copyright by Wilson.

LINDLEY M. GARRISON, the new secretary of war, late a vice chancellor of New Jersey, has dropped his dry law books and intricate questions of equity for the more exciting implements of war and the problems of national defense. He'll inspect some of the more important forts as soon as he can, and when he reaches Fort Monroe, Va., he will see the big guns in target practice. But his eye, no matter how keen, will not be able to catch such a picture as this. The snapshot, timed by an electrical apparatus attached to the gun, shows the projectile just shooting forth above the cloud of smoke. Other snapshots have been taken so delicately timed as to show the projectile in various other stages of its flight.
