Pacific Avenue at Third Street.

AT THE CHURCHES

Sunday evening the churches of Forest Grove will meet in union service at the college campus to hear Lindley A. Wells, field superintendent for the Oregon "Out to Win" prohibition campaign. The meeting will begin at 7:30 p. m.

A W. C. T. U. Mothers' Meeting will be held next Friday afternoon in the Congregational church parlors. The meeting will be addressed by Judge Hollis on the subject, "Our Women in Municipal Affairs."

CHURCH NOTICES.

FIRST METHODIST: Hiram Gould pastor. Sunday School 9:45 a. m., Mr. Schramel, Superintendent; Preaching Services 11 a. m., Epworth League 7 p. m., Evening Preaching Service 8 p. m., Prayer Meeting Thursday evening.

How To Kill Flies

To clear rooms of flies carbolic acid may be used as follows: heat a shovel or any similar article and drop thereon 20 drops of carbolic acid. The vapor kills the flies.

A cheap and reliable fly poison, one which is not dangerous to human life, is Bichromate of Potash in solution. Dissolve one dram, which can be bought at any drug store, in two ounces of water, and add a little sugar. Put some of this solution in shallow dishes, and distribute them about the house.

Sticky fly paper, traps and poisons are among the things to

use in killing flies, but the latest, cheapest and best is a solution of Formalin or Formaldehyde in water. A spoonful of this liquid put into a quarter of a pint of water and exposed in the room, will be enough to kill all the flies.

To quickly clear the room where there are many flies; burn Pyrethrum powder in the room. This stupefies the flies when they may be swept up and burned.

If there are flies in the dining room of your hotel, restaurant or boarding house, complain to the proprietor that the premises are not clean.

Swat the fly. Presented by womans club.

Some way a neat farm home with buildings well painted always goes with a good farm and good farming. Does anybody wonder why?

Turning Alfalfa Into Pork.

At the Kansas experiment station 800 pounds of pork were made from one ton of alfalfa hay and 770 pounds from an acre of alfalfa pasture. At the Nebraska station hog rations consisting of one-fourth alfalfa hay showed the alfalfa hay worth its weight in cornmeal and superior to the same weight of bran. The Iowa station made pig pork at \$3.84 per 100 pounds and realized 71.1 cents per bushel for corn. With alfalfa and corn, pork cost \$2.88 per 100 pounds, and corn returned 80.6 cents per bushel, a difference of 33.13 per cent in favor of alfalfa.

How to Handle Blackberries.

When picking blackberries get them out of the sun as soon as possible or they'll turn red in spots and not be so salable. Hurry them into the crates and then into a cool cellar until time for shipping or selling. Fill the boxes full and pack neatly in clean packages. If you want a fancy price make the crates look attractive.—Farm Journal.

To Kill Burdock.

To kill burdock put crude carbolic acid on the roots after cutting close to the ground with a hoe. This method is effective and probably as cheap as anything. The carbolic acid may be applied with a small oil can. A few drops poured into the crown of the plant will be found effective.—National Stockman and Farmer.

Be Merciful to Your Dog.

Unless there is a running stream near by, so that the dog can get a drink when he is thirsty, fix him a dish and see that it is regularly supplied with fresh water. A dog is a dog; he is your dog and your friend; treat him as such.—Farm Journal.
