Victor Brown of this city has been appointed by the State Forester as Supervising Warden, for Washington county. He will have charge of all state, county and private patrol work in this county, and cooperate with Forest Supervisors of the National Forests to the greatest possible extent.

It is hoped that residents of the county will give him their hearty support and consult him in regard to burning permits etc, of a local nature. He will be in touch with all local wardens and will gladly refer requests for information to the nearest you for any information or assistance he may be able to give. A list of local wardens with their addresses and telephone numbers will be published in the local papers when such appointments are made.

It will be impossible for the State Forester to personally inspect all the work done by the numerous supervising wardens in his employ and their success will depend very largely upon the support they receive from the people whom the Forestry law is intended to aid and protect.

STRONG ADDRESSES ON PROHIBITION

Lindley A. Wells, who is speaking for the National Prohibition association in Oregon, addressed audiences both night and morning at the Congregational church Sunday.

He stated that the people of the state of Kansas have more money per capita than the people of any other state in the union, and that there is less booze drunk there than in other states; also this applies to Maine; these states have fewer inmates of public institutions than where the saloon exists. He quoted statistics to prove this. He stated that in its infancy prohibition made great strides, owing to the fact that the saloon interests had not organized to fight the prohibition movement. But now they are using every effort to fight the movement, and that to meet this the temperance forces must be up and doing.
