NEWS FROM OUR GOVERNOR SULZER NATIONAL CAPITAL Desire to Talk Will Prelong the Passage of Currency Bill

at Special Session.

Washington .- There is no reason to doubt that congress will pass a currency bill, in a form acceptable to President Wilson, but there will be a great deal of surprise if the currency bill passes as soon as the president wishes; that is, at the present special session. The president unquestionably has the democratic majority in both senate and house working in complete harmony with his legislative plans and from that majority he can get exactly what he wants in the way of legislation. The majority, however, cannot fix the time for voting in the senate, and for that reason the president is likely to be disappointed over the delay in completing the Glass-Owen bill.

Under the rules of the senate, debate in that body cannot be limited, even by the party in power, and a vote cannot be forced except by unani-

mous consent. From present indications a great many democrats, as well as most republicans in the senate, will desire to speak on the currency bill. With the general desire to talk it will be difficult to get a vote on the currency

bill within two months, and there will not be two months remaining after the currency bill is reported to the senate.

Tariff Bill May Bring Trade War.

Apprehension lest the Democratic tariff bill lead foreign nations to imed States as soon as the new law goes into effect caused administration and making specific provision for the con- celled. tinuation of existing relations with all countries until President Wilson has time to negotiate new trade agreements.

The seriousness of the situation was impressed on Chairman Simmons. of the senate finance committee, by state department officials. It was pointed out that the trade relations established by President Taft's proclamations under the Payne-Aldrich law of 1909 would terminate as soon as the new law becomes effective, and that the United States then would face the possibility of having higher tariff rates applied against its exports by many countries.

Alcohol Duty Favored.

The tariff conferees have agreed to Senator Lane's proposal to make more liberal the regulations concerning the manufacture of denatured alcohol. with a view to facilitate its manufac ture by farmers from their waste prod ucts. It is also possible that a small duty, for which Senator Lane has contended, may also be assessed. If this is done, Senator Lane believes importations will provide a material amount of revenue and considerably aid farmers and other domestic manufacturers of the product. MUST STAND TRIAL Motion of Counsel to Dismiss **Proceedings Overruled by**

a Vote of 51 to 1.

Albany, N. Y .- Governor William Sulzer must go to . trial. This was decided by the high court of impeachment when, by a vote of 51 to 1, its members overruled the motion of the governor's counsel to dismiss the proceedings on the ground that he was unconstitutionally impeached by the assembly because that body was in extra session when the impeachment was brought.

The governor's defeat was the sec ond that has marked the battle waged his attorneys to annihilate, as far by possible, the impeachment proceed-3.8 ings. Last week the court thwarted their attempt to prevent four senators from sitting as members. Their remaining ammunition consists of arguments to prove that certain of the offenses charged against the governor are not impeachable.

The opinion in substance was that the provision of the constitution which limited the acts of the legislature in extra session to such subjects as were recommended to it by the governor should be given a reasonable construc-

He ordered the horses delivered to him at the feed ward, and some of the ranchers went to the trouble and expense of driving 16 miles, that they might deliver the animals and consummate the expected sales.

Officers say the stranger never had any intention of buying the horses, but negotiated for them in order to gain the confidence of local business men whom he induced to cash his worthless checks.
